20 Raise the flap.

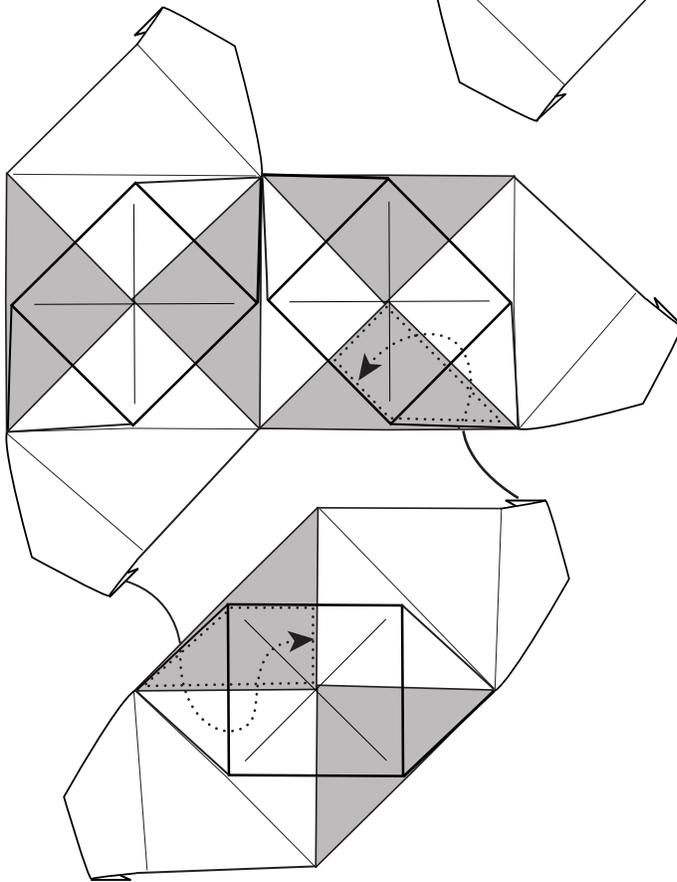

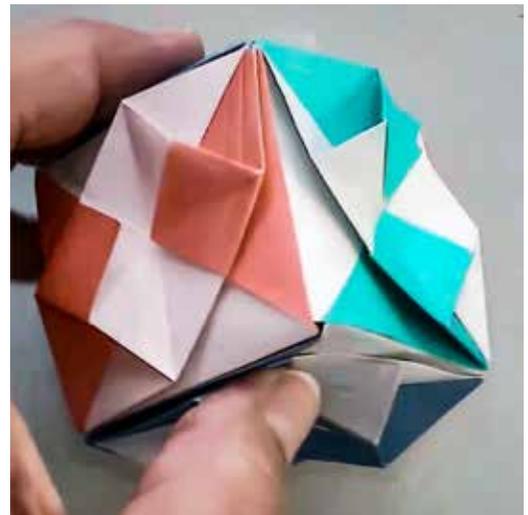

22 Open the upper flap slightly.

Detail showing the pocket at the back.

23 a. Insert a module into the the back of the model. Be sure that the flap goes into the pocket to the left of the open flap (marked with crosshatching).
b. Fold the front flat.

24 Add a third module to form a corner of the cube, and continue to add modules to complete the model.

A video by Jannie van Schuylenburg shows the assembly:
