Spinosaurus maroccanus 2.0
 designed by 李羨/Andy Li on the 27/03/2022
 diagrammed on 28/11/2022

Color change: Yes
 Paper: Thin double tissue for best shaping
 Recommended size: 50cm square paper for a 20 cm long and 12 cm high origami.
 Difficulty diagram: average
 Difficulty cp: easy

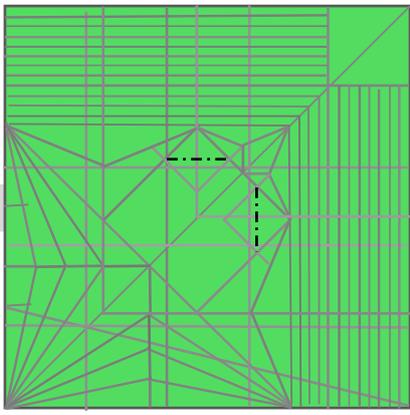

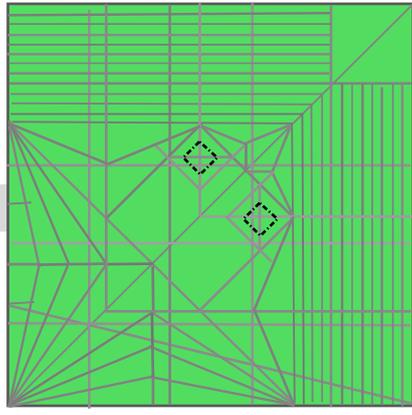

22.

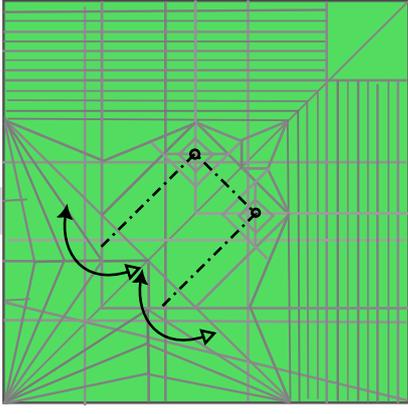

23.

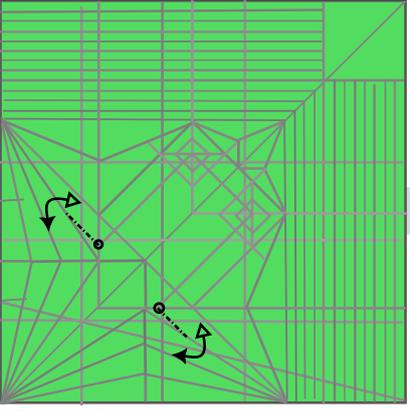

24.

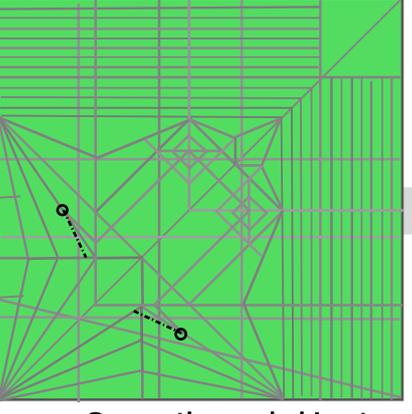

25.

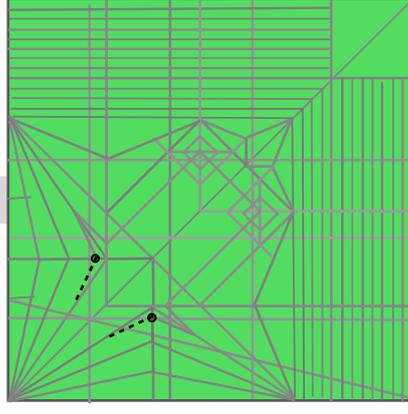

26.

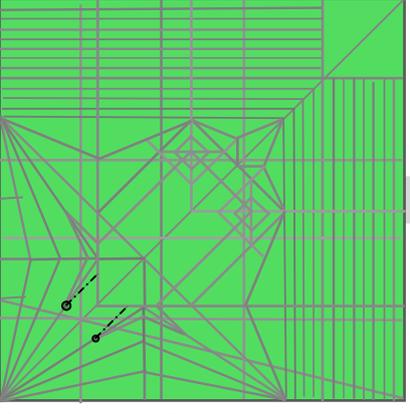

27.

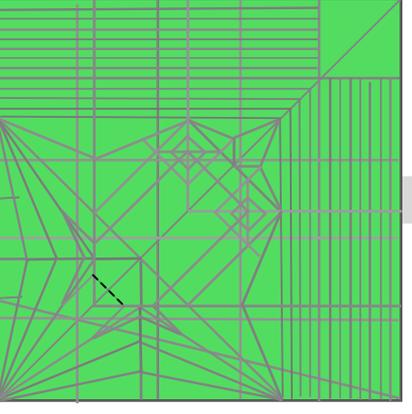

28.

29.

30.

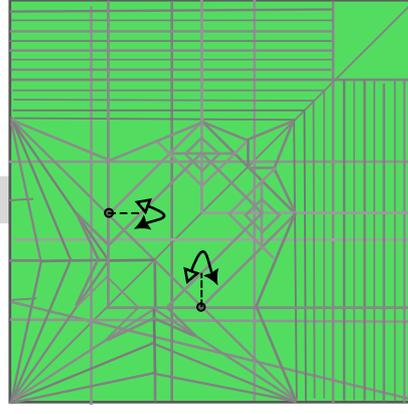

Create the angle bisector

Precrease the angle bisector

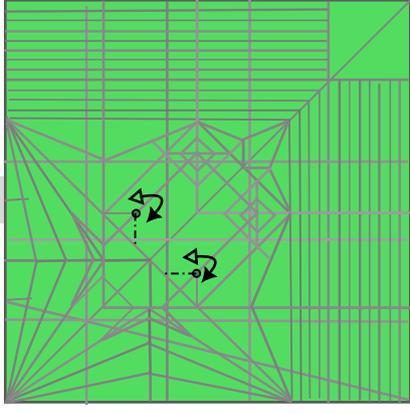

Precrease another angle bisector

31.

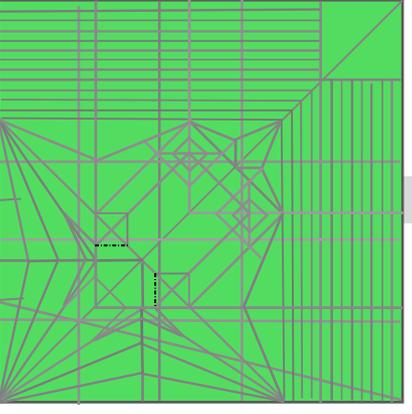

Precrease the angle bisector

32.

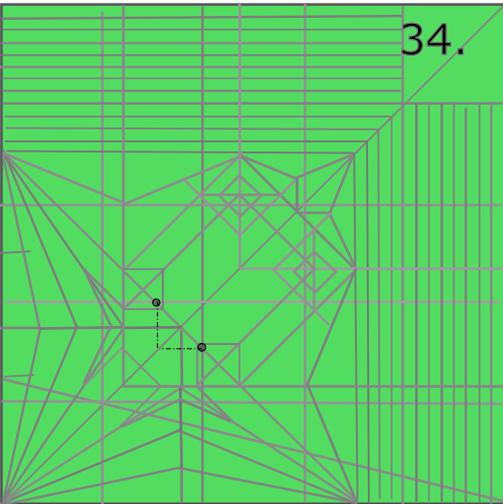

Precrease the angle bisector

33.

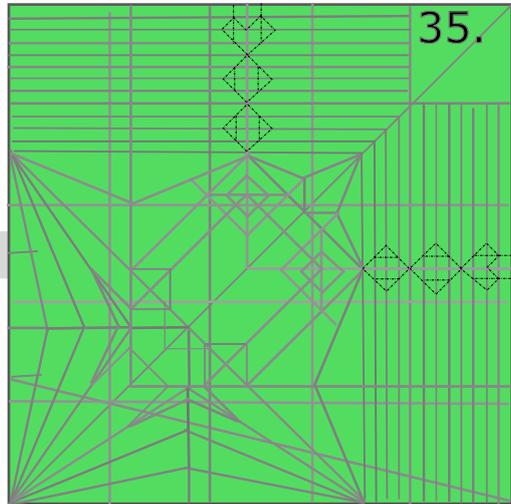

Precrease the angle bisector

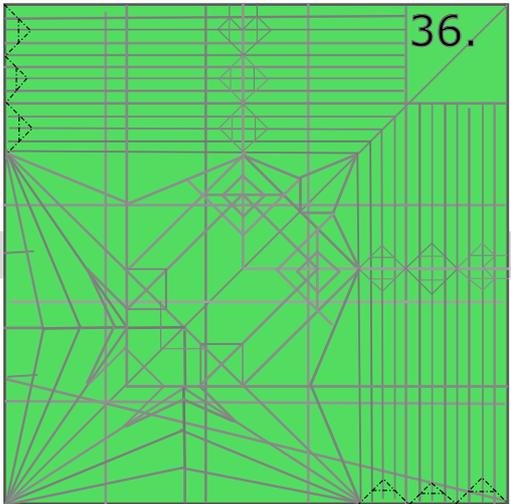

34.

Precrease the angle bisector

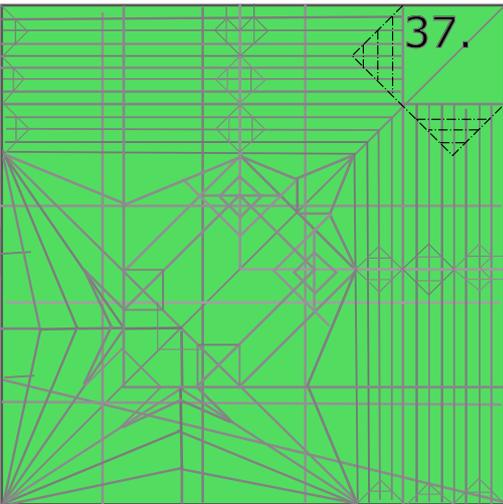

35.

Precrease the fingers

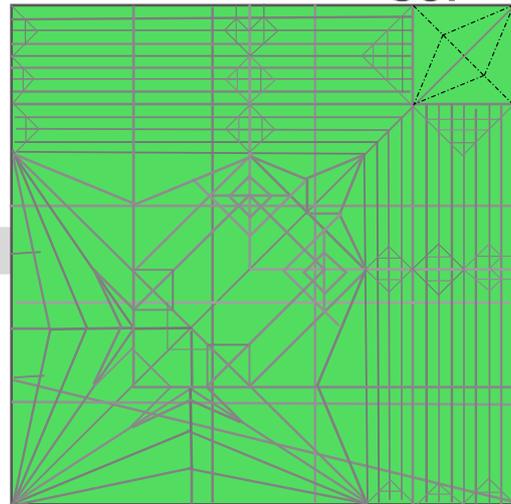

36.

Precrease the toes. Spoiler alert

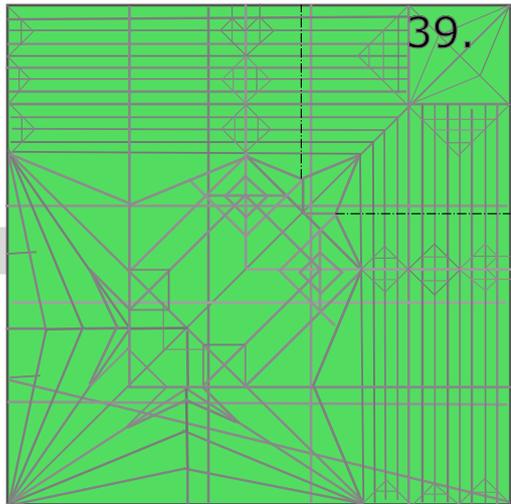

37.

Precrease the eyes of the neck. Spoilers again!

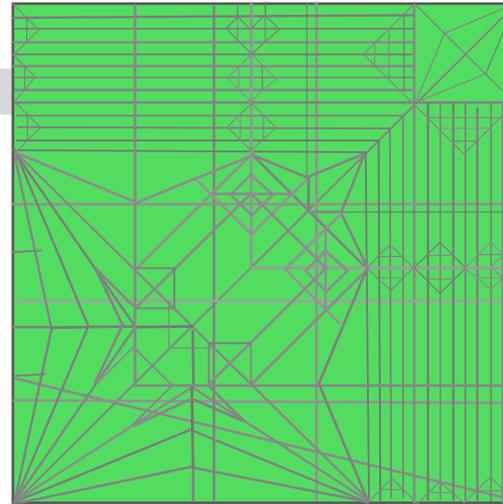

38.

Precrease the head. Triple spoilers!!

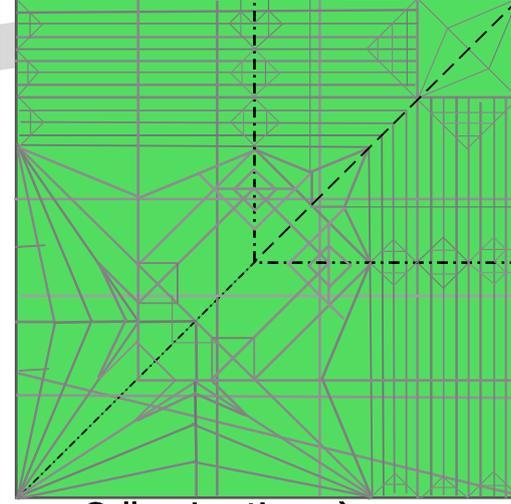

39.

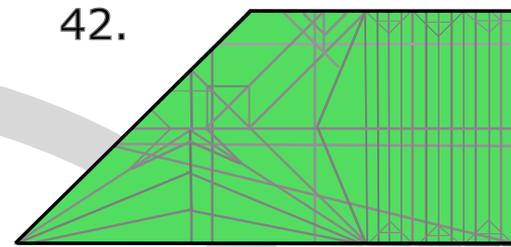

40.

Precreasing finished! Give yourself a pat on the back.

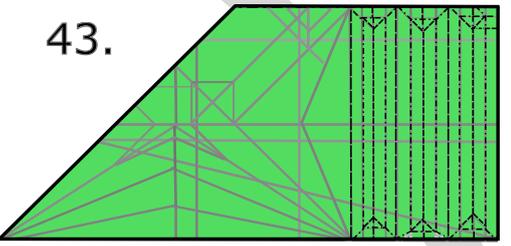

41.

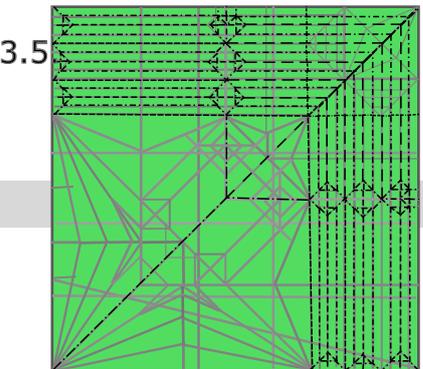

Collapsing time :)

42.

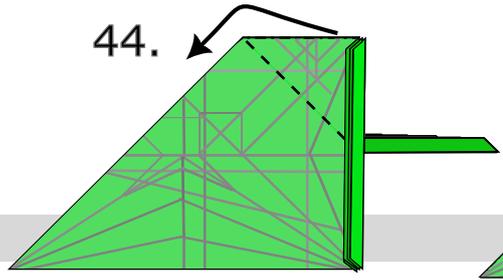

43.

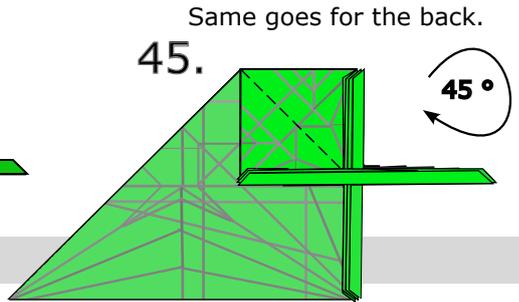

43.5

A full scope of the picture.

44.

Open flap.

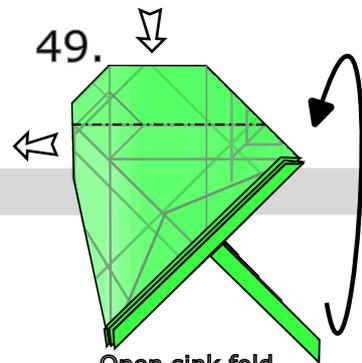

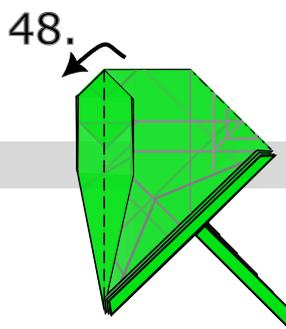

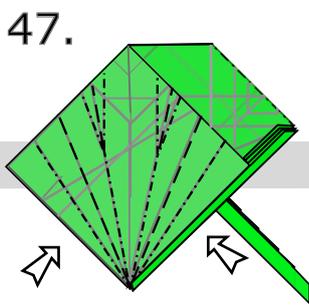

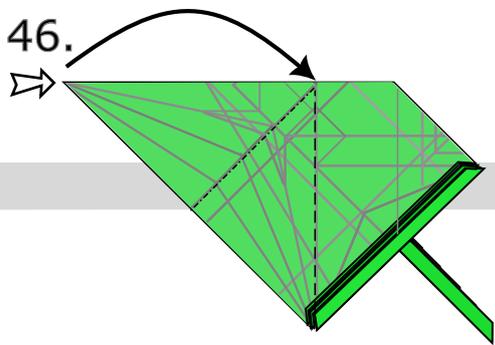

45.

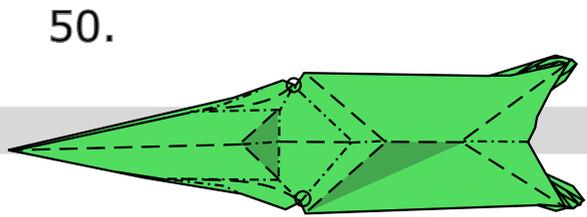

Like this.

Same goes for the back.

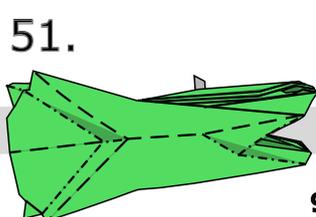

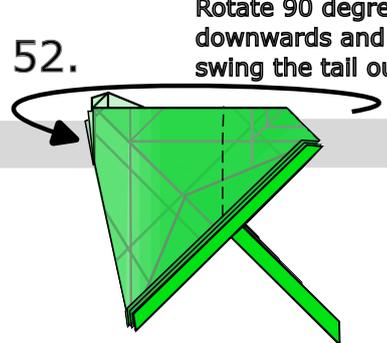

Open sink fold.
Rotate 90 degrees
downwards and
swing the tail out.

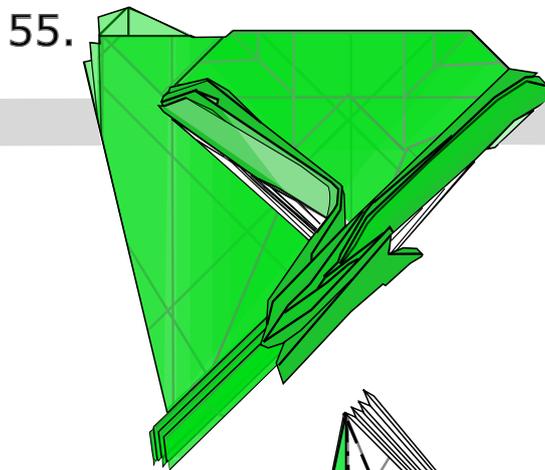

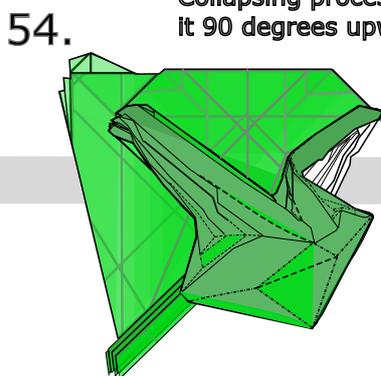

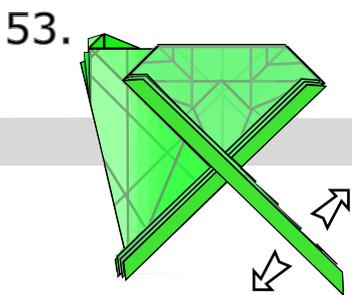

Collapsing process

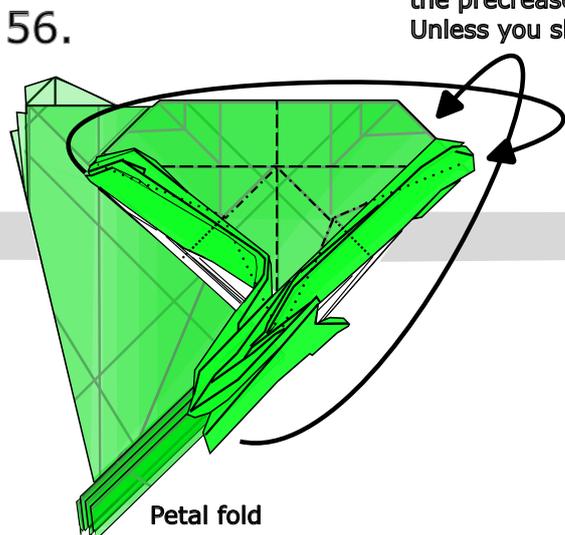

90°

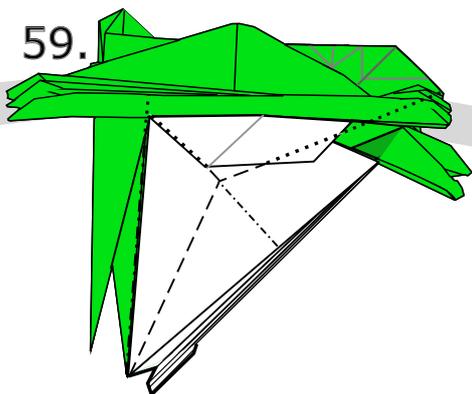

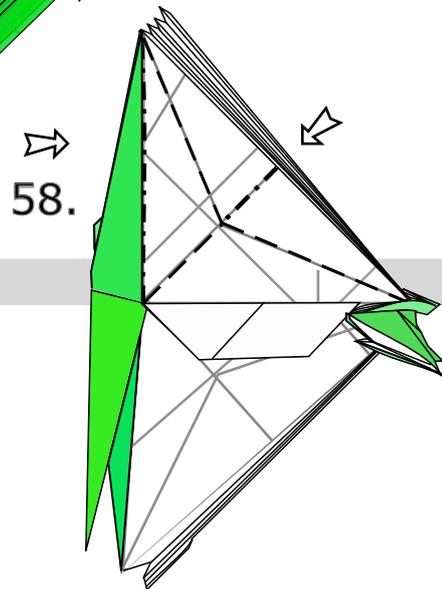

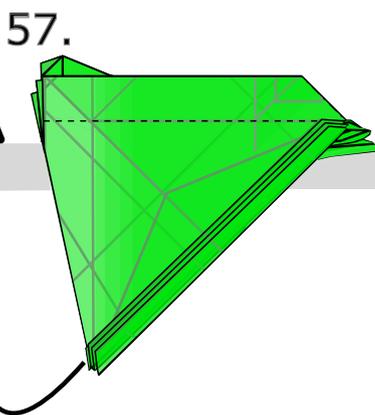

Collapsing process. after collapsing turn
it 90 degrees upward.

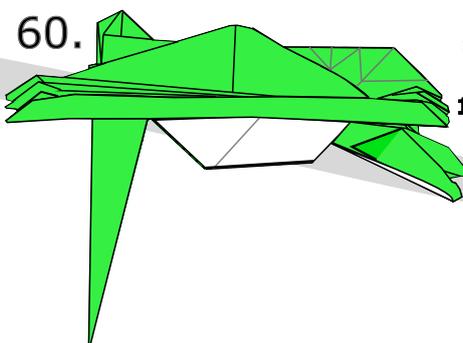

If you're unsure about where
references are then just look for
the precreases you did earlier.
Unless you skiped over them >:(

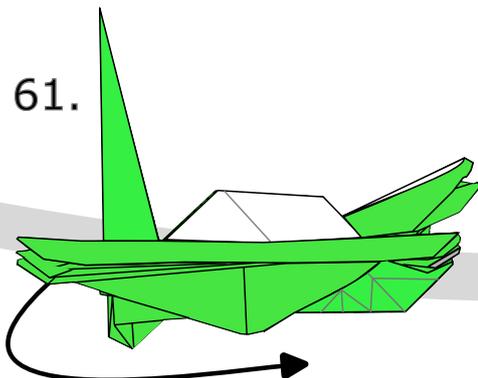

Petal fold

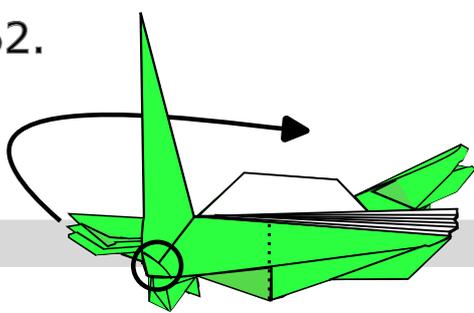

Repeat on the opposite side.

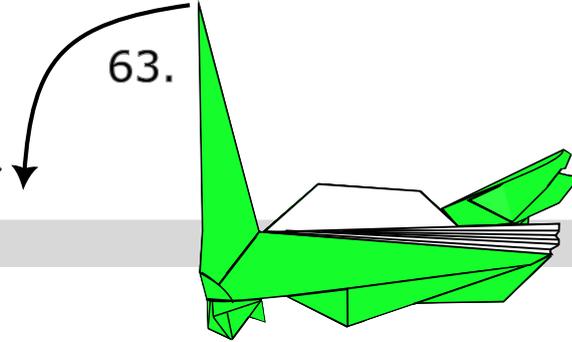

180°

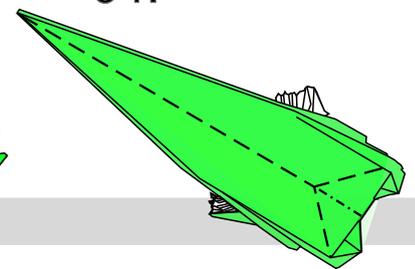

62.

63.

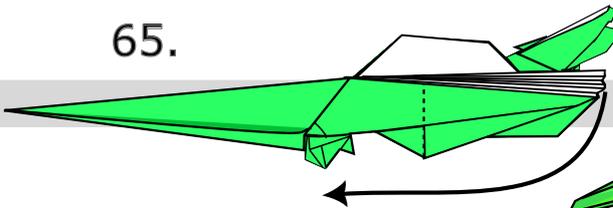

64.

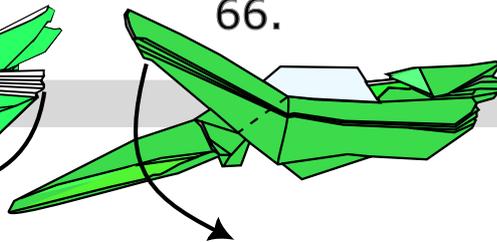

Inside the back end of the tail to view the collapse crease lines.

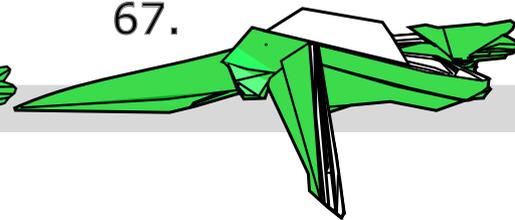

65.

66.

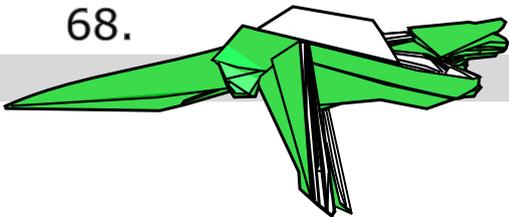

67.

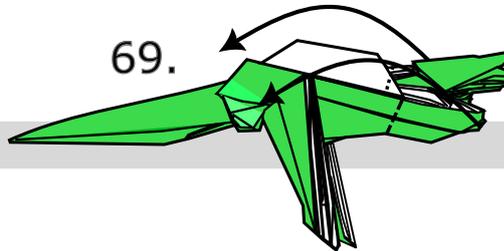

Repeat from behind.

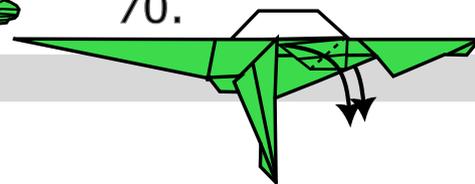

68.

69.

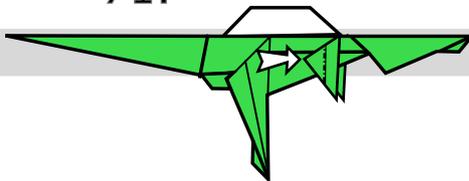

70.

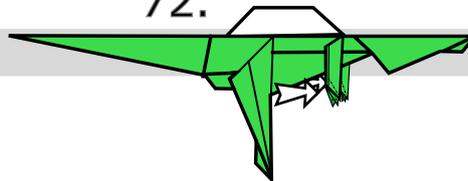

Like so.

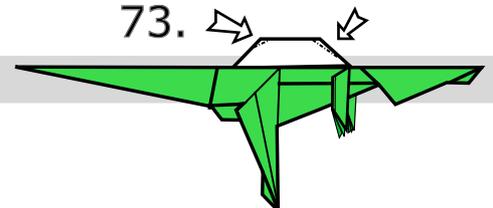

71.

72.

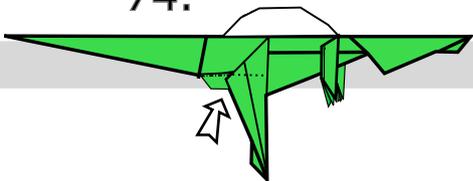

73.

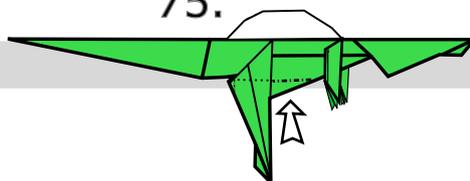

Repeat from behind.

Sink fold the fingers, another tedious task, but not for me. :p

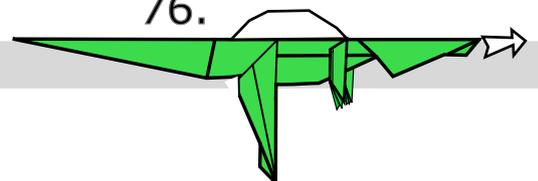

74.

75.

76.

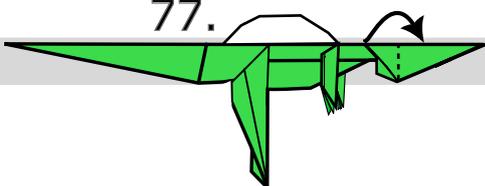

Hide the 2 flaps.

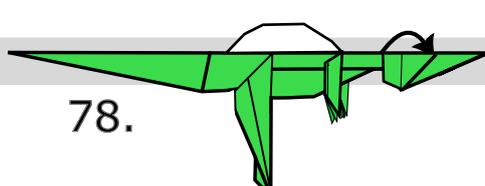

Open sink fold one of the flaps and tug the other flap inside.

Pull the top flap forward abit.

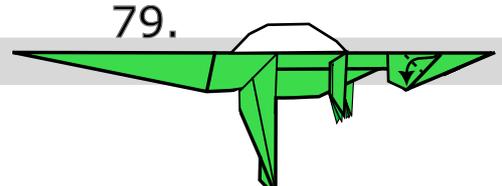

77.

78.

79.

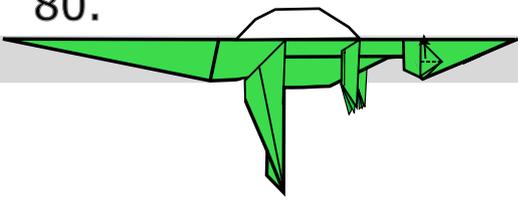

Turn the flap over to the side.

Repeat behind.

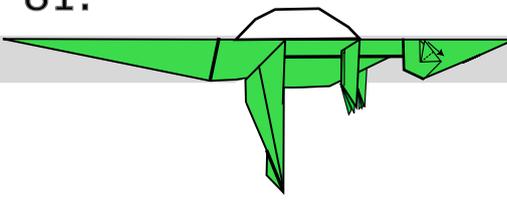

Repeat behind.

80.

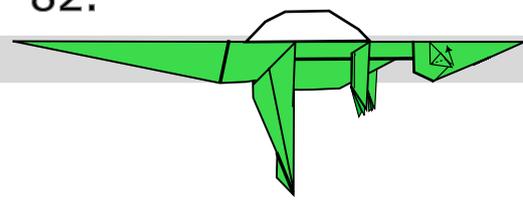

Repeat behind.

81.

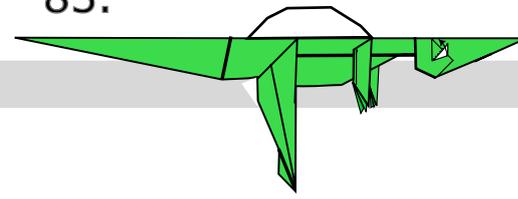

Repeat behind.

82.

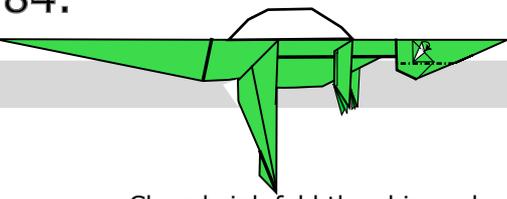

83.

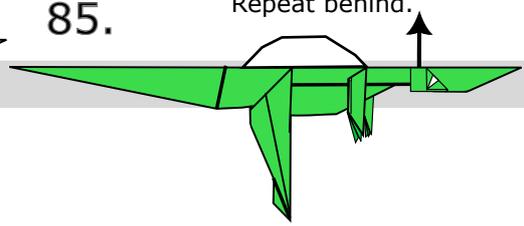

Repeat behind.

84.

Closed sink fold the chin and fold the eye flap behind. Repeat behind.

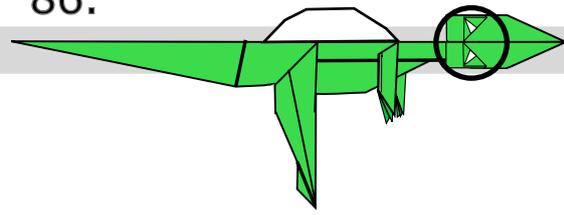

85.

Outside reverse fold. Repeat behind.

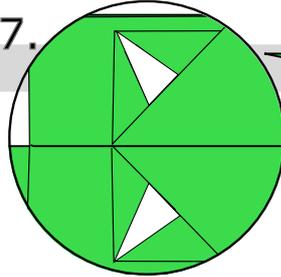

Flip the head open.

86.

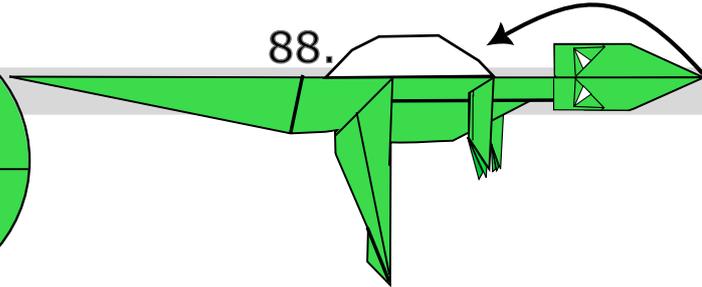

A closer shot of the eyes.

87.

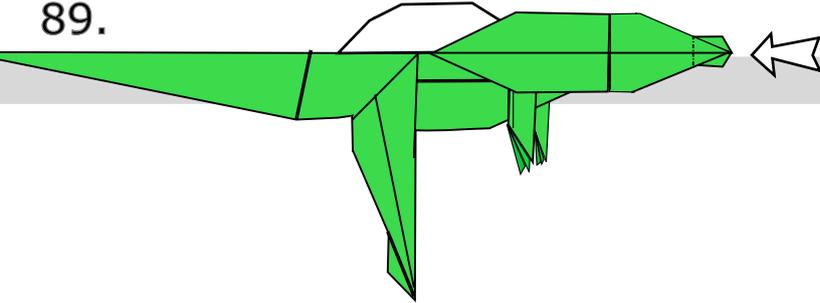

88.

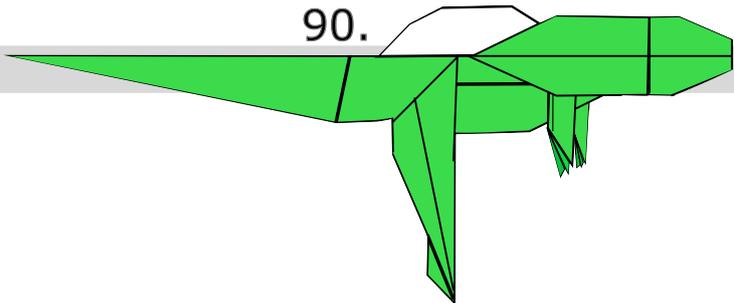

Open up and say ahhh!

89.

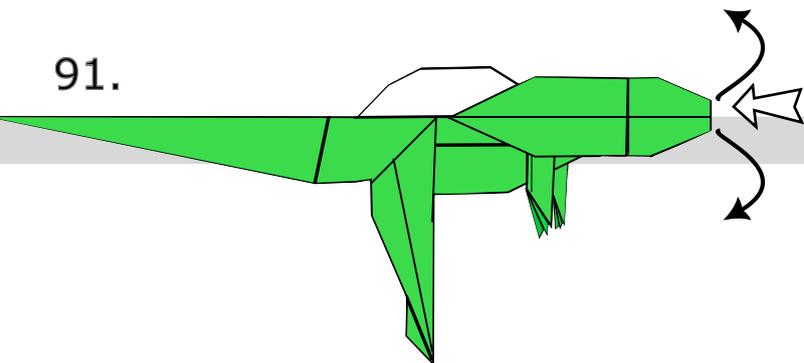

Open sink fold.

90.

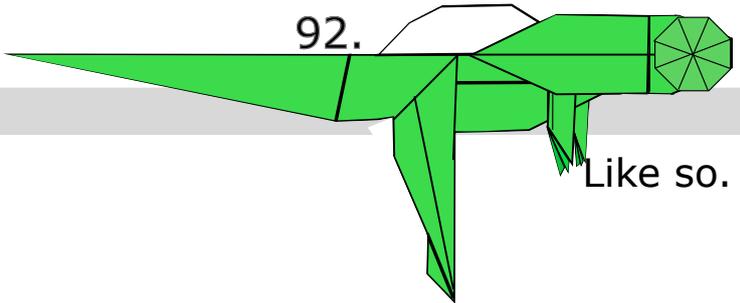

Like so.

91.

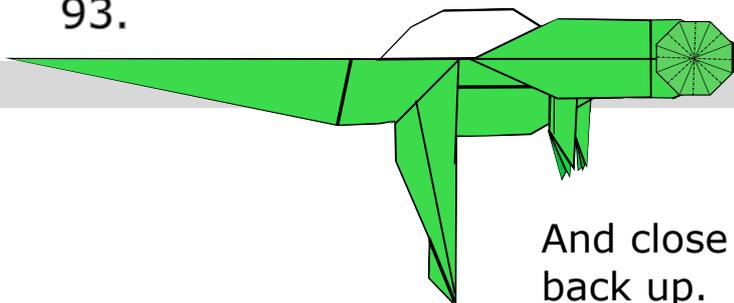

92.

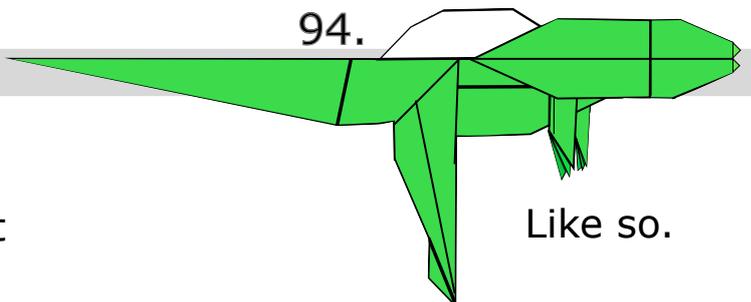

Like so.

93.

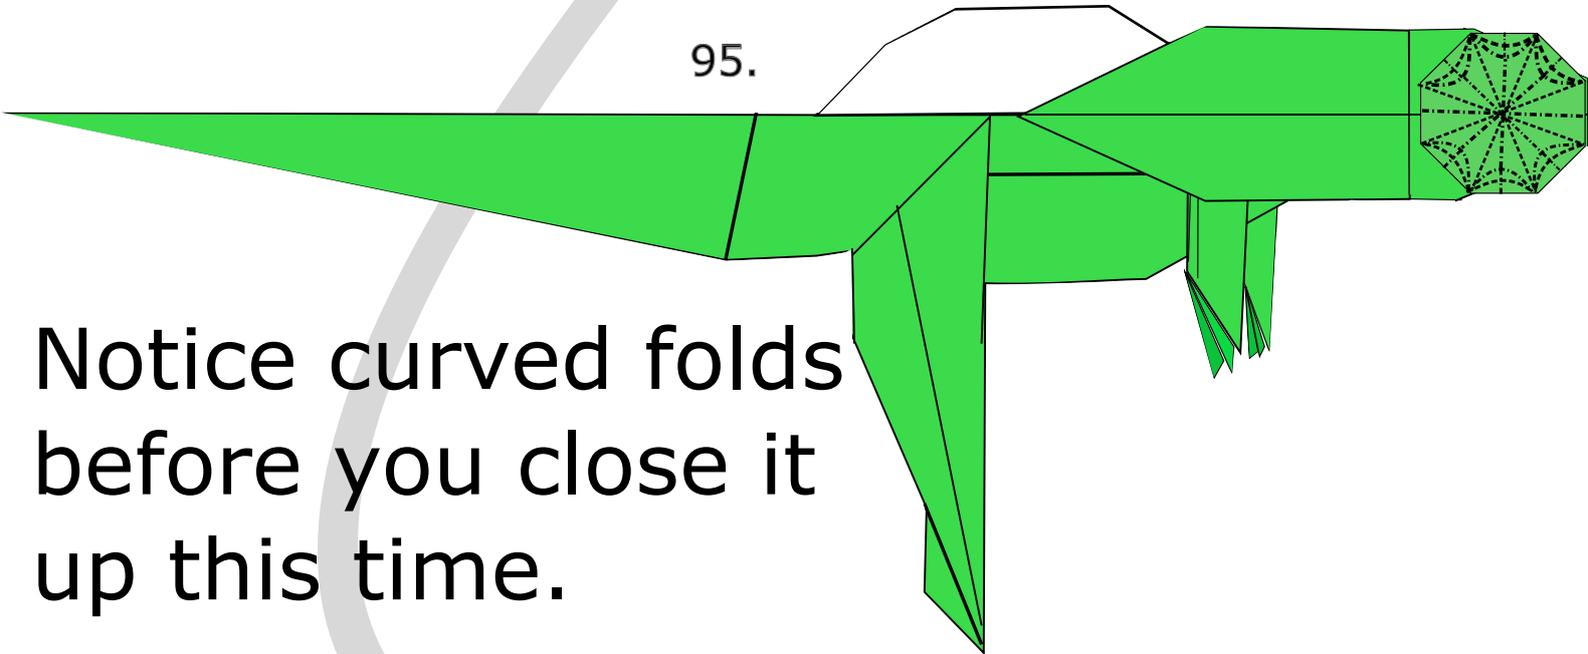

And close it back up.

94.

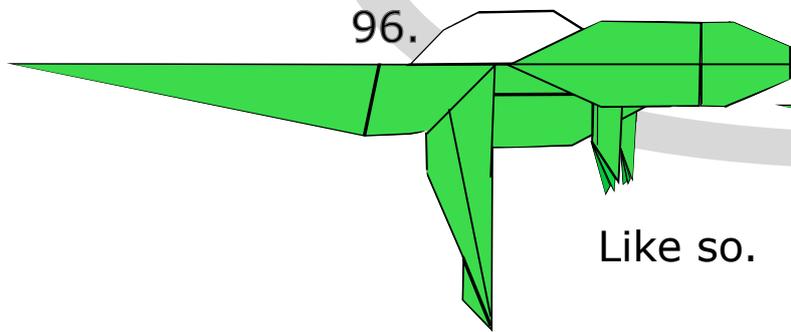

Like so.

95.

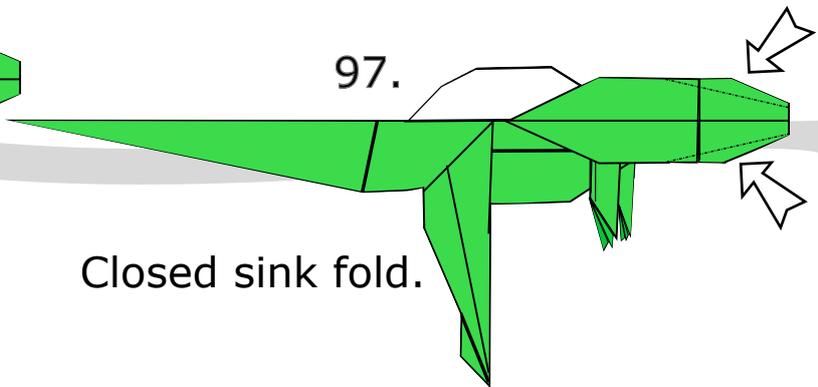

Notice curved folds before you close it up this time.

96.

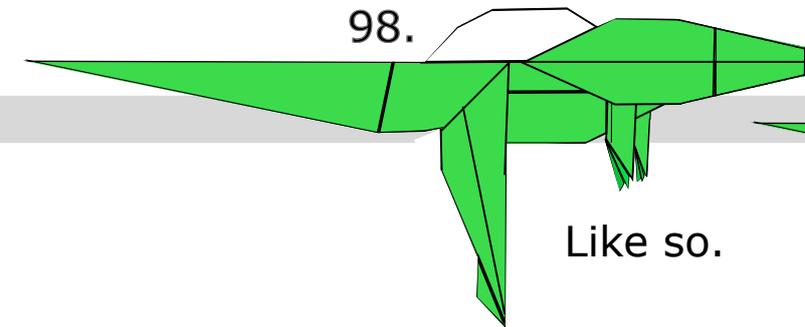

Like so.

97.

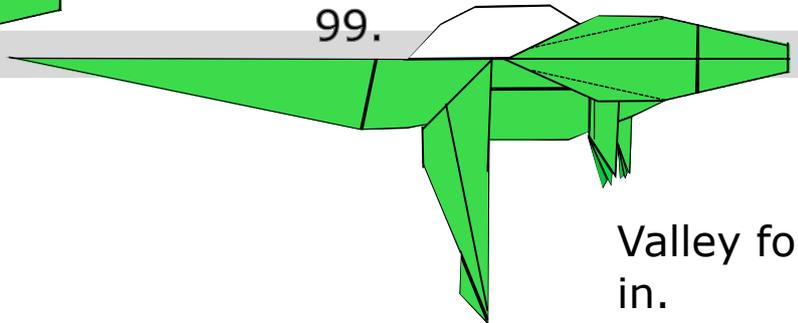

Closed sink fold.

98.

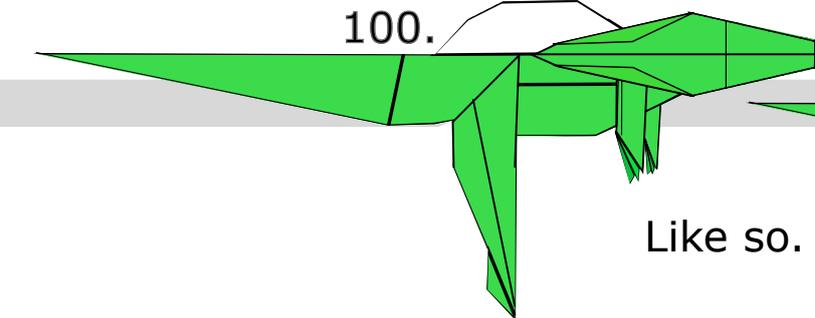

Like so.

99.

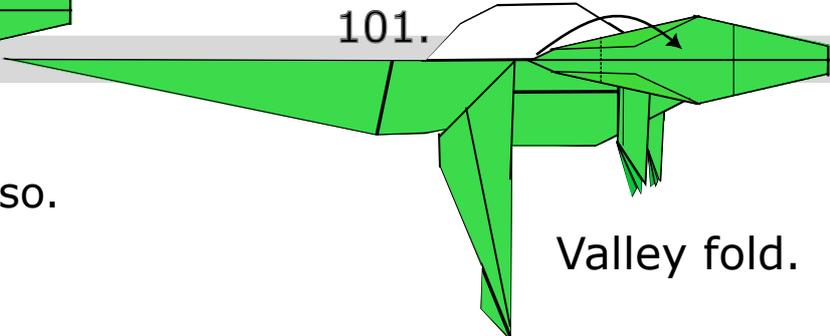

Valley fold in.

100.

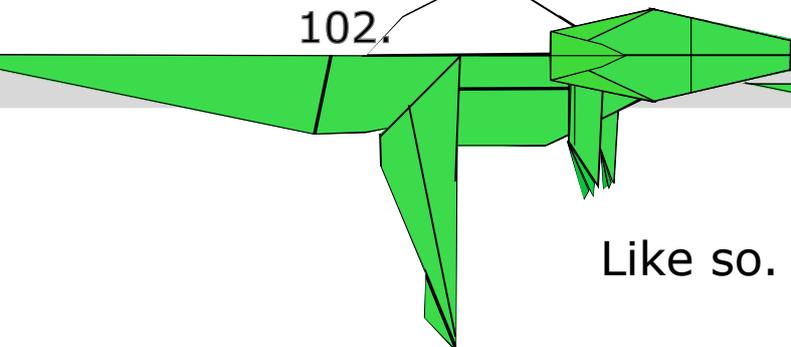

Like so.

101.

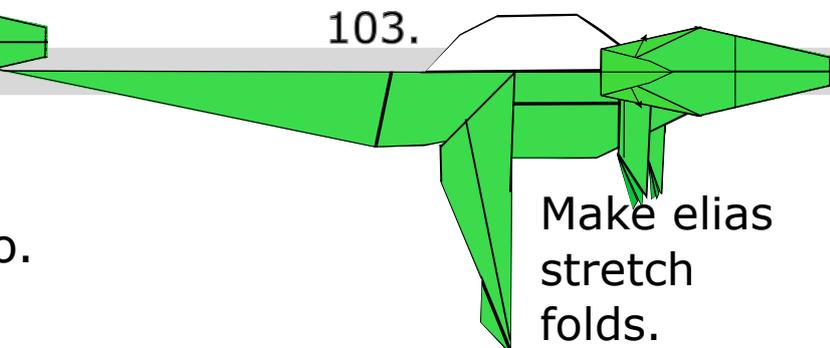

Valley fold.

102.

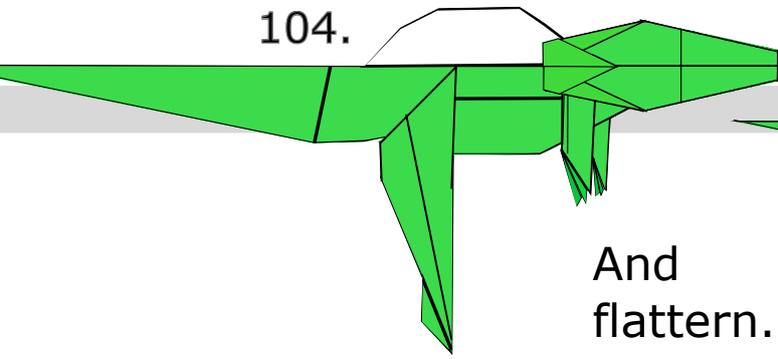

Like so.

103.

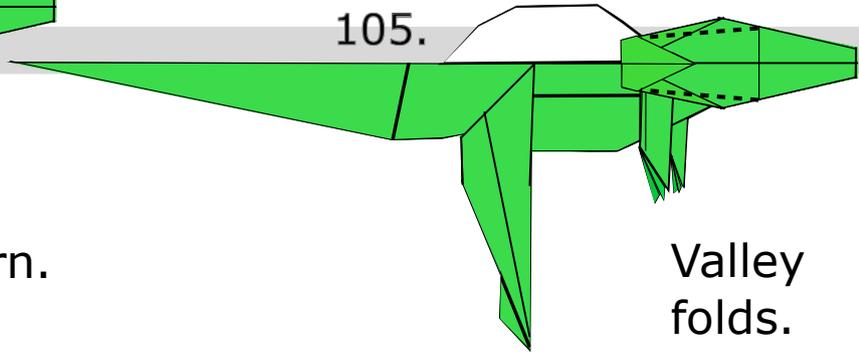

Make elias stretch folds.

104.

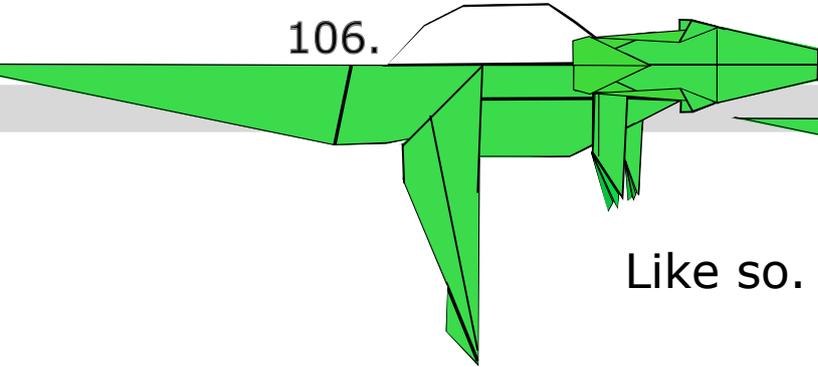

And
flatten.

105.

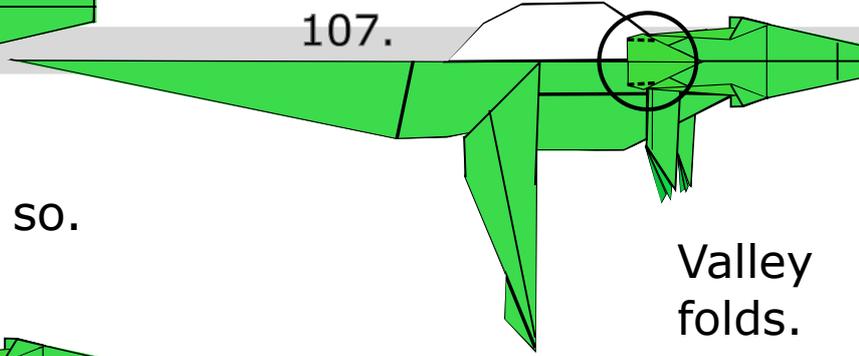

Valley
folds.

106.

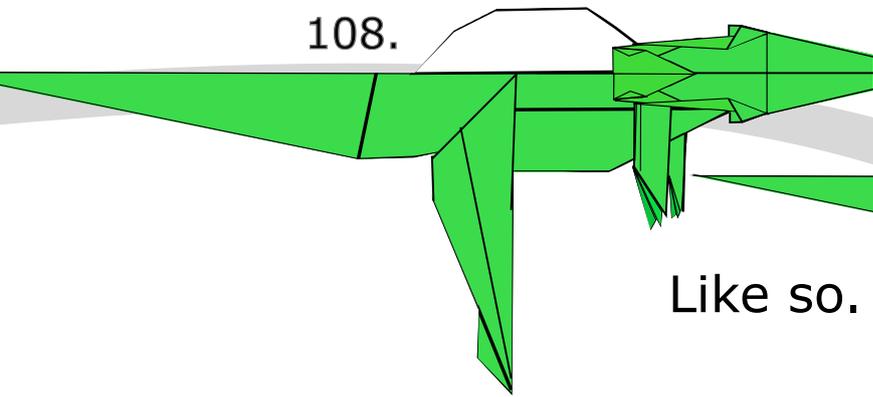

Like so.

107.

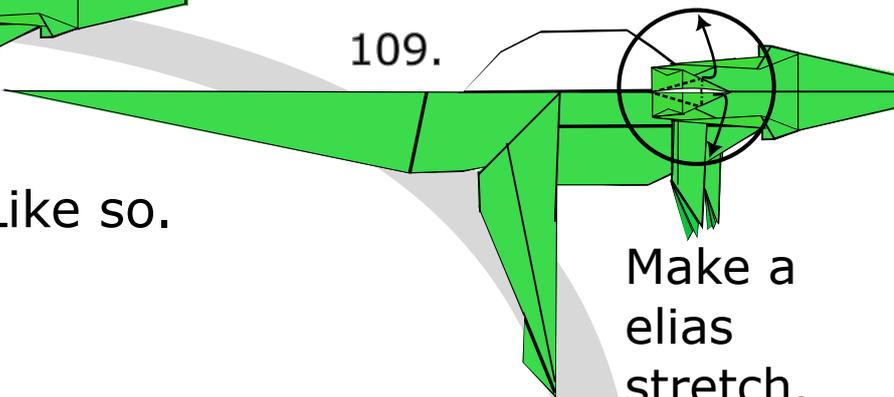

Valley
folds.

108.

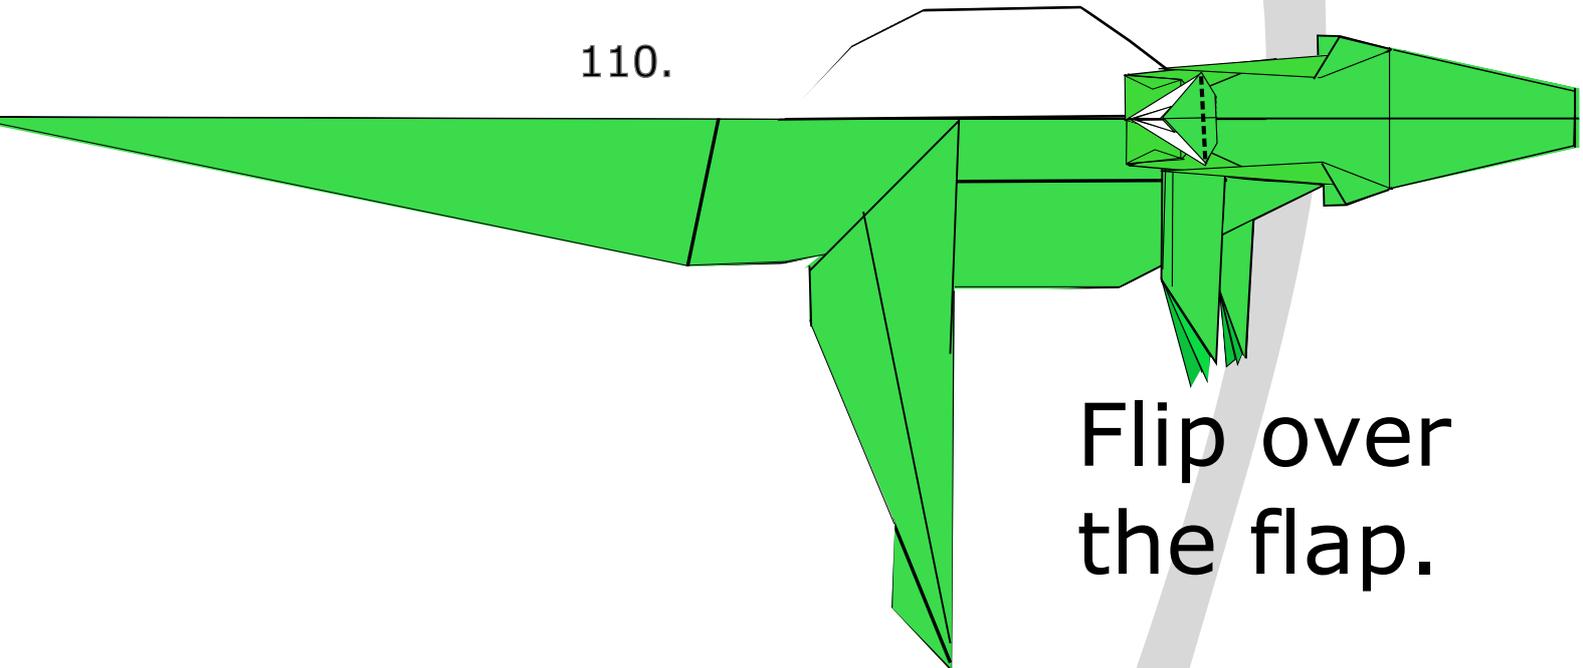

Like so.

109.

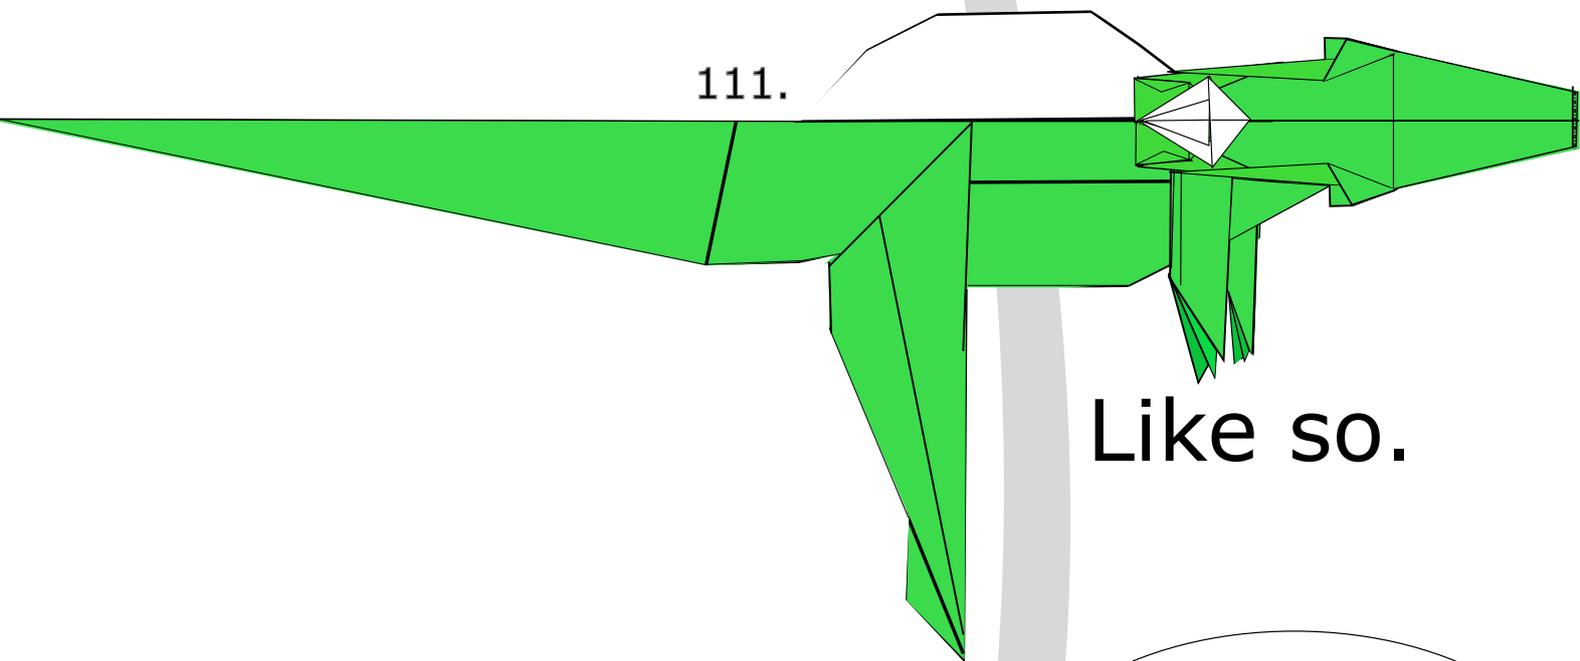

Make a
elastic
stretch.

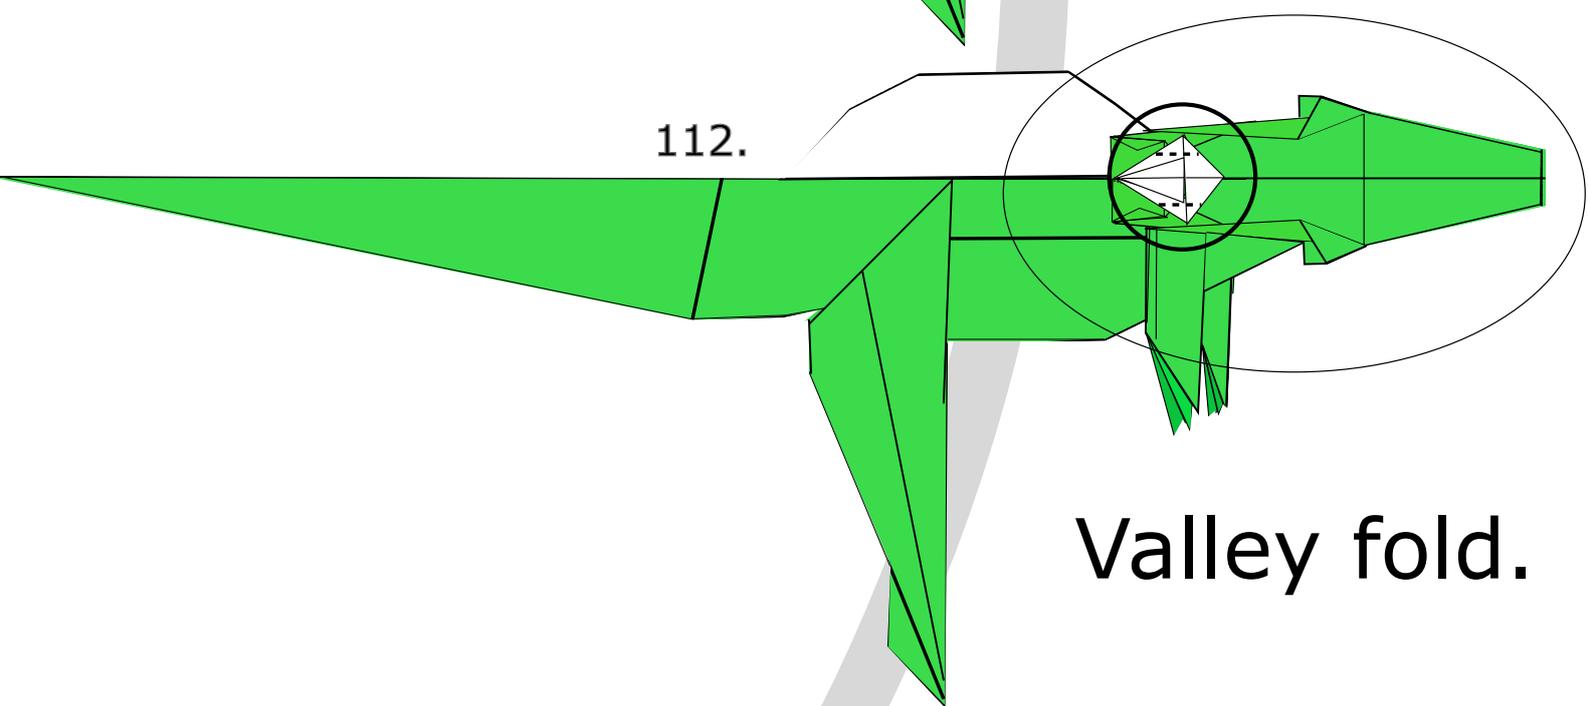

110.

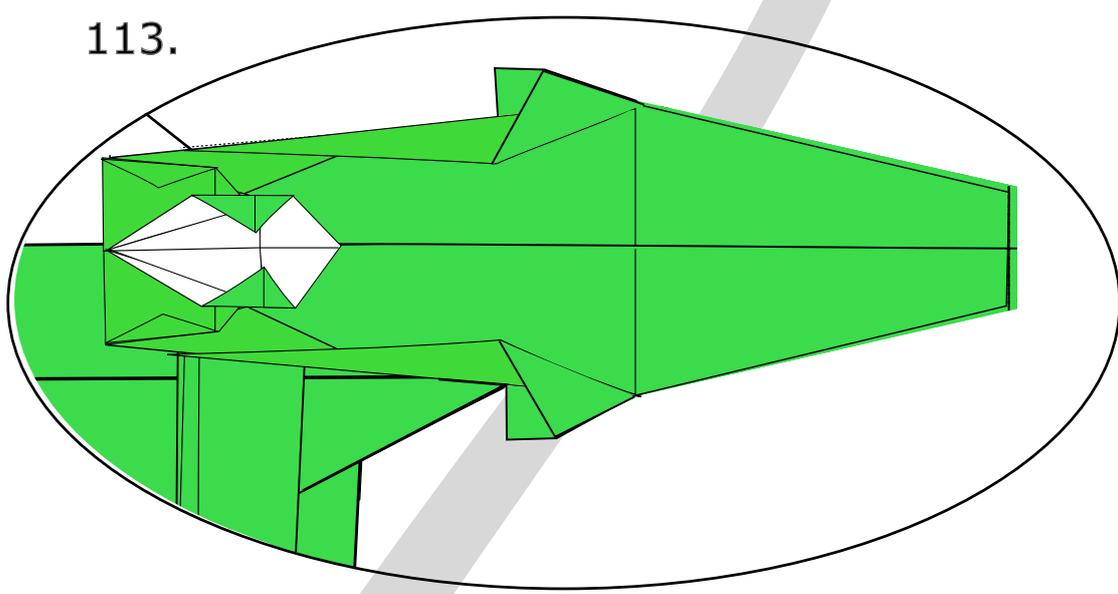

Flip over
the flap.

Like so.

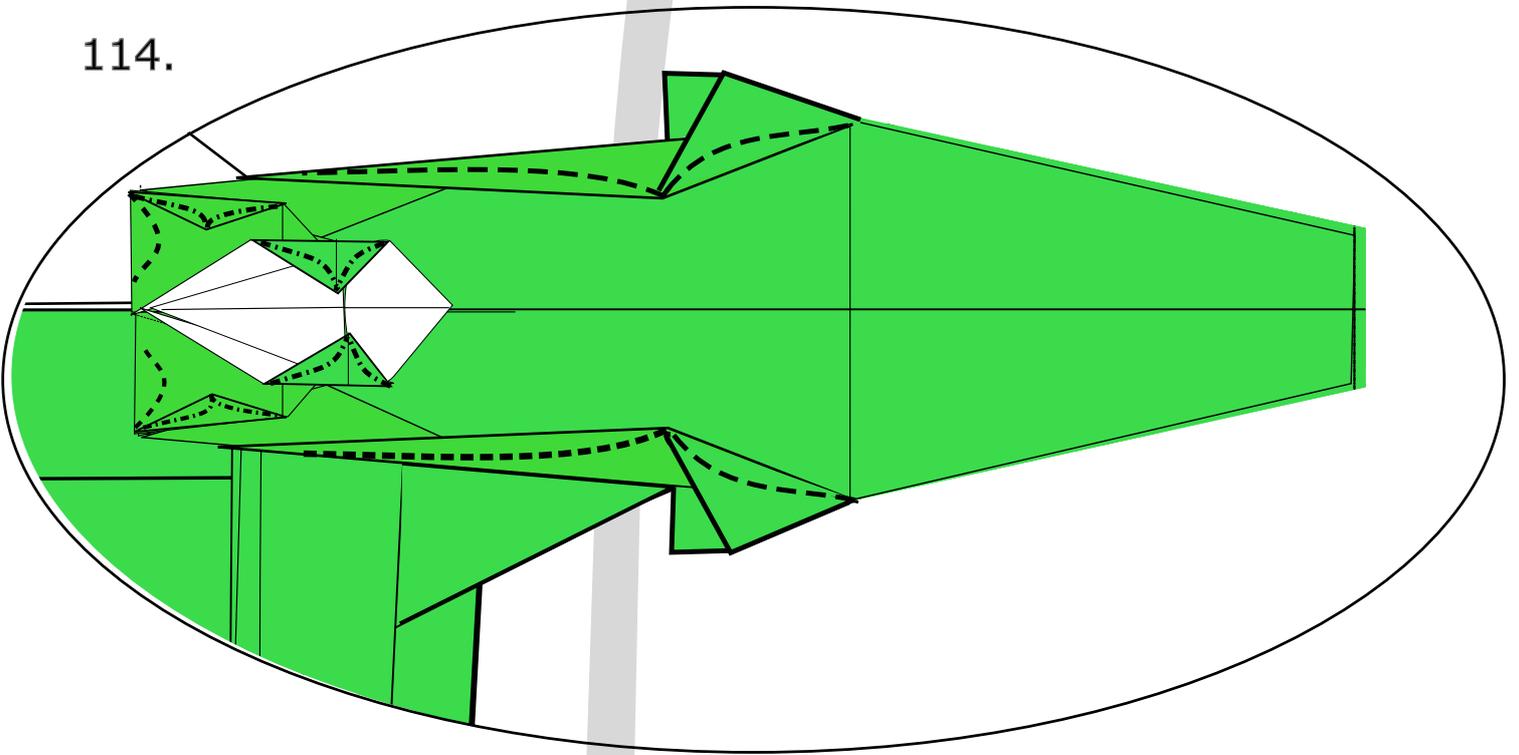

Valley fold.

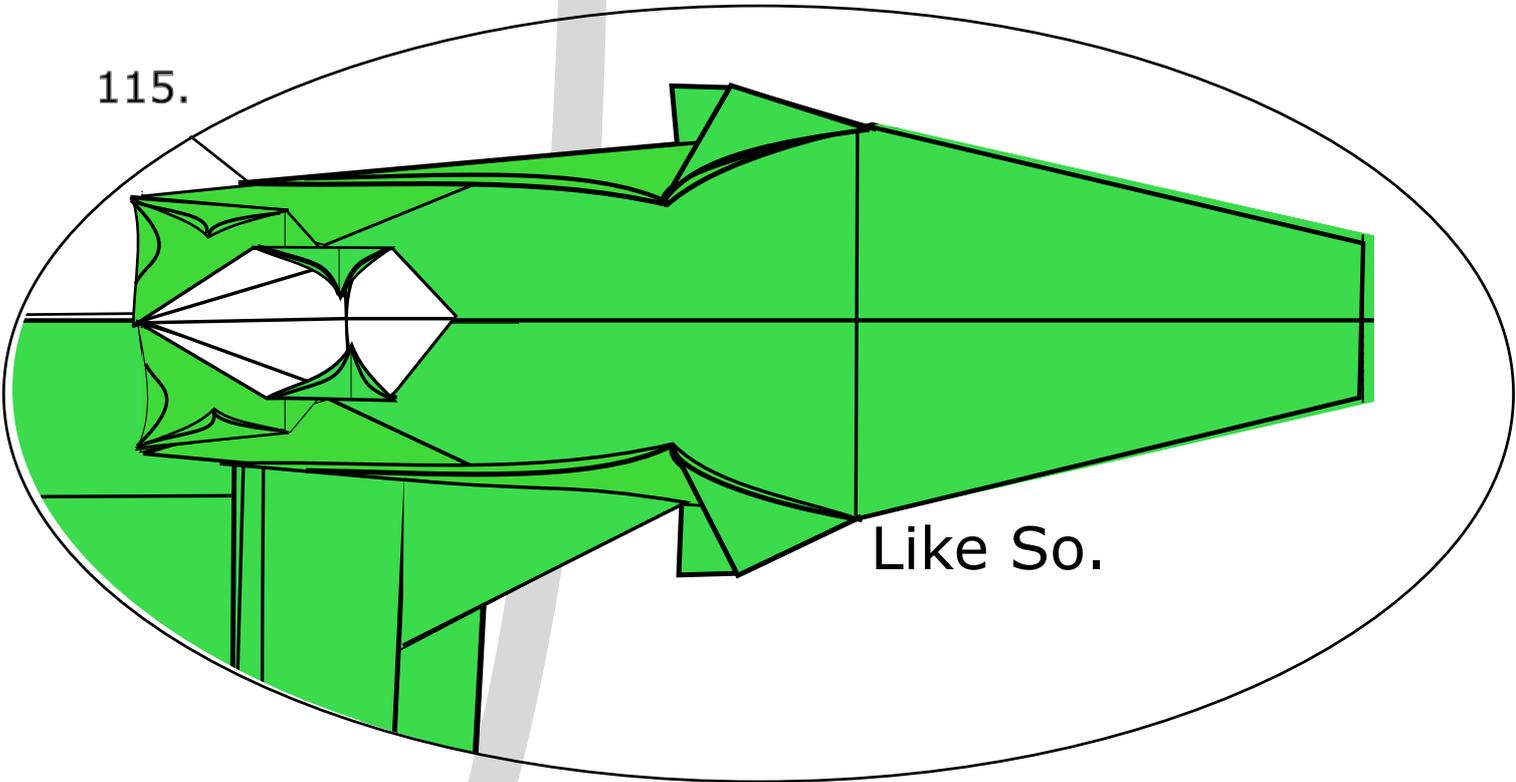

Like So.

114.

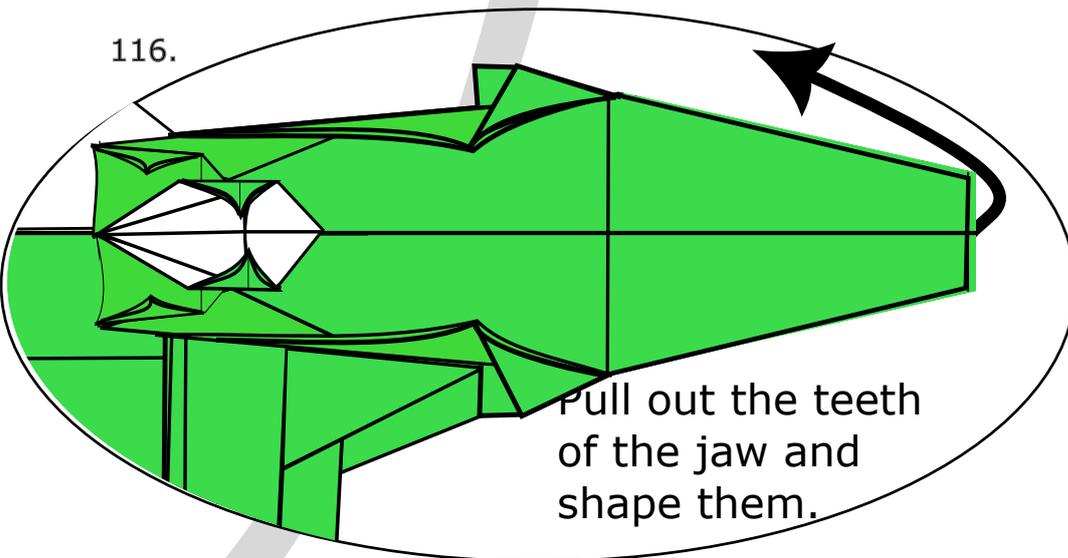

115.

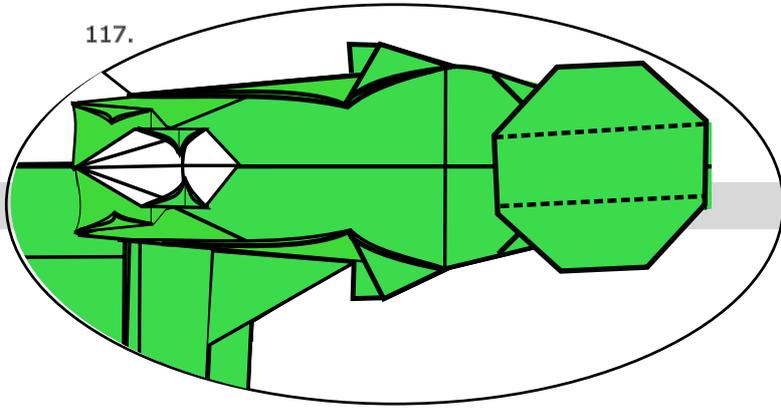

Like So.

116.

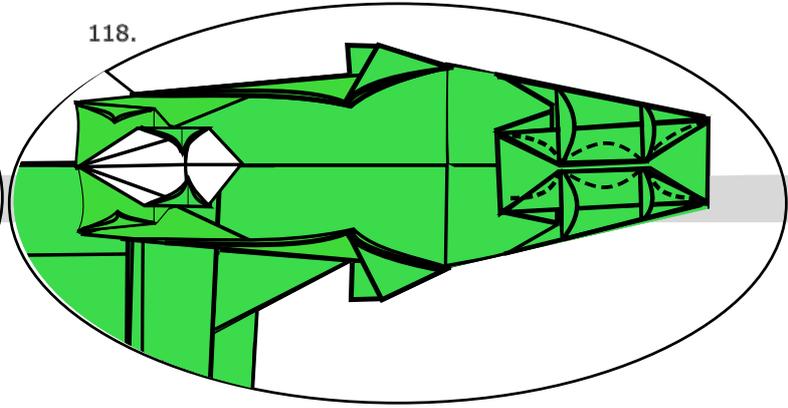

Pull out the teeth
of the jaw and
shape them.

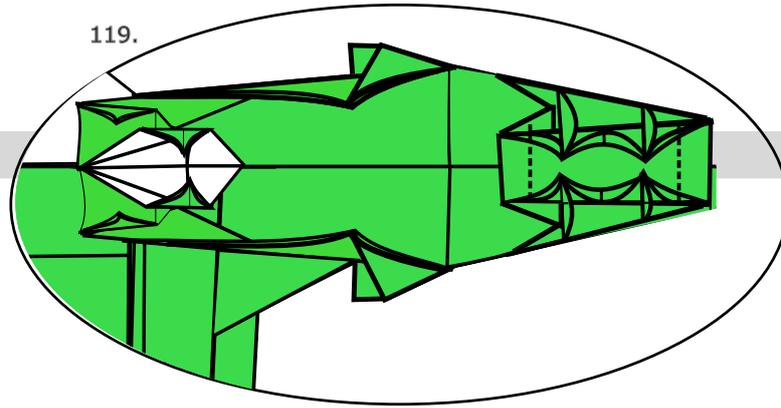

117.

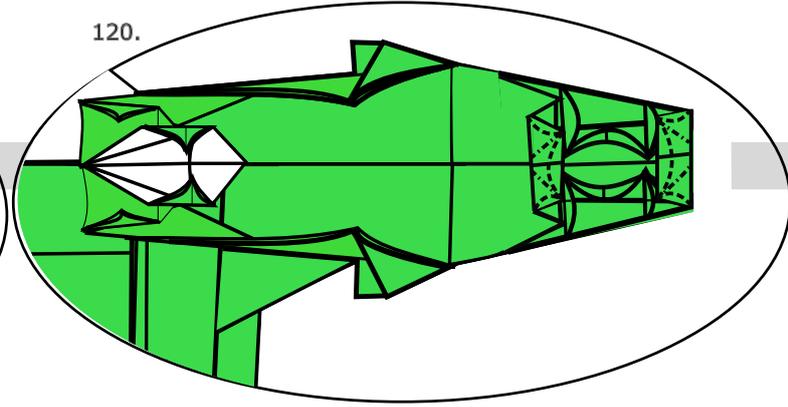

118.

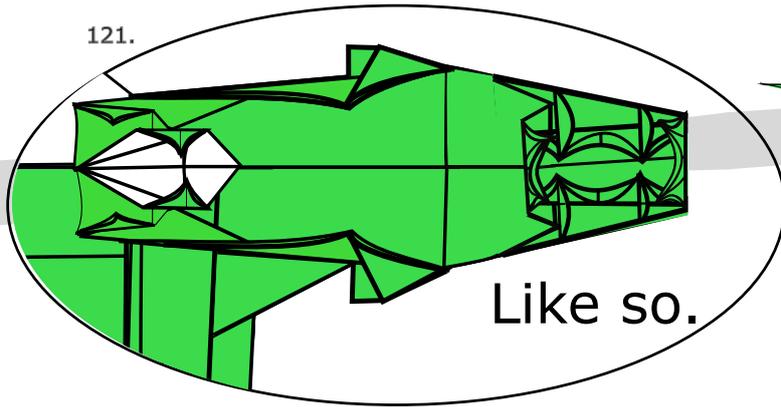

119.

120.

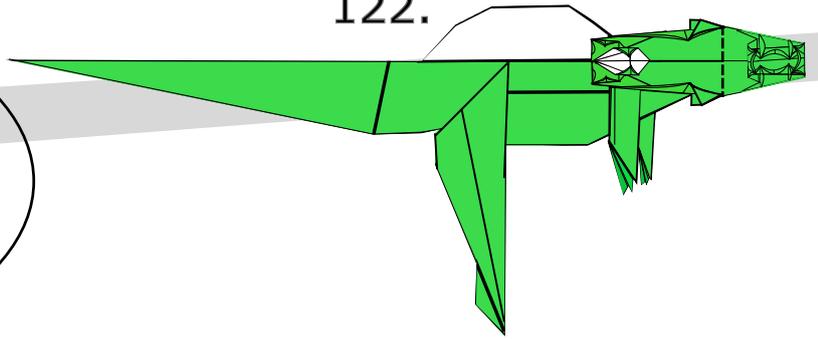

121.

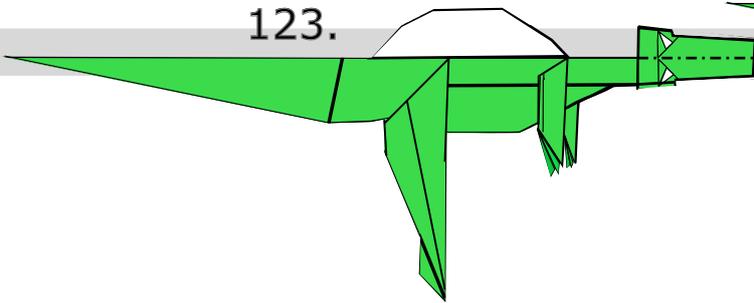

Like so.

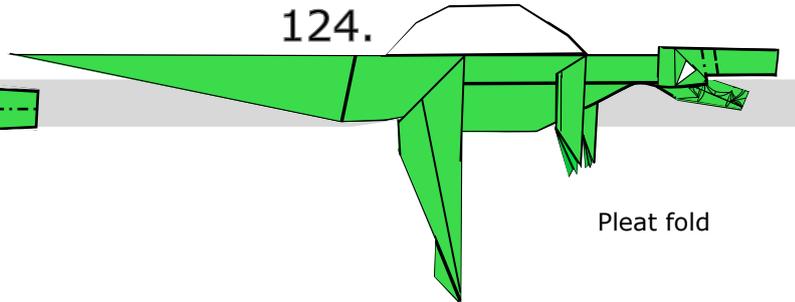

122.

123.

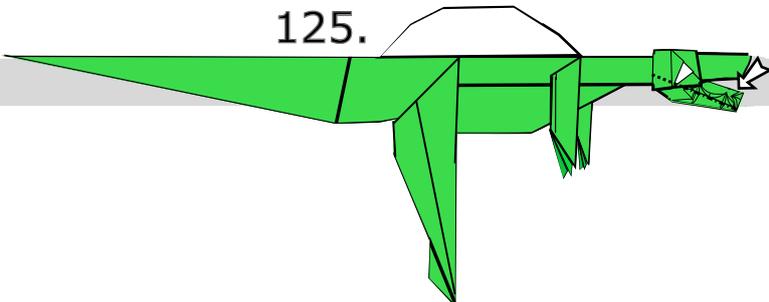

124.

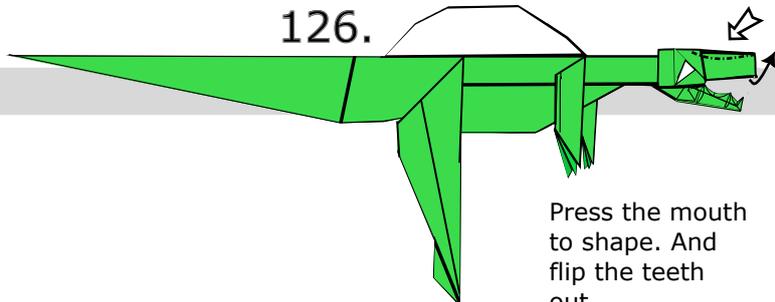

Pleat fold

125.

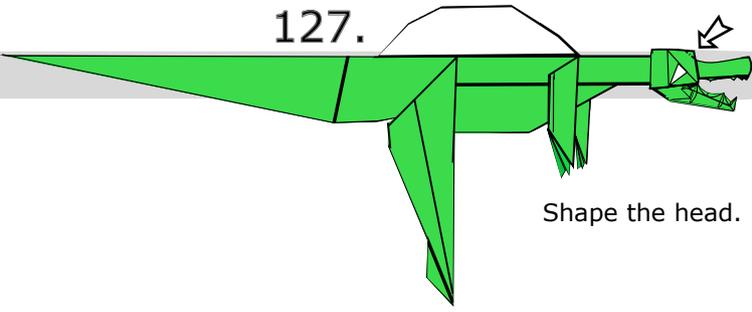

126.

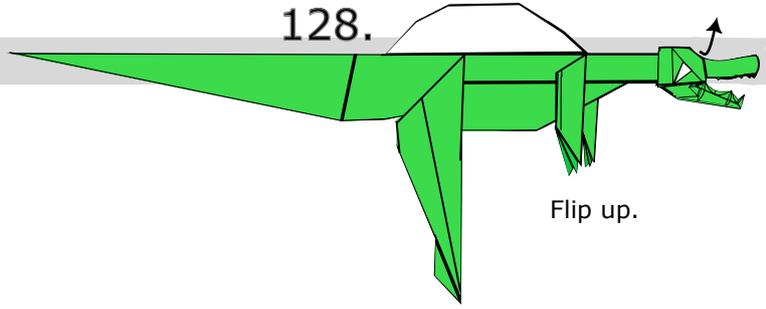

Press the mouth to shape. And flip the teeth out.

127.

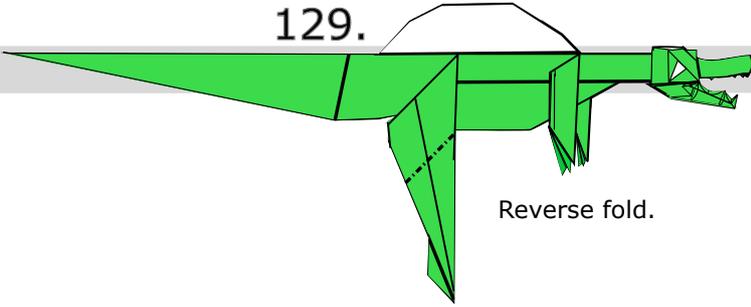

Shape the head.

128.

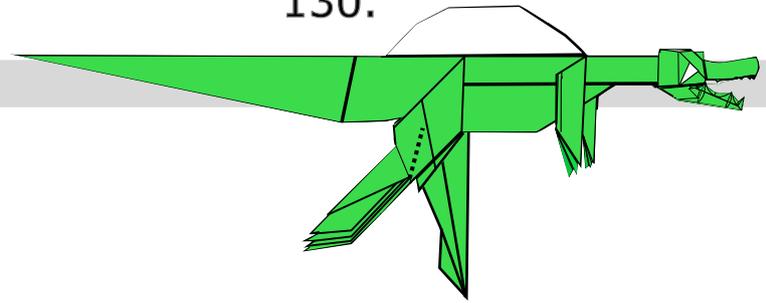

Flip up.

129.

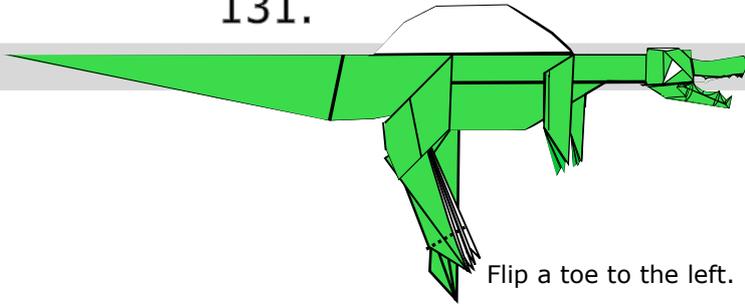

Reverse fold.

130.

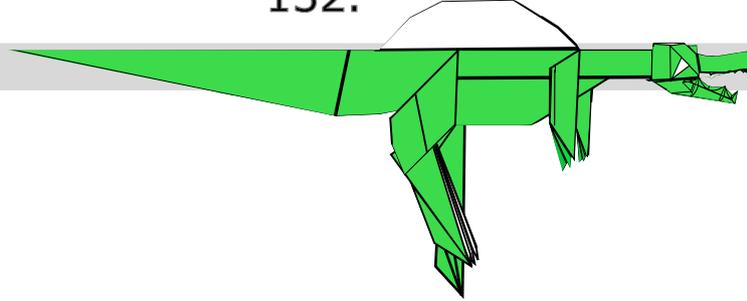

131.

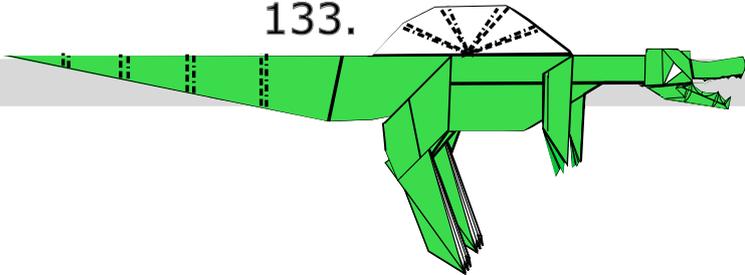

Flip a toe to the left.

132.

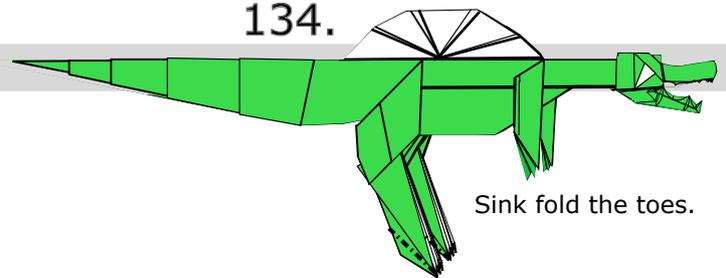

Repeat from behind..

133.

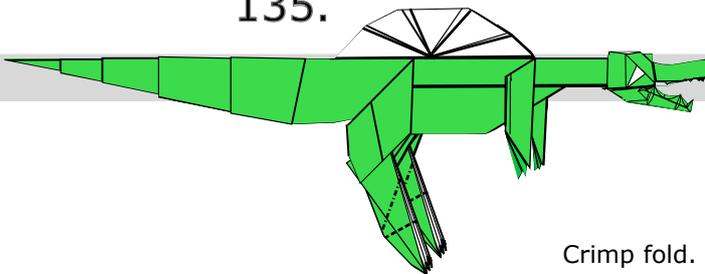

Shape well.

134.

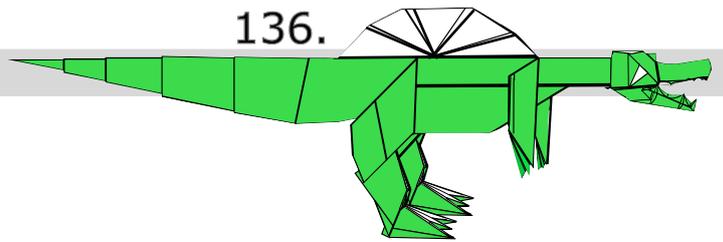

Sink fold the toes.

135.

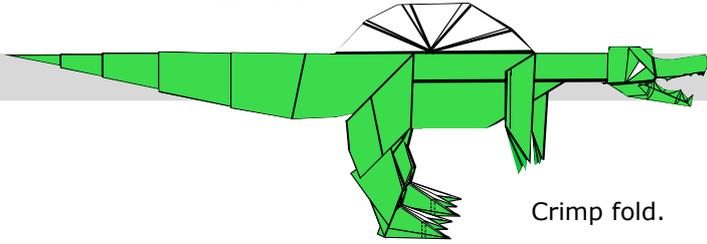

Crimp fold.

136.

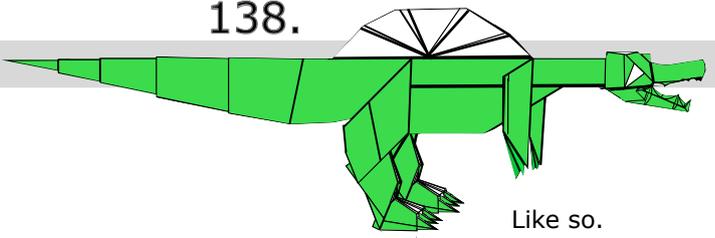

137.

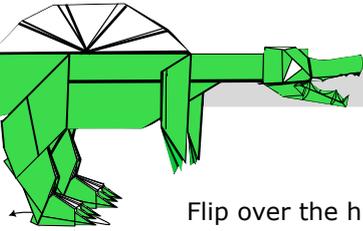

Crimp fold.

138.

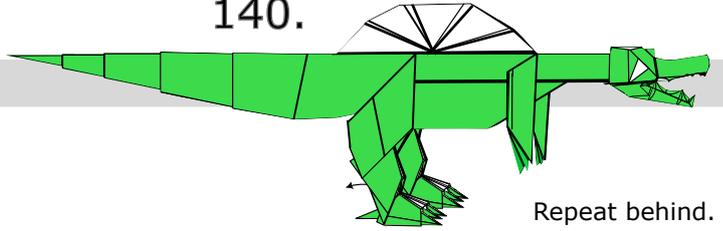

Like so.

139.

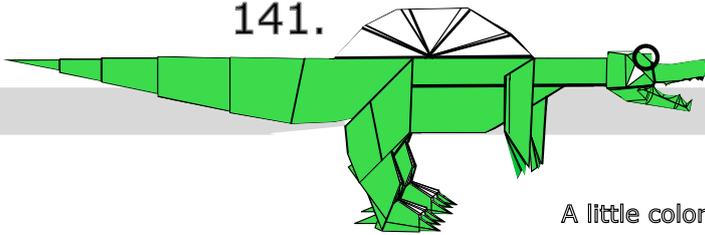

Flip over the hidden flap.

140.

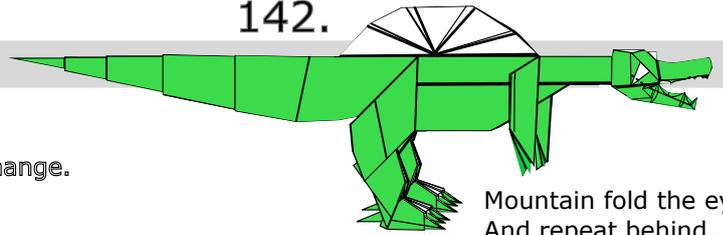

Repeat behind.

141.

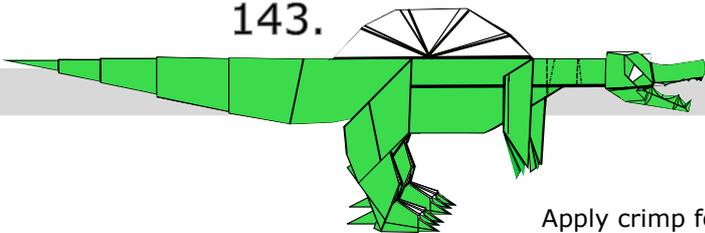

A little color change.

142.

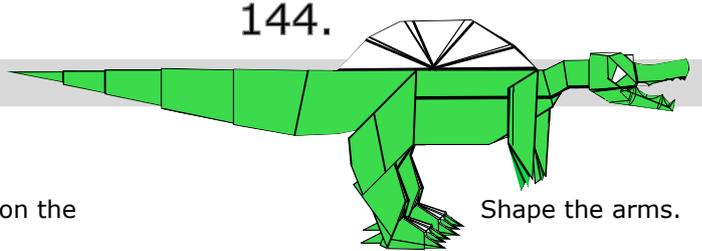

Mountain fold the eye.
And repeat behind.

143.

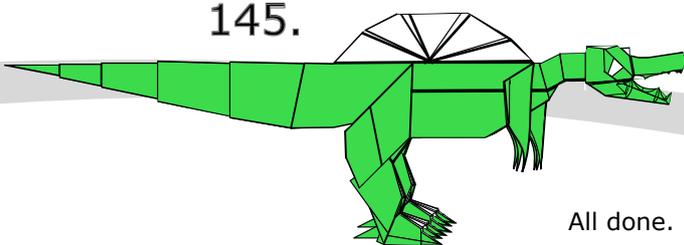

Apply crimp folds on the neck.

144.

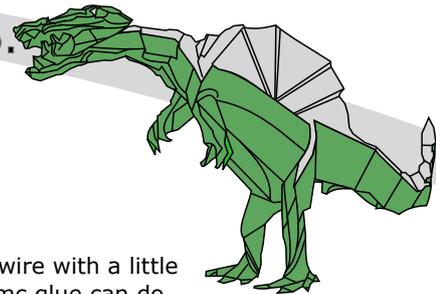

Shape the arms.

145.

All done.

146.

Apply wire with a little bit of mc glue can do wonders. Also I shaped the legs a bit differently here.

Fairy

Diagrammed

26/12/2022.

Diagram difficulty: Intermediate

crease pattern: simple

Colour change: yes

To fold the beetle follow the steps chronologically

To fold the fairy, switch steps on step 65

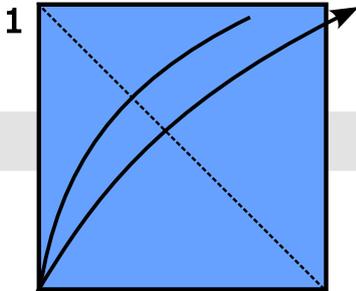

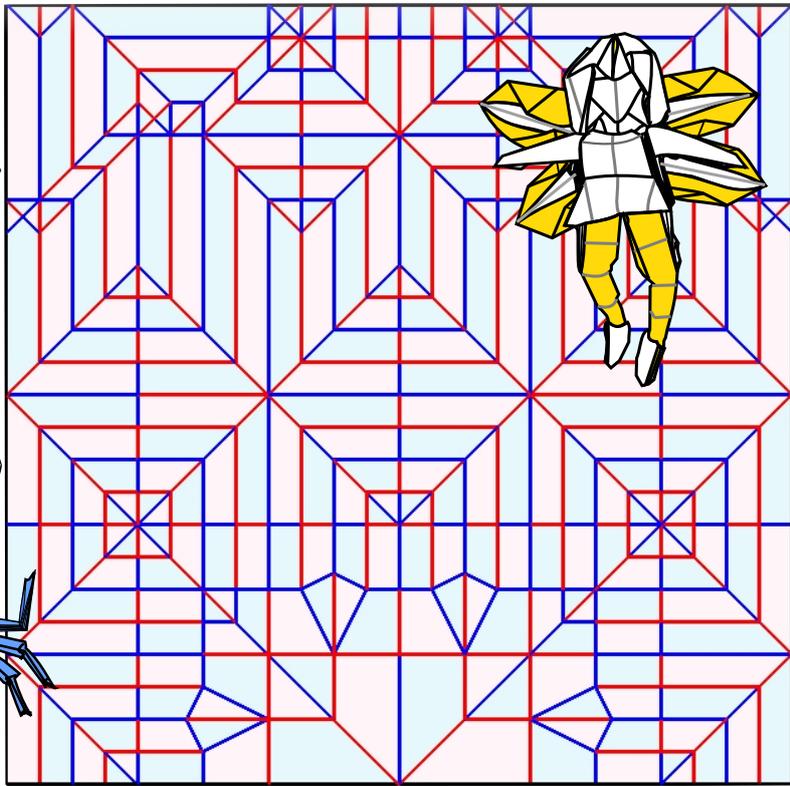

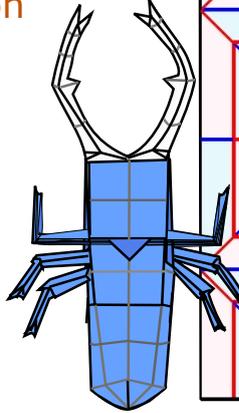

Simple stag beetle

Diagrammed 04/07/2022.

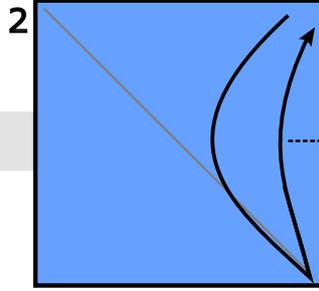

Just skip to step 65 all together, the crease pattern grid is 24 by 24 grid.

designed by
李羨/Andy Li

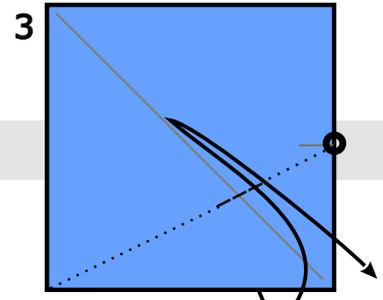

Paper size

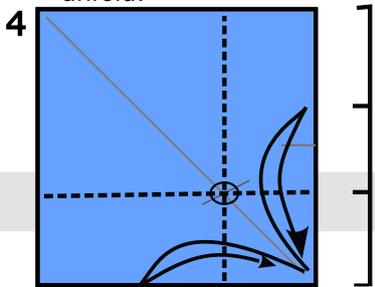

1 Fold diagonally and unfold.

2 Fold corner to corner but only mark the edge.

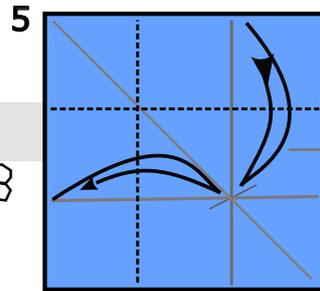

3 Mark the intersection of the diagonal and the line connecting the mark made in step 2 with the other corner.

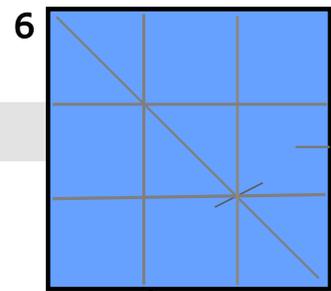

4 Fold a horizontal and vertical line that goes through the intersection mark made in step 3.

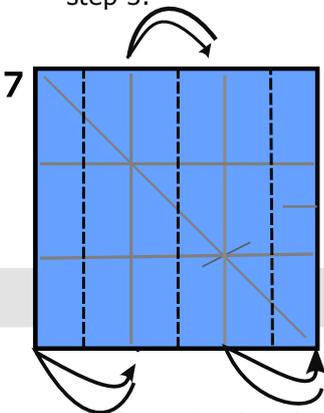

1/3

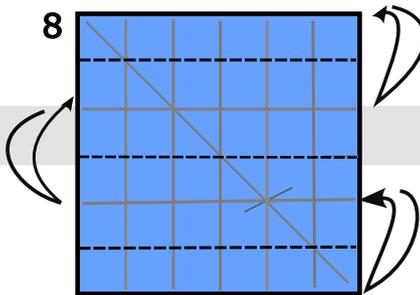

5 Now fold the paper into 3rds.

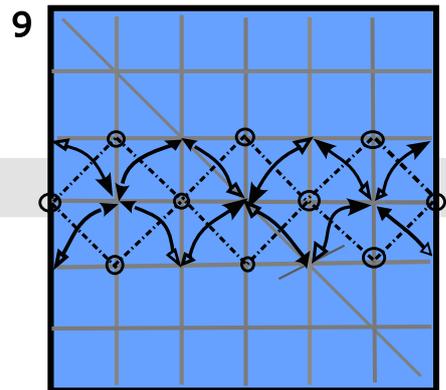

6 Like so.

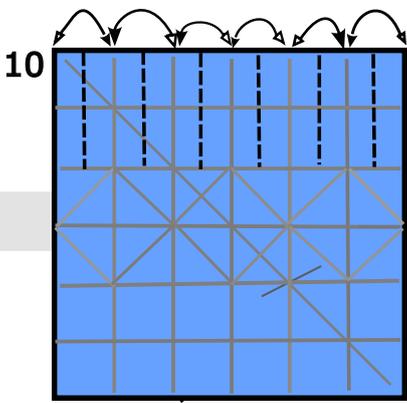

7 Divide the vertical grid line into 6ths.

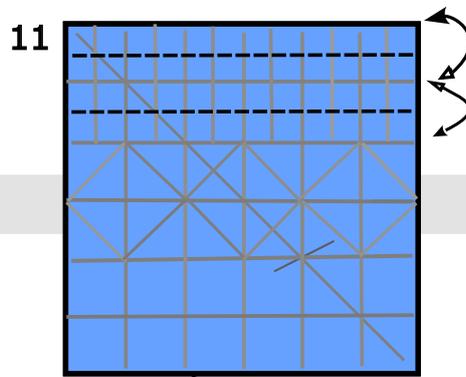

8 Now divide the horizontal grid line into 6ths as shown.

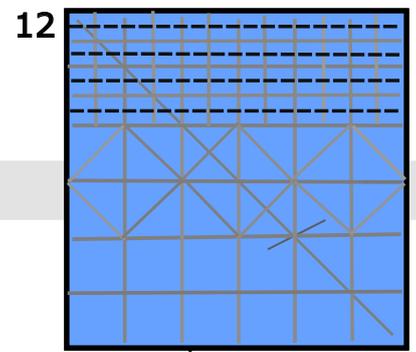

9 Mountain fold the diagonal lines between the intersection marked as shown on the diagram.

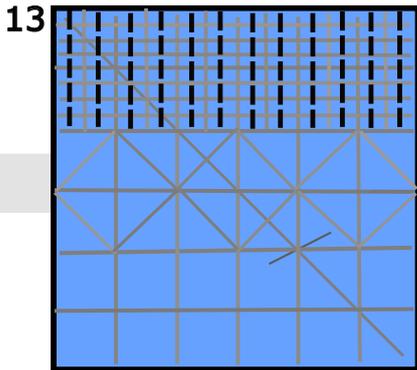

Fold the lines between the grids no further than as shown.

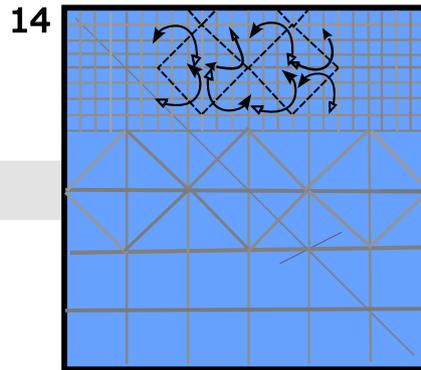

Valley fold between the grided lines as indicated.

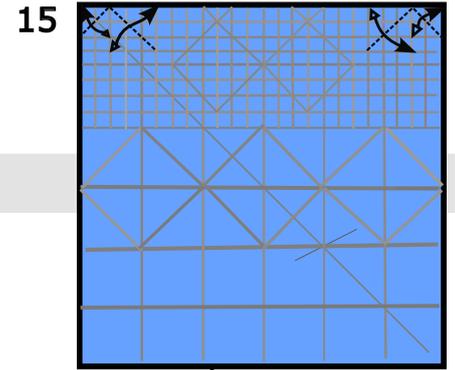

Fold the lines as indicated on the diagram.

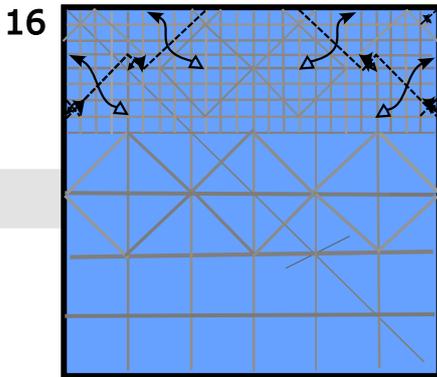

Fold along the grided lines as shown on the diagram.

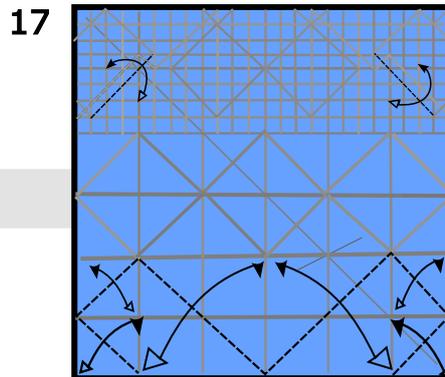

Precrease diagonal lines on the grids no further than as shown.

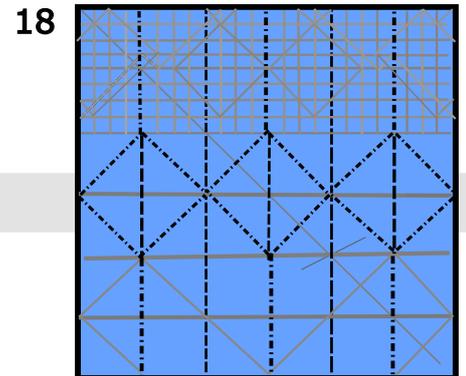

Fold and unfold as shown.

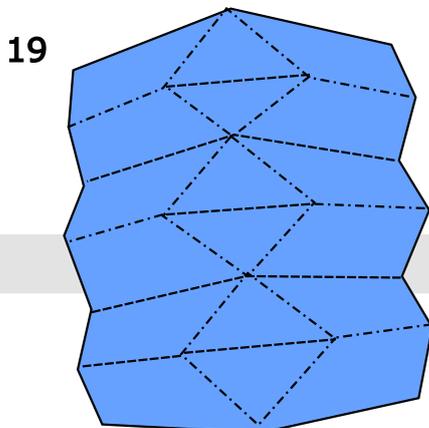

Precrease the paper as shown.

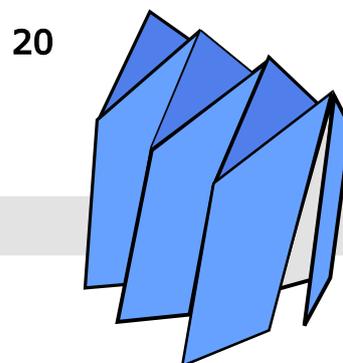

Precrease the paper as shown like so.

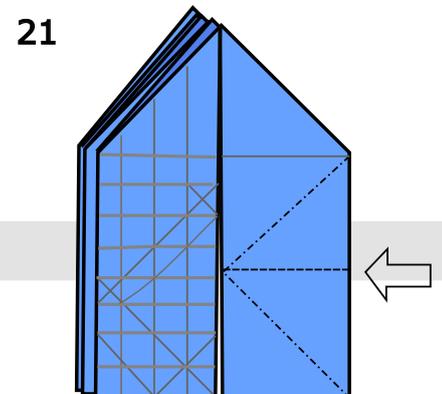

Mountain and valley fold along lines as shown.

Mountain and valley fold along lines indicated on step 18.

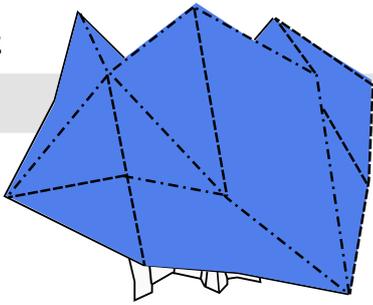

Collapse the paper like so.

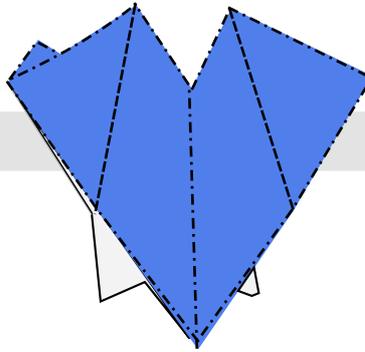

Push in the valley folded area as shown, the paper will not lay flat. Repeat step 21 on the opposite side of the model. Look at the next step for guidance.

22

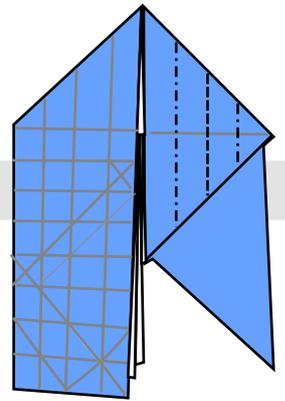

Fold the precreased areas as shown.

23

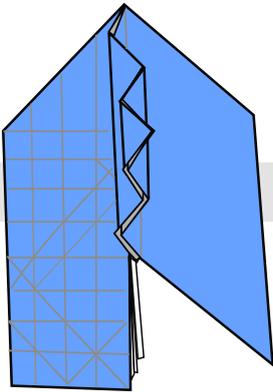

And collapse as shown, like so. See step 24 for the result.

24

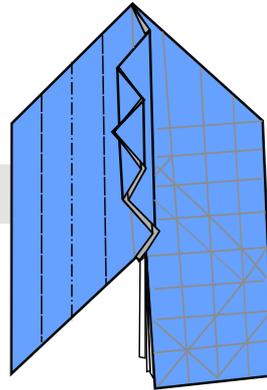

Pleat like so.

25

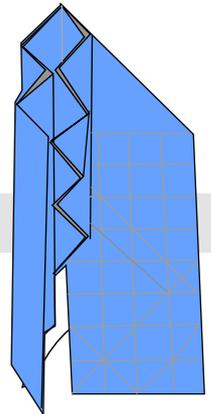

Repeat step 24 on the opposite side.

26

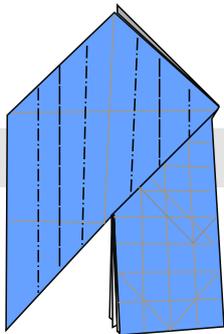

Pleat as shown.

27

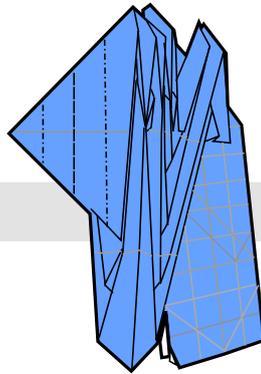

Like so. Unfold from step 27 to step 24.

28

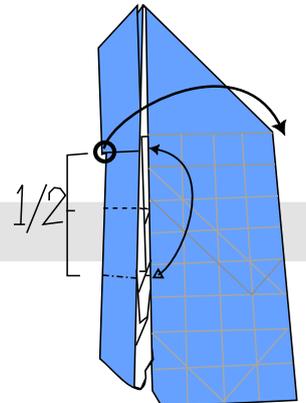

Open sink as shown. Result looks like step 29.

29

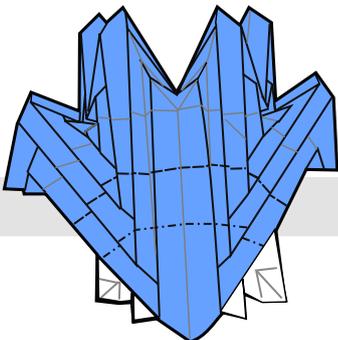

Open sink the pleated area.

30

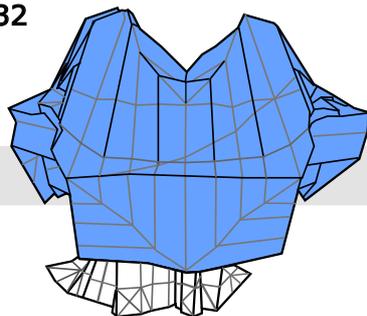

Fold a crease over all the back layers. Pull the marked flap to the right to show the hidden layers

31

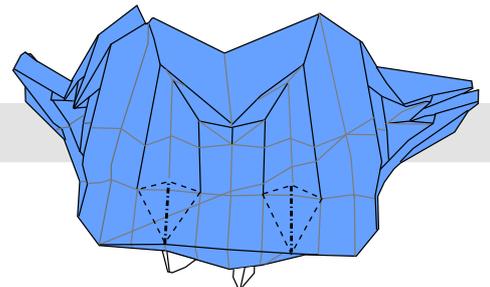

Mountain and valley fold to shape it like into a box. The model will not lay flat.

32

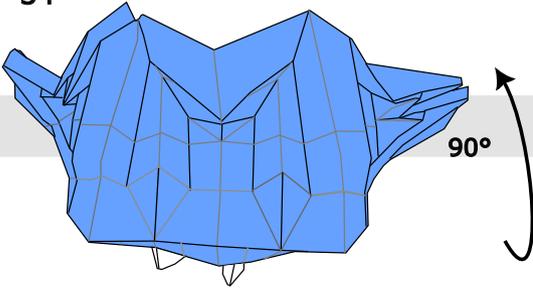

Rotate the model 90° downwards so then the top end of the box faces the front.

33

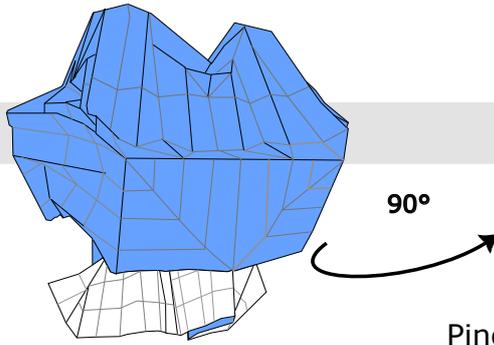

You can shape the marked section on the grid just by pinching the middle mountain fold line unless your using tissue foil. Note the inaccurate length can be adjusted till you see fit later on in the steps.

34

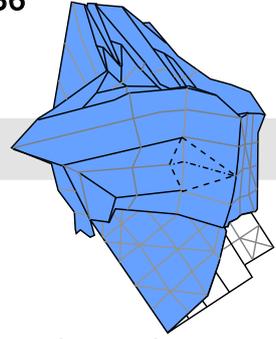

Rotate the model upwards 90° until the front faces the front.

35

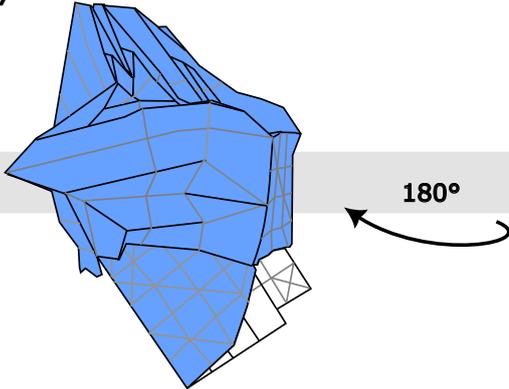

Rotate the model 90° to the right so the left faces the front.

36

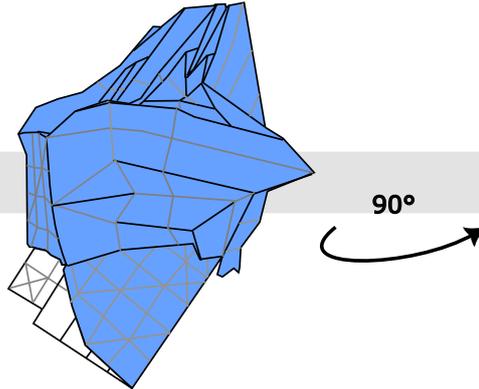

Pinch to shape the section on the grid just like you did in the top section in step 34.

37

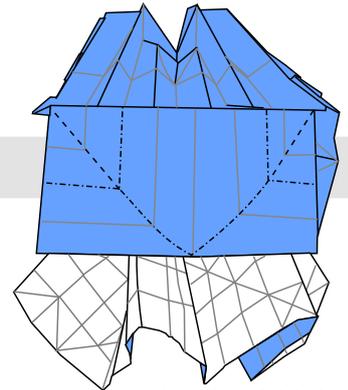

Now rotate the model 180° to the left until the right side of the box faces the front and repeat the same thing you did in step 37.

38

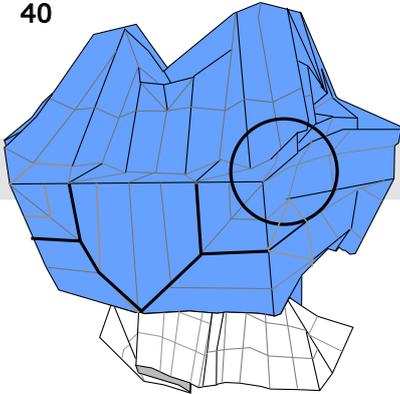

Like so. Note the pinched creases you made needs to stay in shape. Rotate the model 90° to the right until the front faces the front.

39

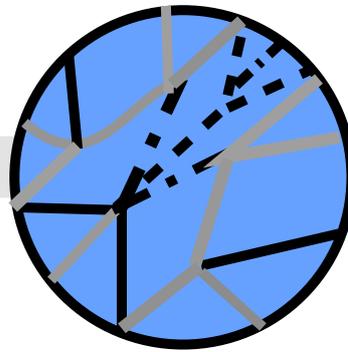

Pinch mountain and valley fold the selected lines. Note you do not need to collapse it just yet.

40

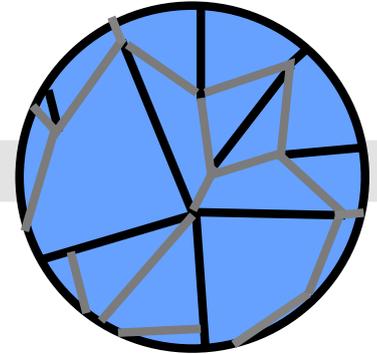

Like so. Look in the circled area to the corner section.

41

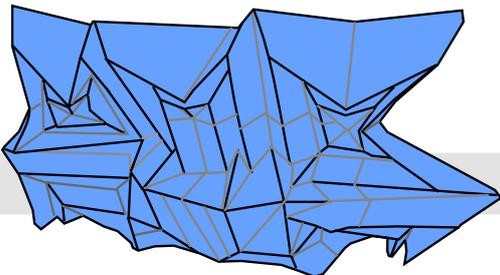

Feel free to skip these two circled steps and look at step 43 if the image isn't clear to you. Basically you have to open sink the corner and leave a pinch in the center of it.

42

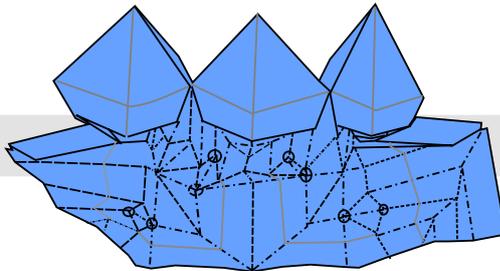

Like so. Look in the next step for a wider view of it.

43

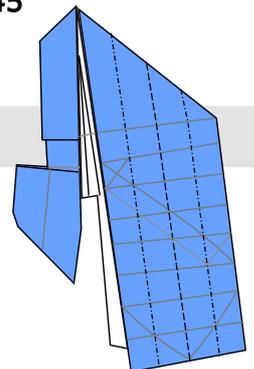

Repeat steps 40-42 on the left side. Note how some precreases have disappeared. This is to help you be less confused about the collapsing process since you don't use those creases.

44

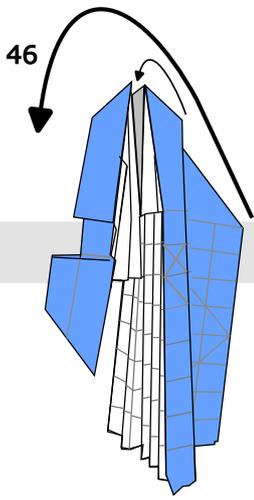

Pinch and adjust the lines that's been pinched. it should collapse itself easily with the level shifters still intact.

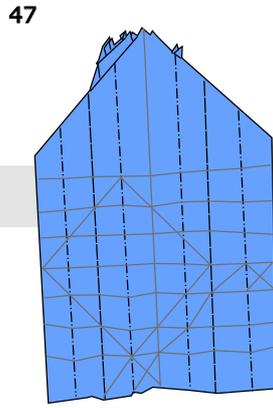

45

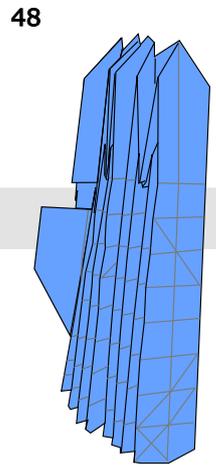

Like so. Pleat and unfold to make new creases. Then open sink as shown on step 46.

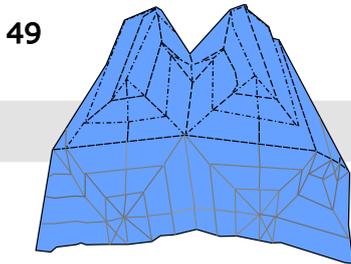

Like so. Then flip over the two flaps.

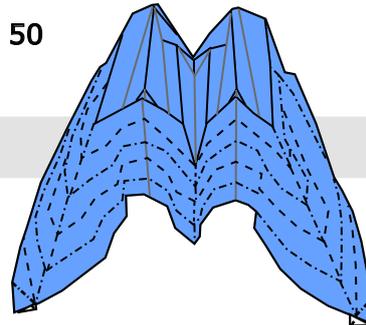

Pleat over the precreases and then open sink them flaps.

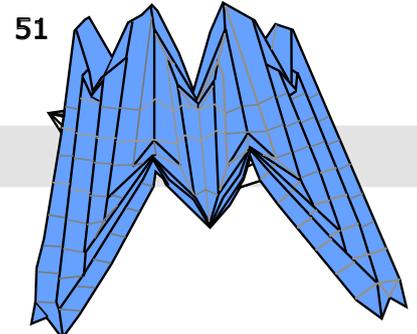

Like so. Open the flaps up not all the way, like in step 49.

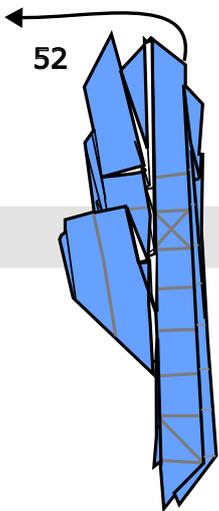

Then open sink fold the precreases that are indicated on diagram.

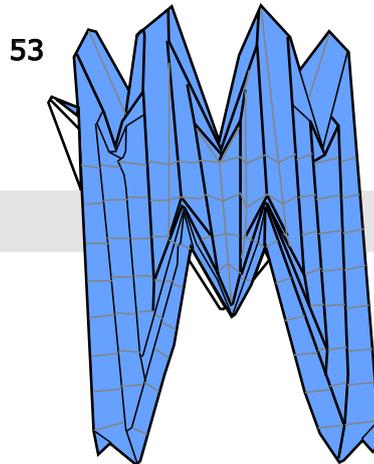

Then open sink the rest of the precreases marked on the diagram.

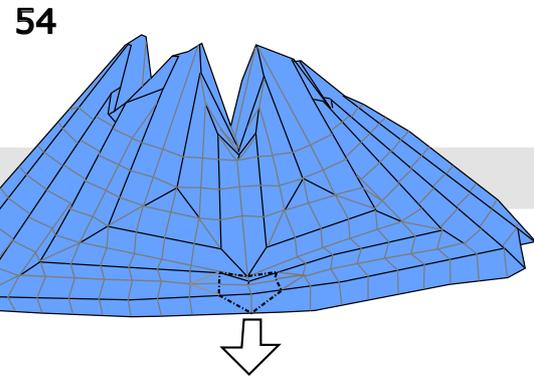

And collapse the paper like so. The paper will now lie flat.

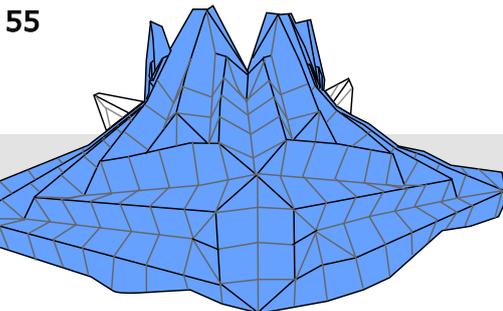

If everything is in order then turn a page open like a pop up book.

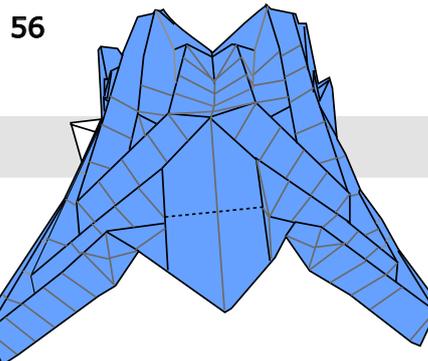

Like so.

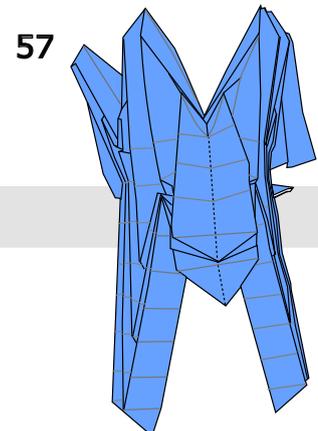

Then pull out and crease a hidden flap in the paper located on the diagram.

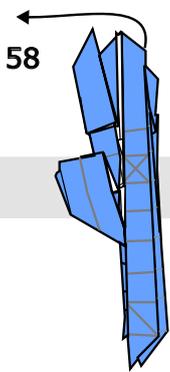

Like so.

Now valley fold the top flap down.

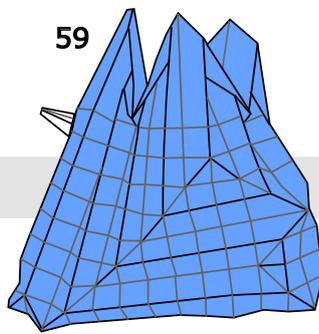

Close and collapse the model to the right like a book.

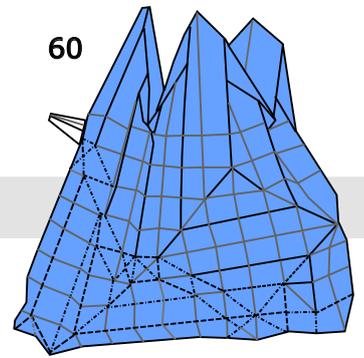

58

Turn over a page on the right like a pop up book.

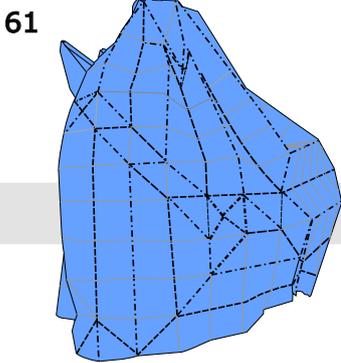

59

Like so.

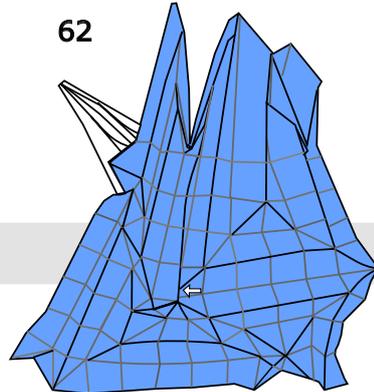

60

Fold and reverse fold the precreases. Note that some precreases are not marked as folded because they are already seen as mountain folds.

61

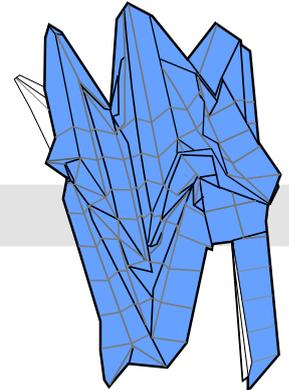

Clearer side view that was missing from step 60.

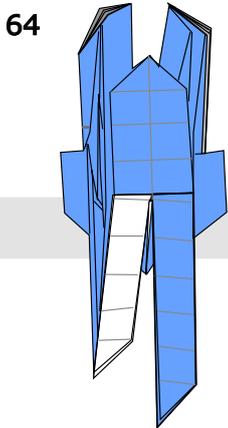

62

Collapsing process. Aaaa!! don't look.

63

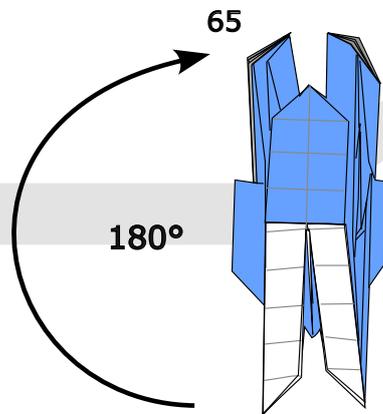

Still collapsing

64

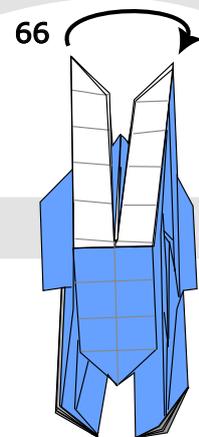

Repeat steps 58-64 on the right side..

65

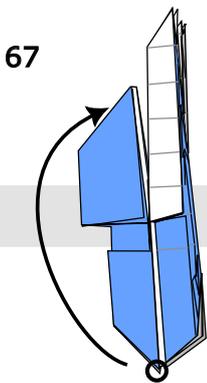

180°

Then rotate the paper 180° clock/anticlockwise.

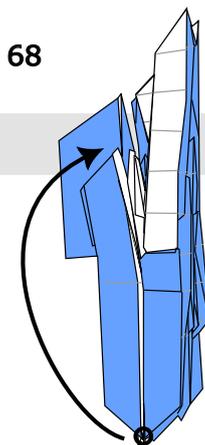

66

Flip a layer of flap to the right side like turning the page of a book.

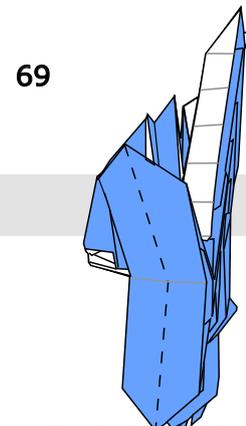

67

Flip a layer of flap upwards like pulling a lever.

68

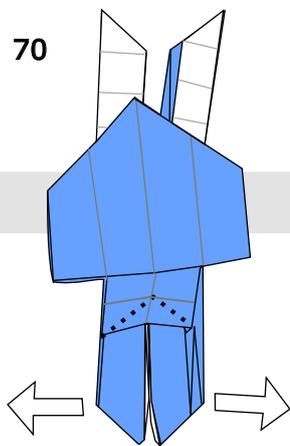

Flip another layer of flap up, kind of like flipping a switch.

69

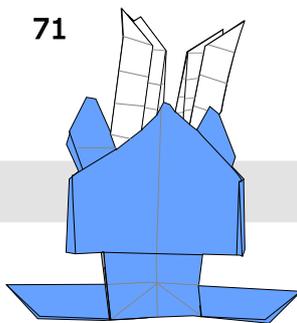

Valley fold the right side to the left kind of like turning the page of a book. Then repeat steps 66-69 on the right side. Once done make sure the model is facing the back, like the back cover of a book.

70

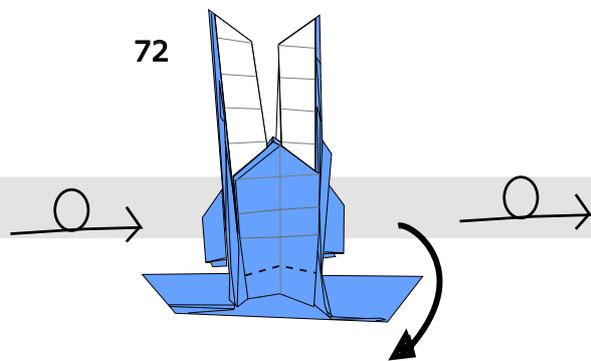

Inside reverse fold the legs apart to the sides.

71

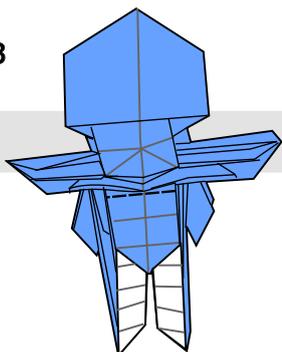

Like so. Turn the model over.

72

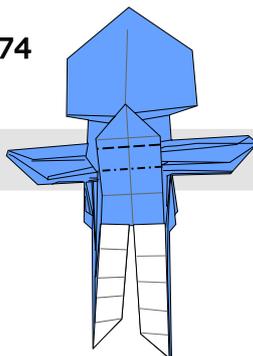

Valley fold the layers down including the colour changed mandibles. Then flip the model over.

73

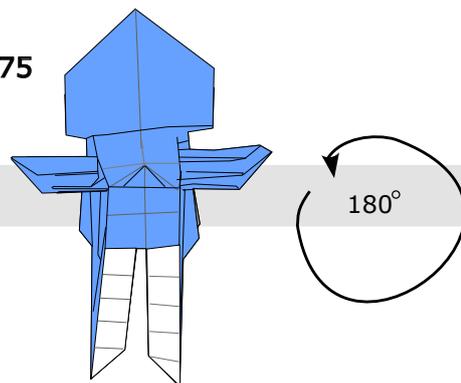

Valley fold the layer up.

74

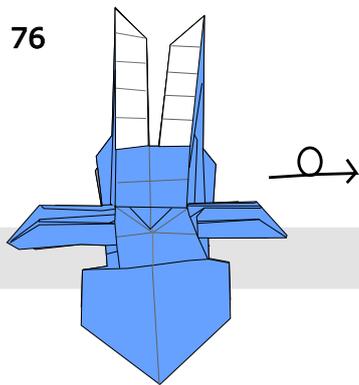

Do a pleat fold.

75

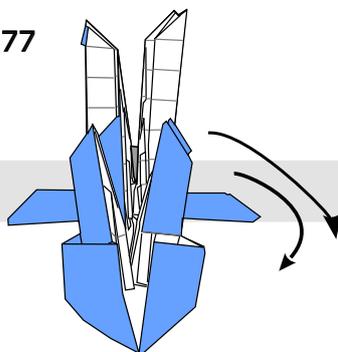

Like so. Then do a 180 degree anticlockwise rotation.

76

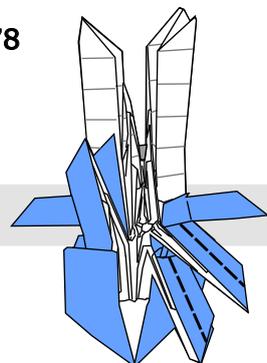

Like so. Then flip the model over so the back faces the front.

77

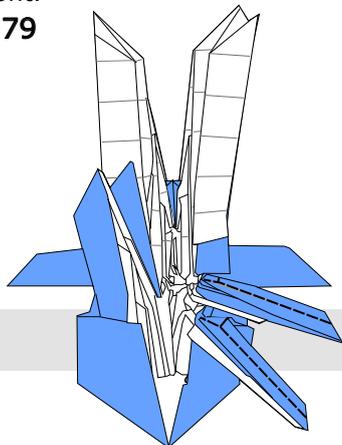

Fold the legs outwards to the sides and flatten.

78

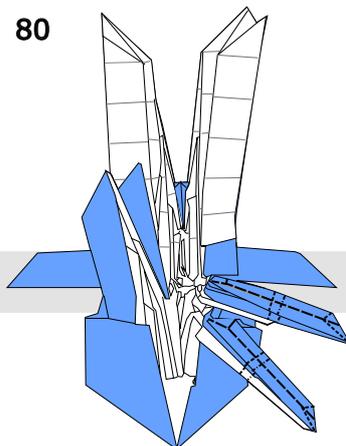

Thin the legs by valley folding over them.

79

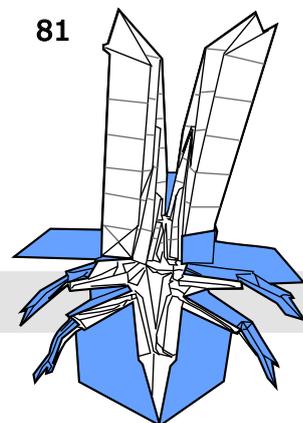

Then rabbit ear fold the legs and press down flat.

80

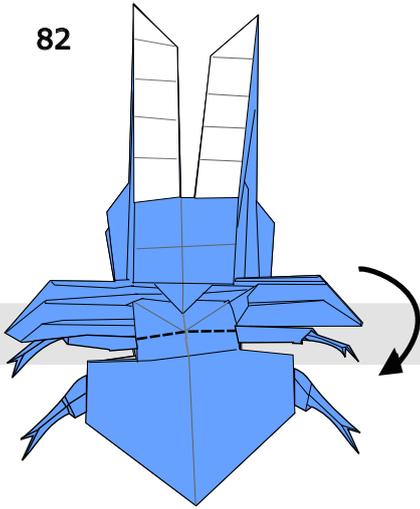

Unfold step 79 and close it again with a crimp fold. And shape the tips of the legs to taste. Then repeat steps 77-80 on the left side.

81

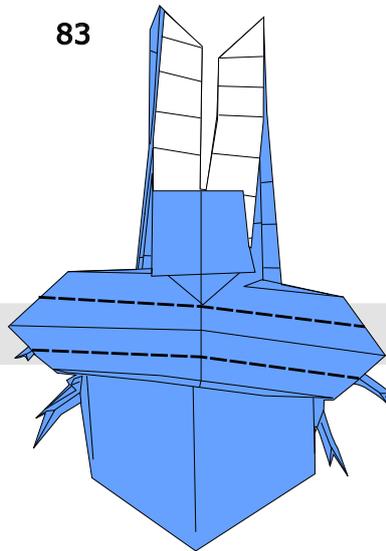

Like so. Turn the model over so the back faces the front.

82

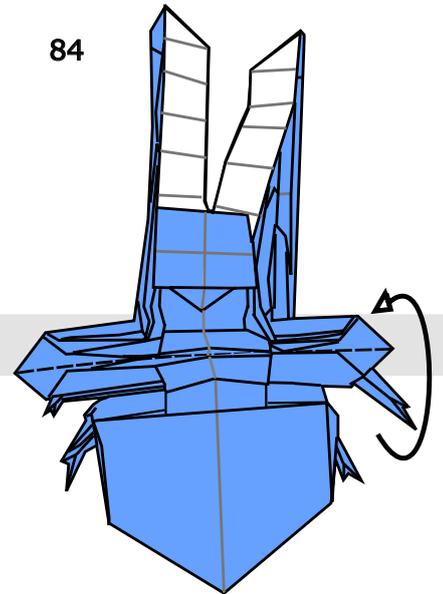

Book fold the legs open, so the inner layer shows, kind of like opening a mail or a birthday card.

83

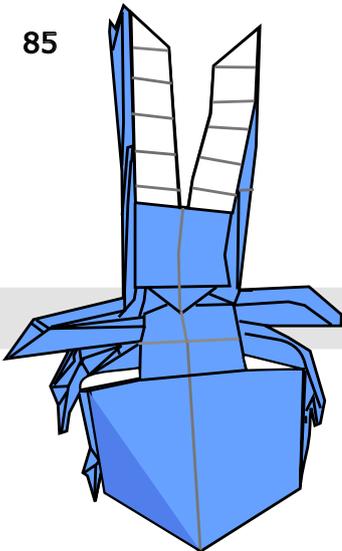

Valley fold the legs into the middle section.

84

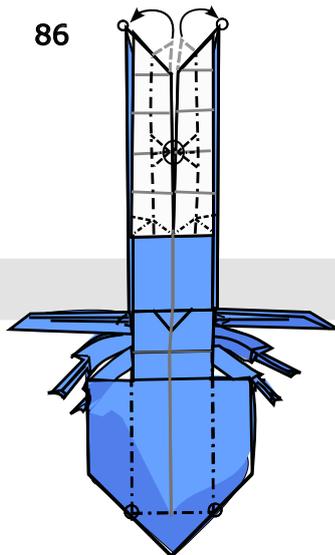

Valley fold the legs closed upwards.

85

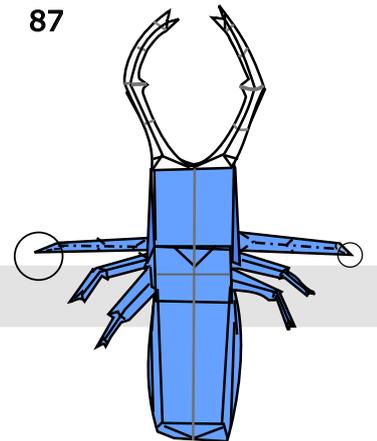

Like so.

86

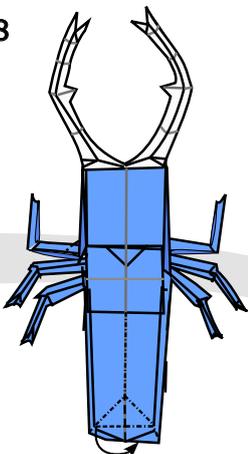

Mountain fold the sides of the abdomen down and elias stretch end point of the abdomen open. Fold the mandibles tooth out to show on both sides. Rabbit ear the mandibles outwards and crimp the middle section of the mandible diagonally inwards.

87

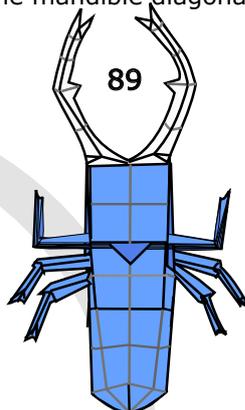

Rabbit ear the upper legs and crimp fold the legs up together at once and then shape the tarsal claws to taste.

88

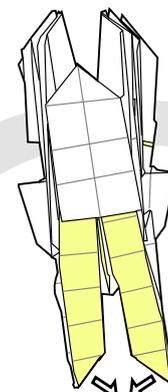

Close the abdomen

89

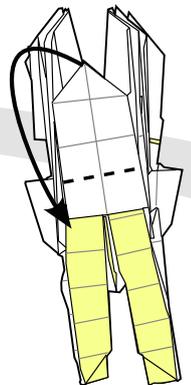

Your stag beetle is now complete.

65

66

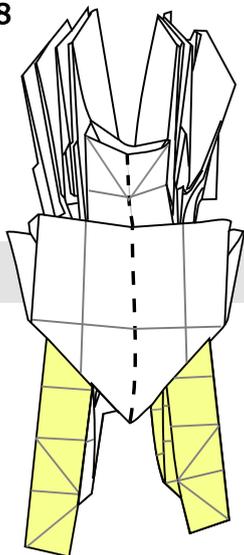

Back to step 65 for the fairy.

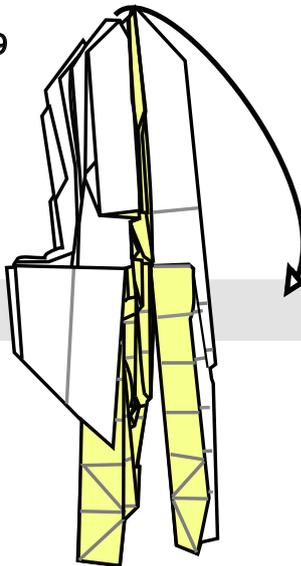

67

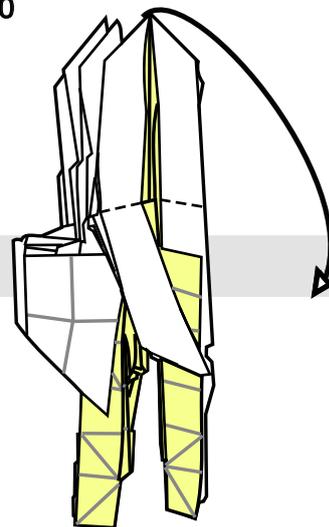

68

69

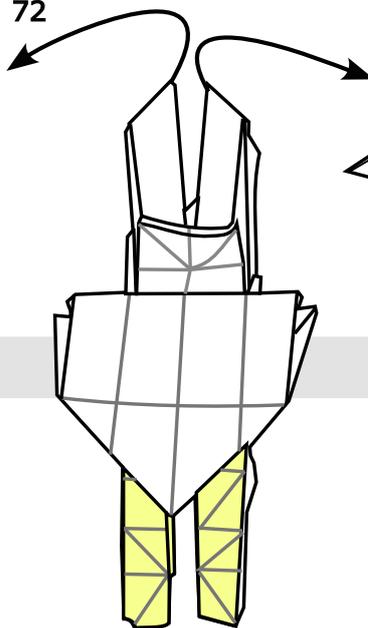

70

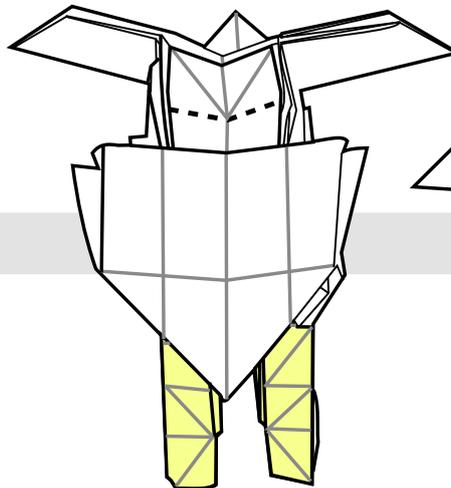

71

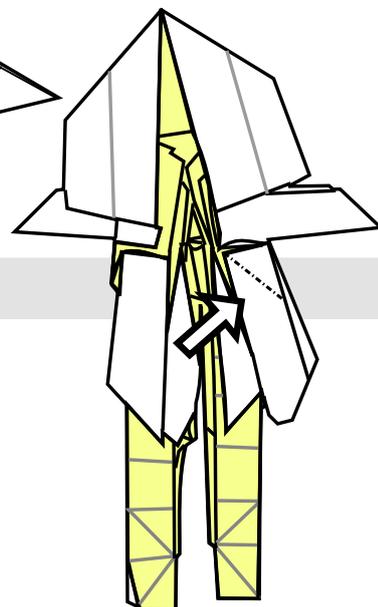

72

73

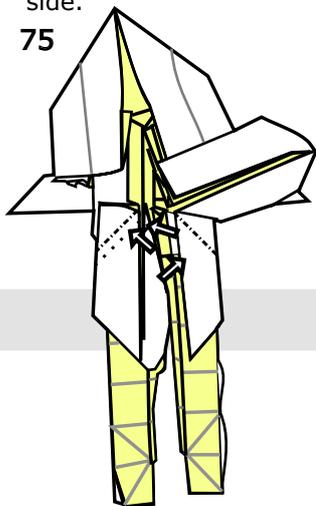

74

Close it back up and repeat steps 69 - 71 on the opposite side.

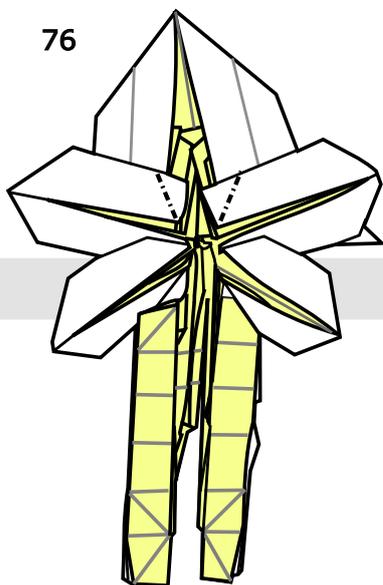

Squash fold.

75

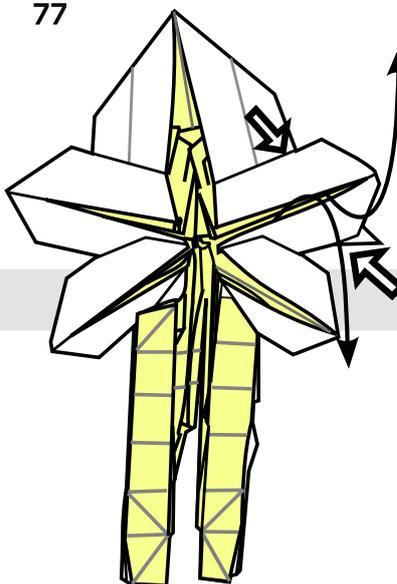

Repeat step 74 on the rest of the wings.

76

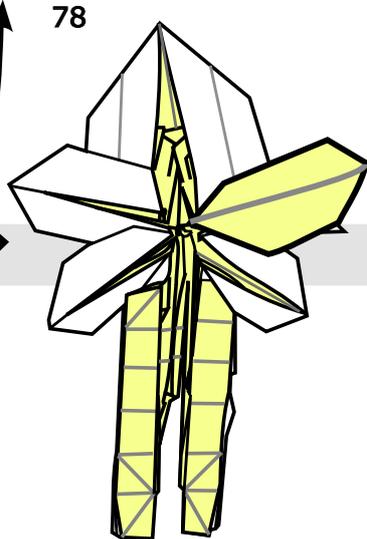

77

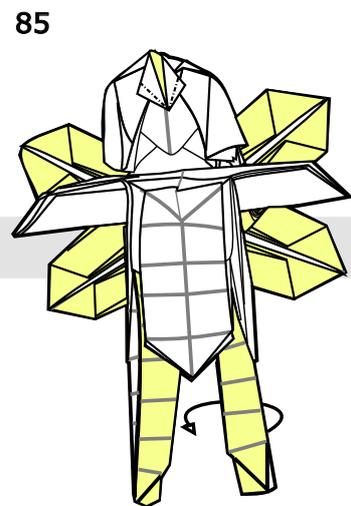

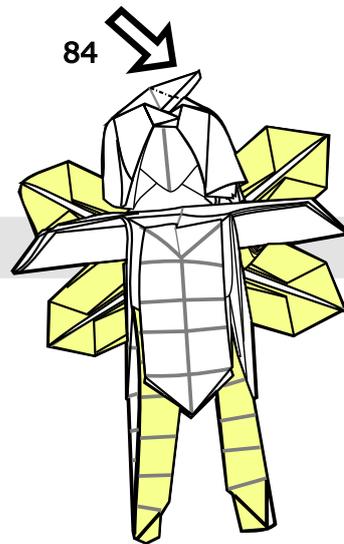

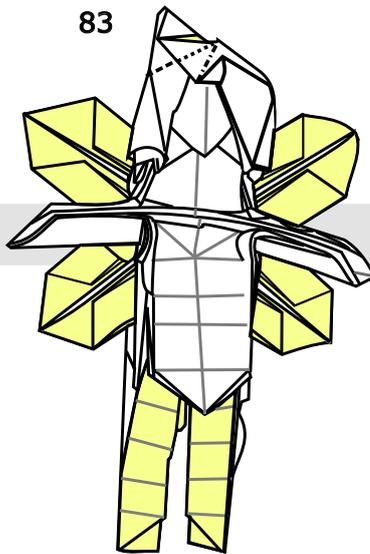

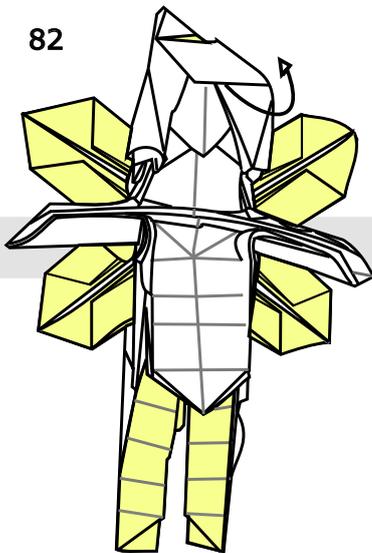

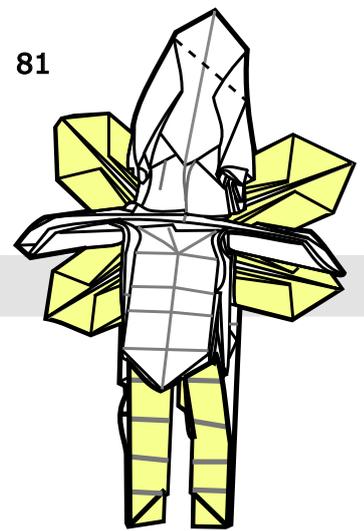

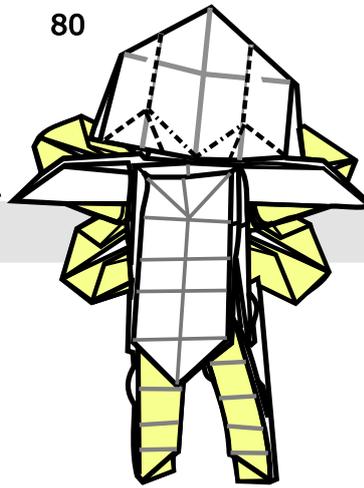

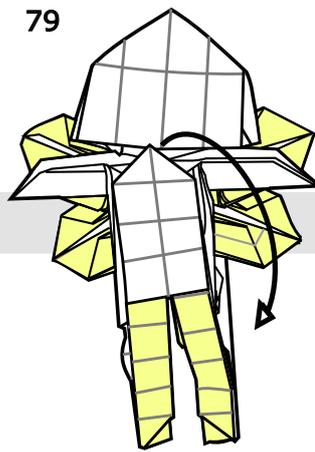

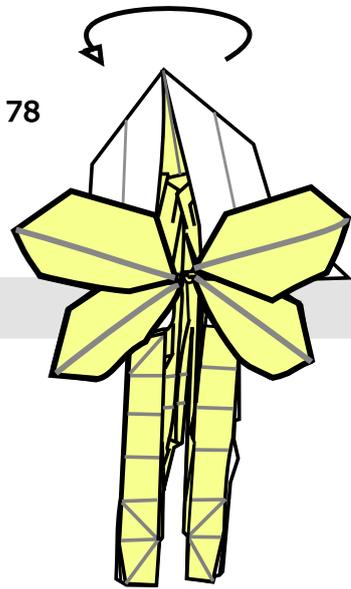

Closed sink fold.

78

Repeat step 77 on the other three wings.

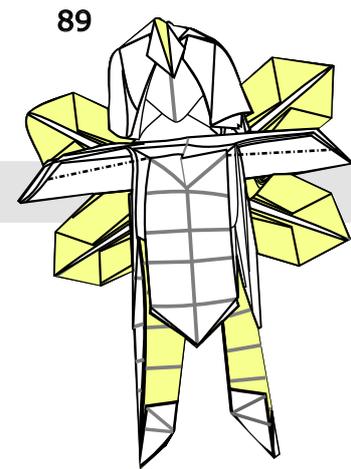

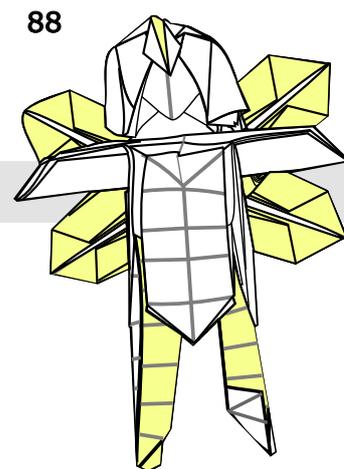

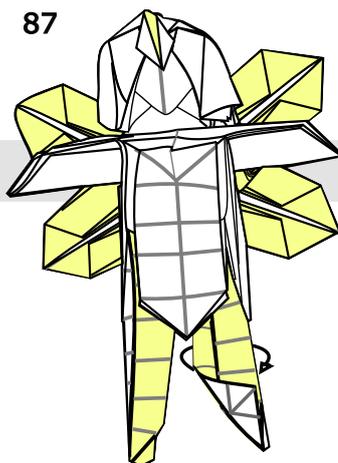

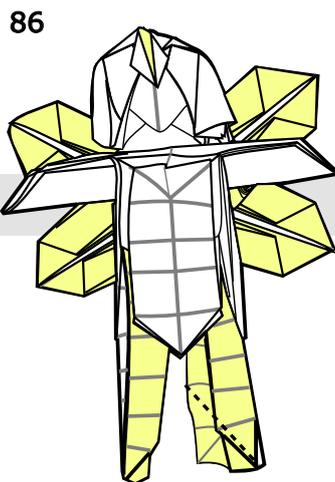

Unwrap the hidden layer of the hair.

Repeat step 81 to 82 on the left side of the head.

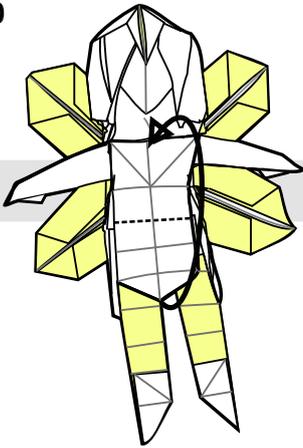

Squash fold.

Mountain fold the edges of the hair behind.

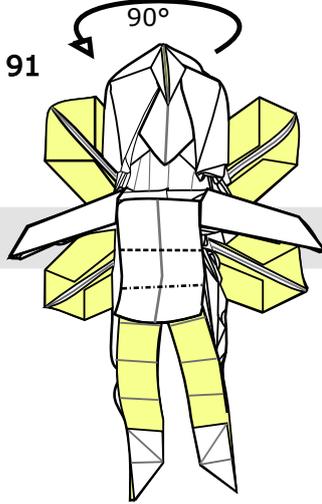

Repeat step 86-88 on the left leg.

90

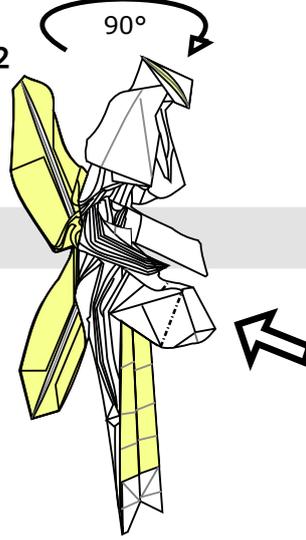

Pull up and tuck it in.

91

Elias stretch the the clothes.

92

Fold and press to form a skirt.

93

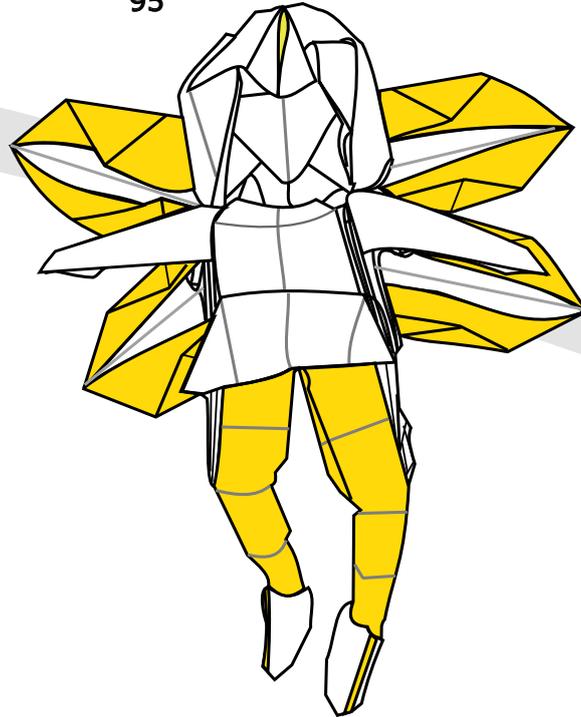

Shape well.

94

Mountain fold in around the colour changed area of the wings to add detail to the wings. Apply a little methyl cellulose on the neck and put on display.

95

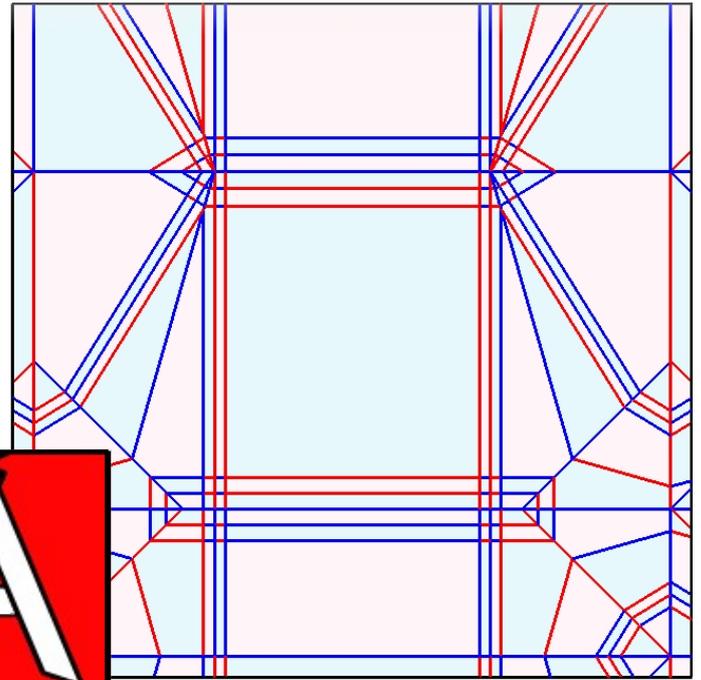

Done.

19.

Sink and squash fold, and fold the right edge to the left.

20.

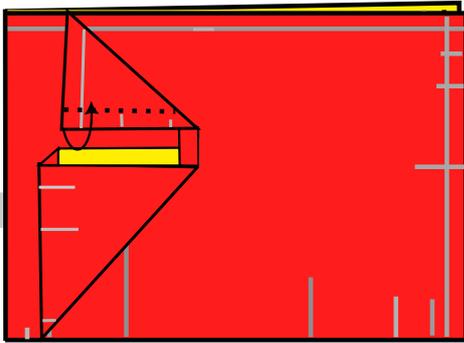

Fold over and sink it/ or hide it behind the layers. Whichever you like to call it.

21.

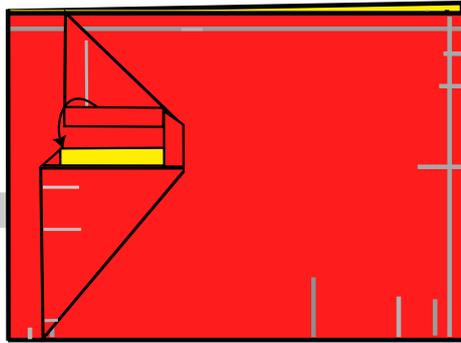

Align the edges and fold over.

22.

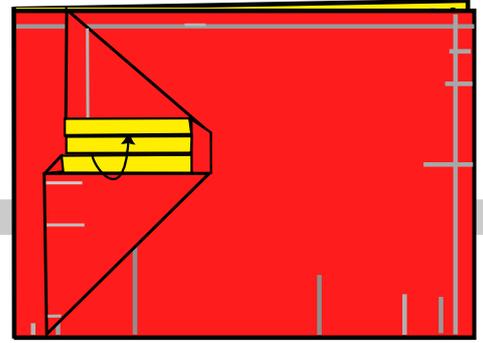

Unsink to show the hidden layers of paper.

23.

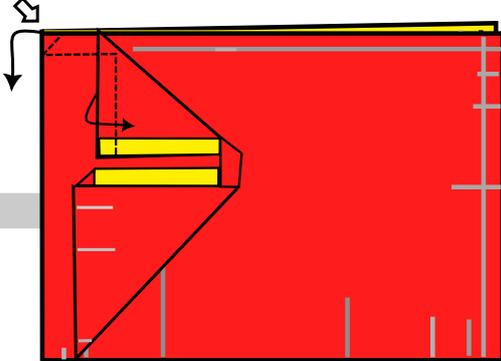

Fold 1 layer of paper down.

24.

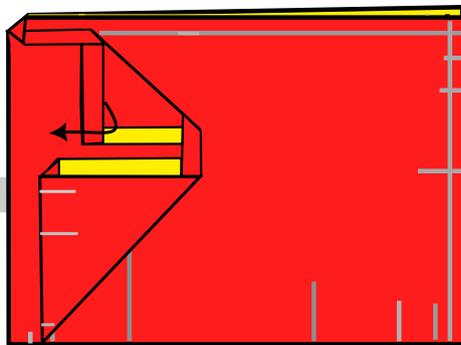

Fold up and hide under the top layer of paper.

25.

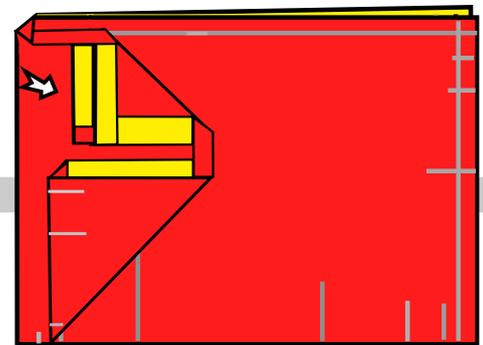

Sink and squash fold. Fold the vertical edge over to the right, yarda yarda.

26.

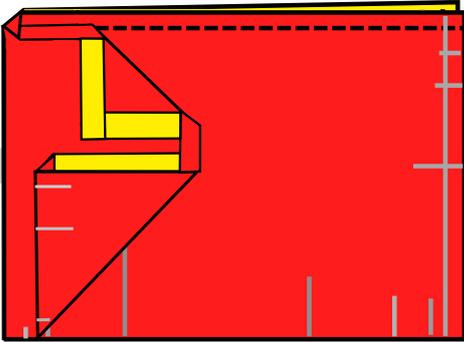

Fold 1 layer to the left.

27.

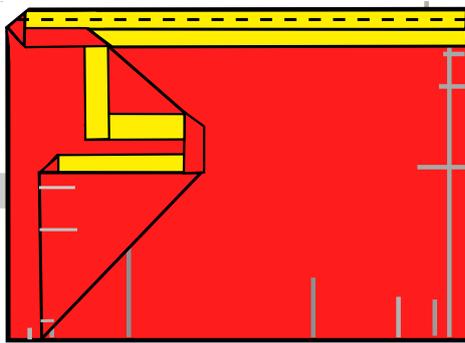

Fold it behind or front and under, it doesn't matter.

28.

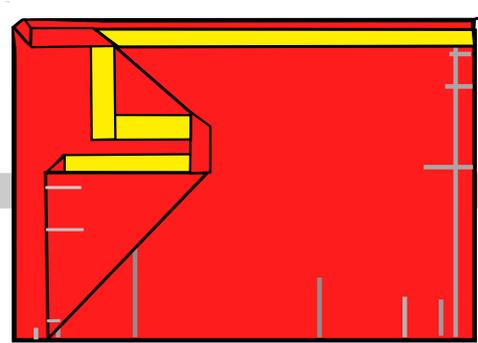

Fold the top edge down.

29.

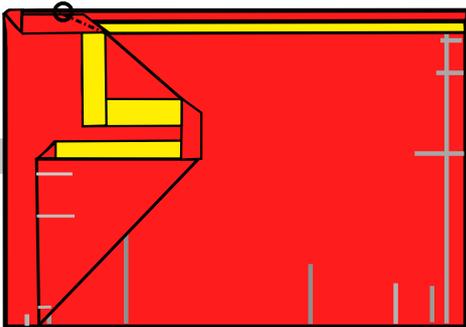

Fold the top edge down.

30.

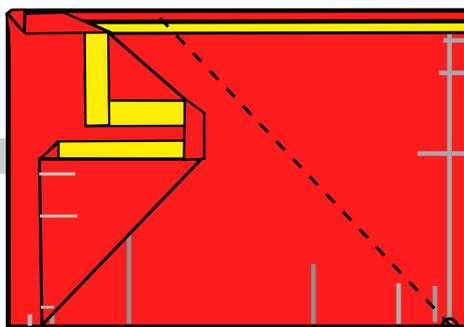

Fold the top edge down.

31.

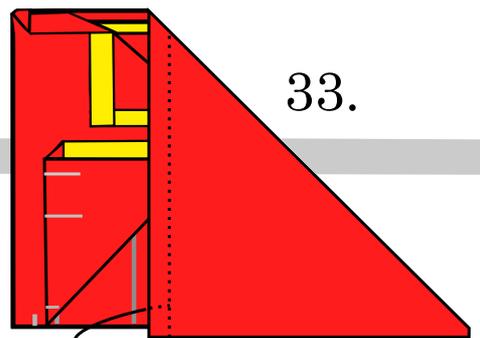

Mountain fold the diagonal edge behind.

32.

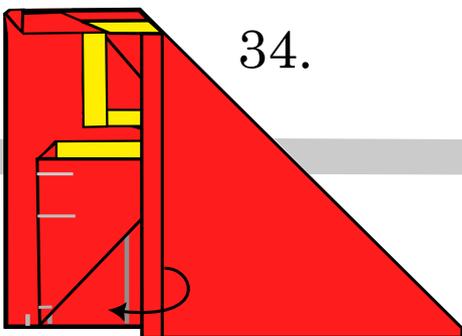

Align and valley fold. I call this a valley fold.

33.

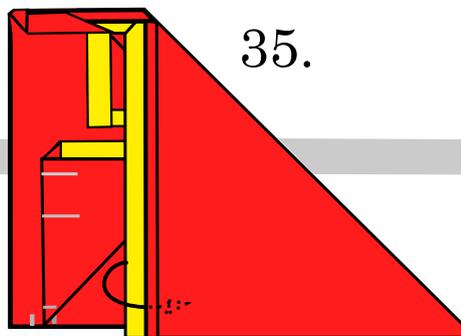

Unsink and fold over the edge to show.

34.

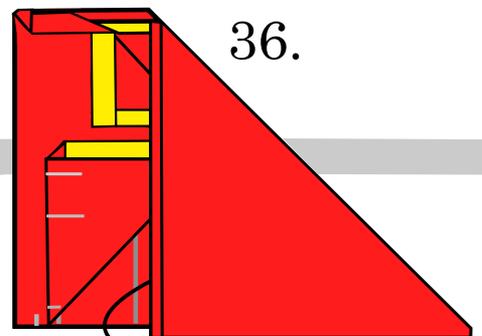

Fold or flip the top layer to the left.

35.

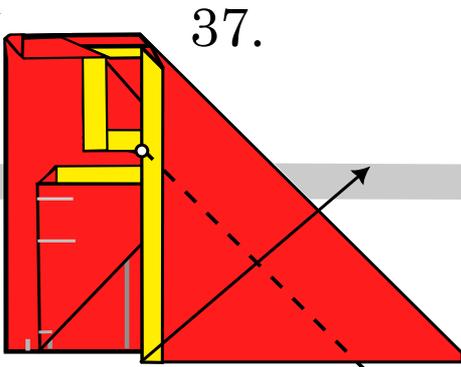

Valley fold it behind the top layer. This time it matters.

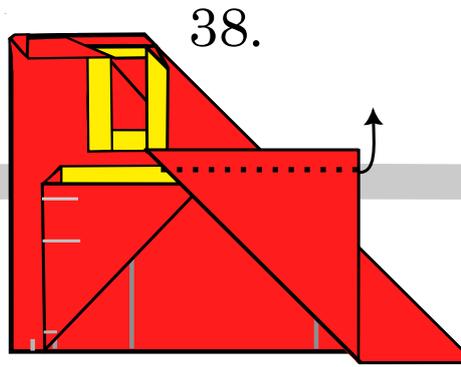

36.

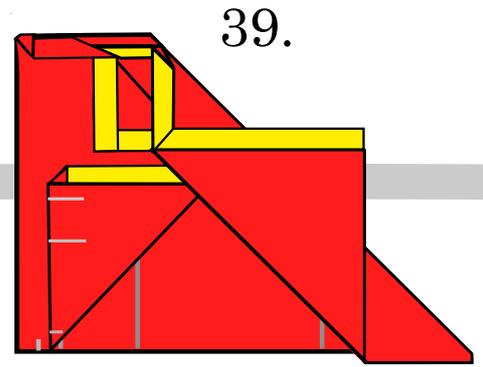

Fold the vertical edge to the right and flatten. Careful not the rip the top edge corner of the paper. PLEASE :|

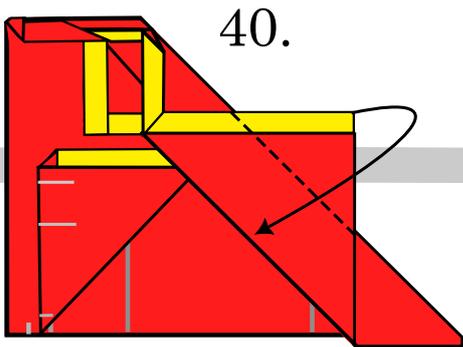

Phew you made it.
Fold it diagonally upwards
to the right.

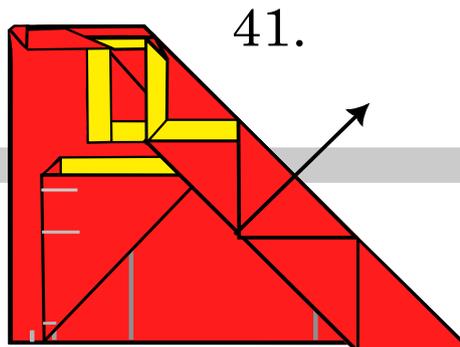

Unfold from behind to show
the layer of color change.

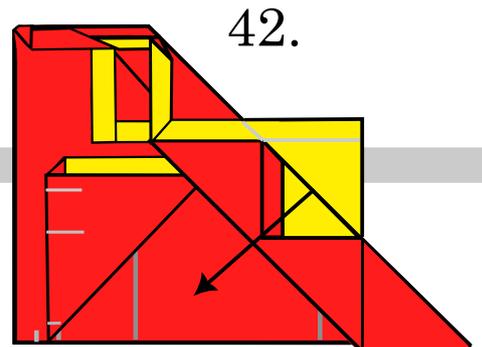

Like so.

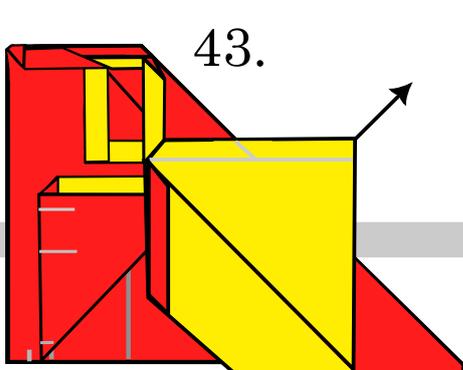

Fold the double layers
diagonally. Why? Who knows,
I just read what it tells me.

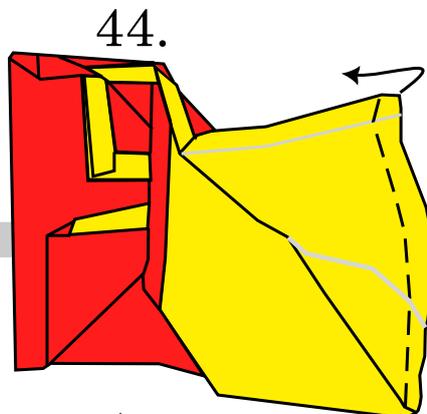

Unfold 1 layer.

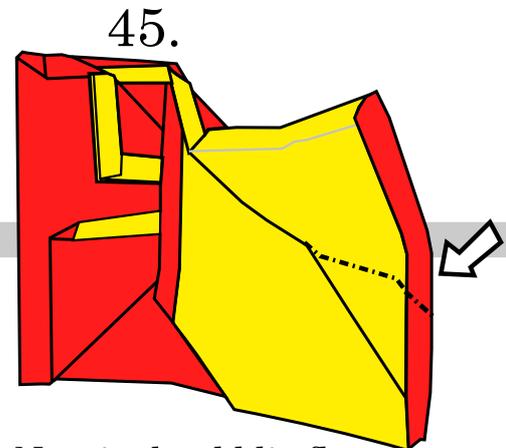

Unfold (1 layer). I kinda felt
I had to add that last part
in. Hehe

Pull up (but not all the way).

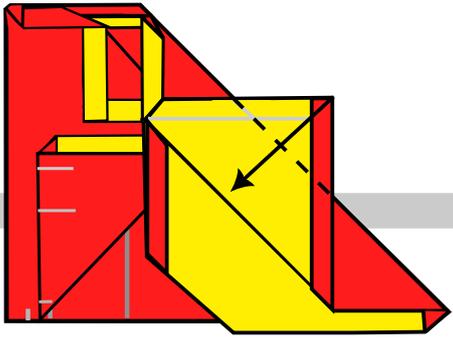

Fold (the paper will not
lie flat).
That's what they say.

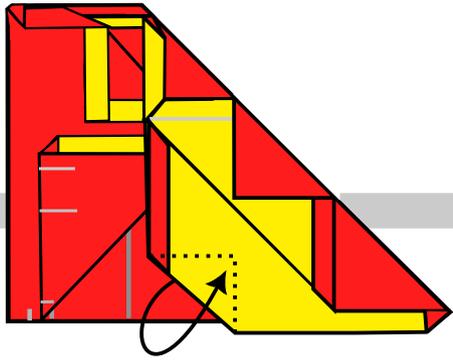

Now it should lie flat
after this step.

46.

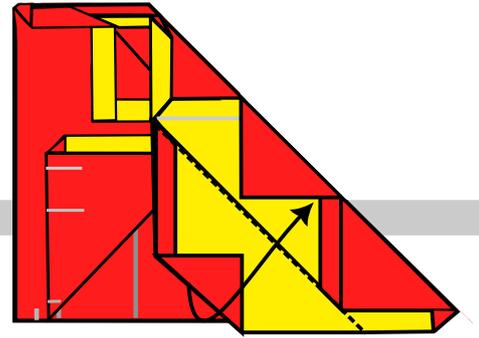

Valley fold diagonally down.

47.

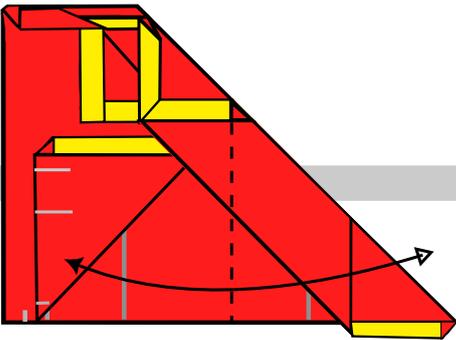

Unfold and fold over.

48.

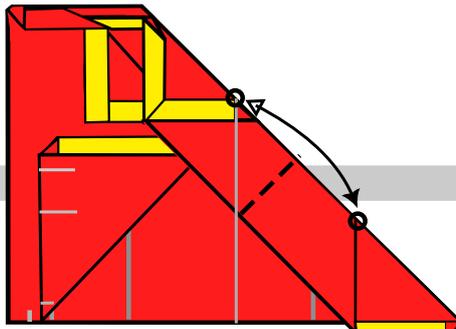

Fold over.

49.

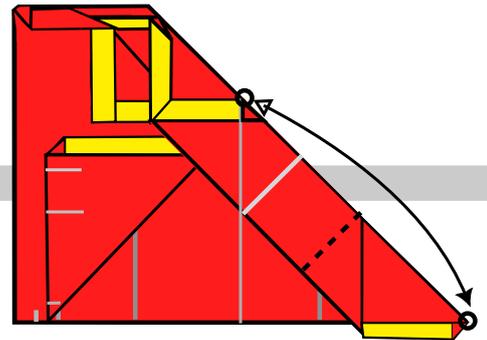

Align crease vertically and neatly.

50.

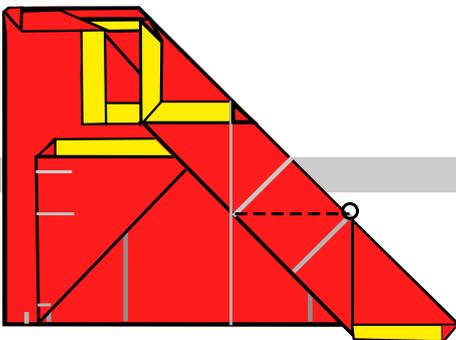

Fold diagonally in half and unfold to step 49.

51.

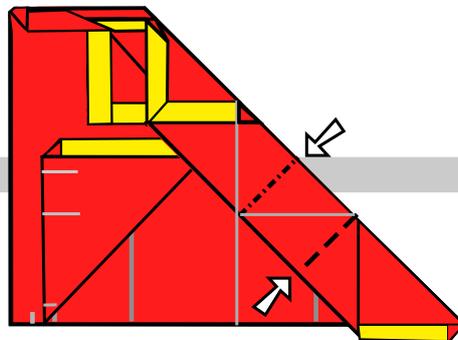

Fold diagonally in half and unfold to step 49.

52.

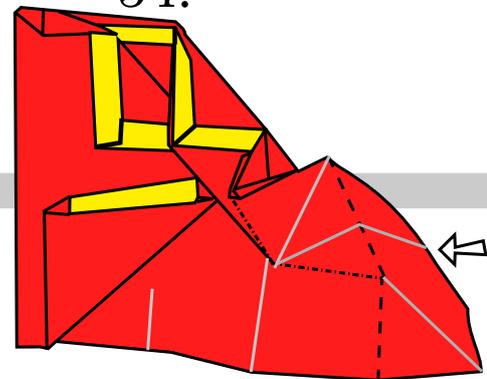

This step and this crease is optional (but it is helpful).

53.

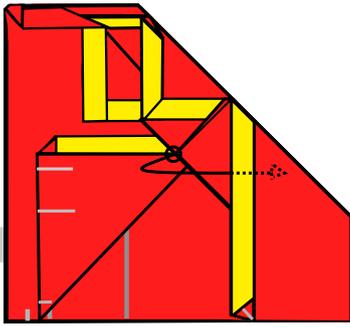

Mountain and valley fold.

54.

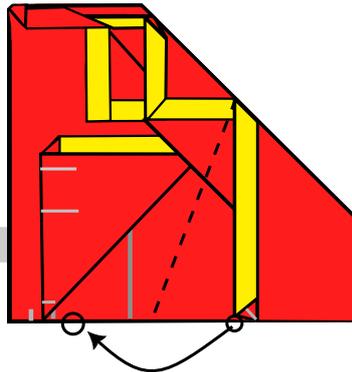

Collapse. Told you step 52 was helpful.

55.

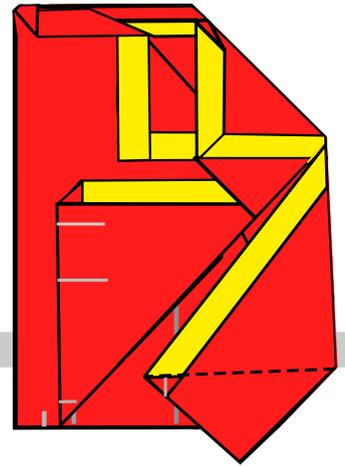

Fold over to the right and hide it.

56.

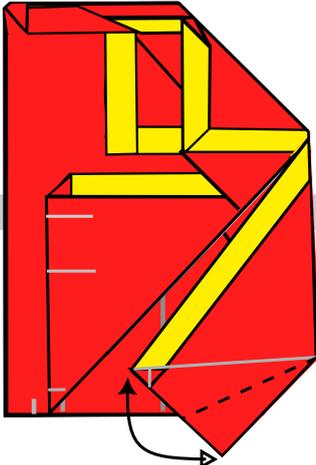

Valley fold over. Yeah you understand don't you.

57.

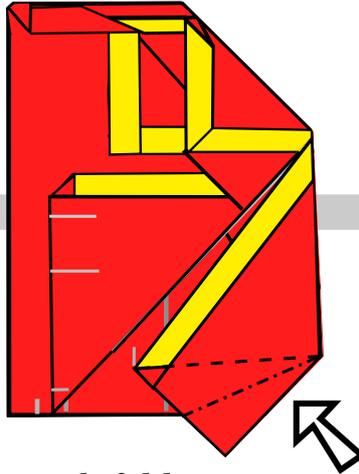

Step optional, but necessary.

58.

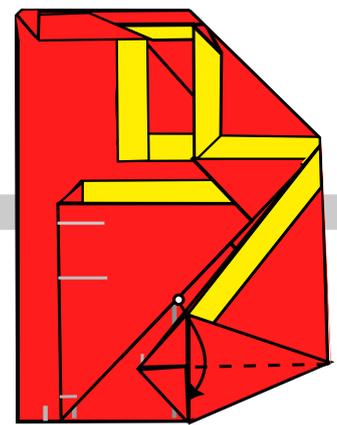

Fold and crease.

59.

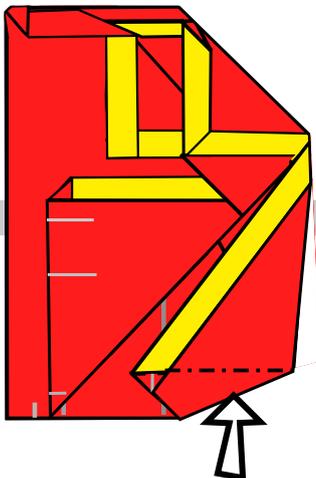

Squash fold.

60.

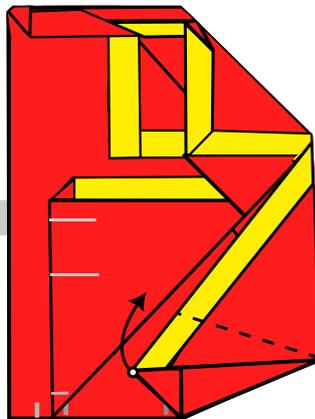

Book fold down.

61.

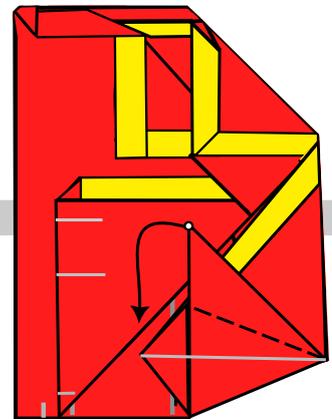

Sink fold.

62.

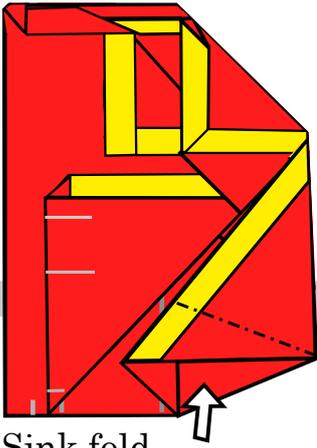

Book fold up.

63.

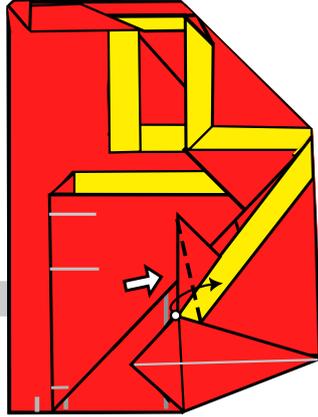

Book fold down.

64.

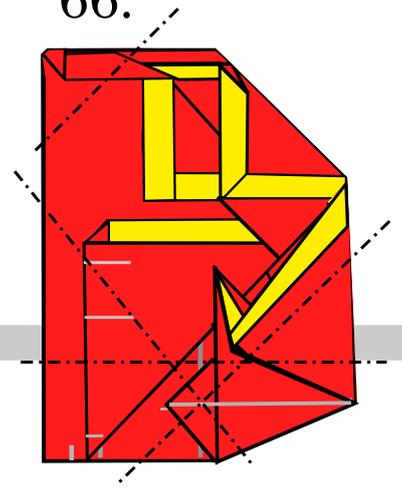

Sink fold.

65.

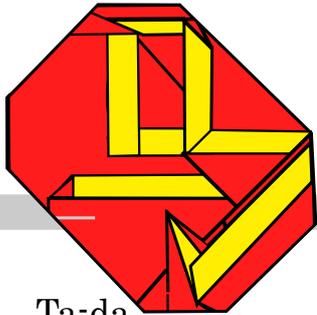

Valley fold and sink.

66.

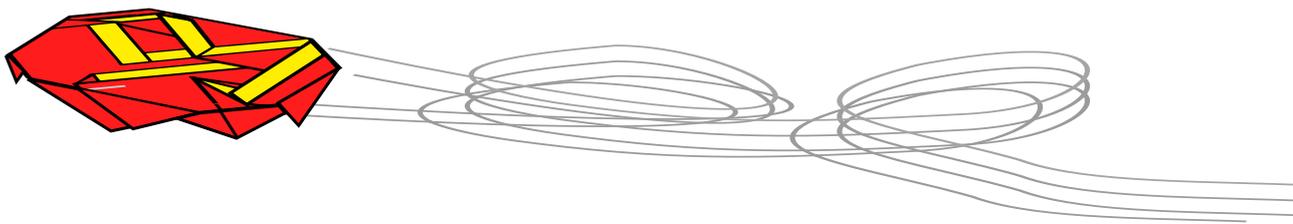

Hide the edges. It doesn't matter what order.

67.

Ta-da.

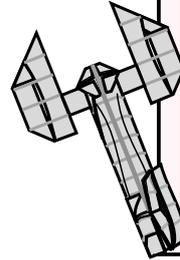

Swiss Battering Wrench

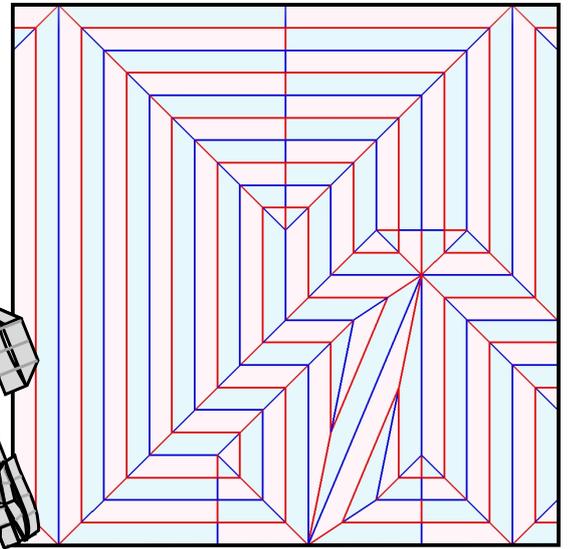

Designed by
Andy Li/李羨

Difficulty: Intermediate
Steps: 55
Type: Box-Pleating
Action model: No

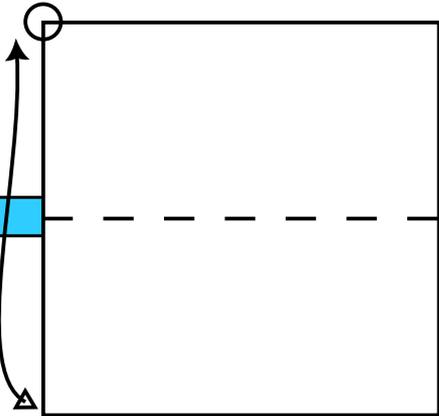

Folded size.

Unfolded.

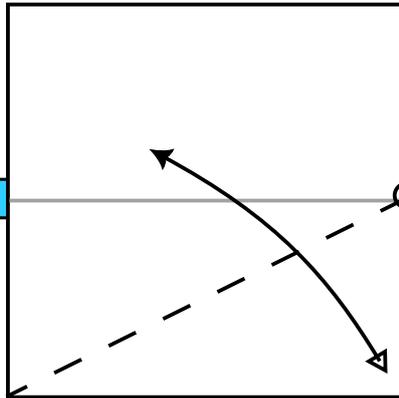

1.

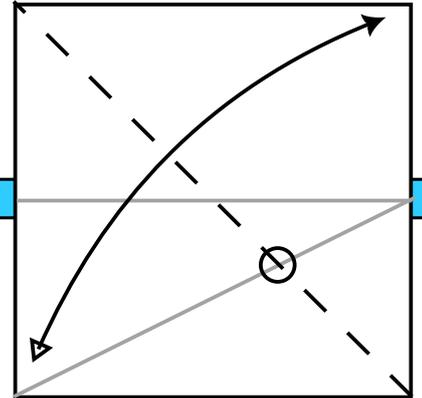

Fold in half and crease.

2.

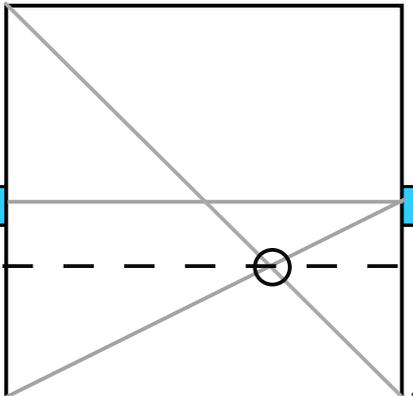

Align and crease.

3.

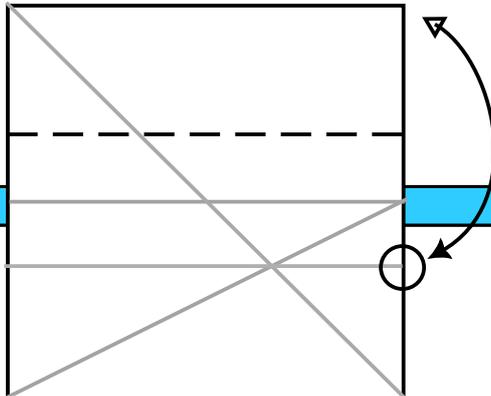

Fold in half diagonally and crease.

4.

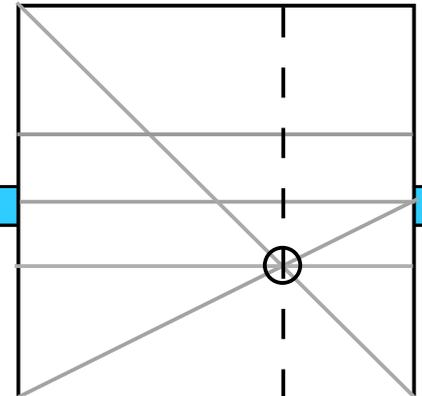

Fold and unfold.

5.

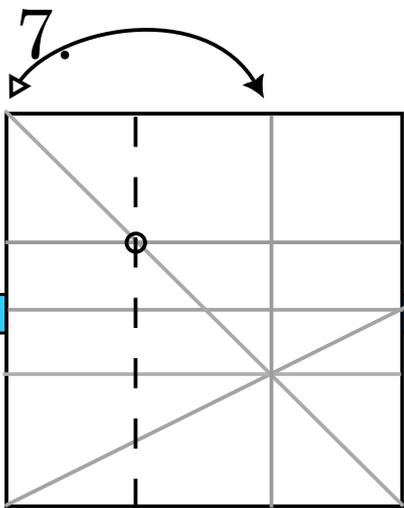

Fold and unfold.

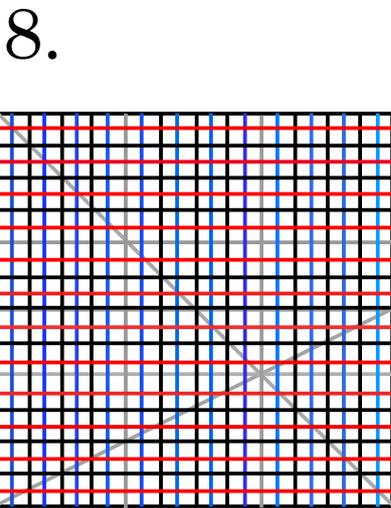

6.

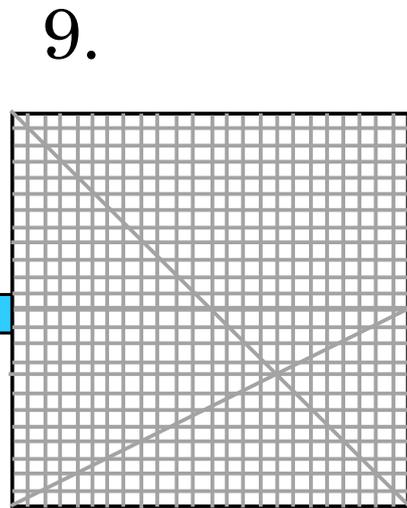

Fold and unfold.

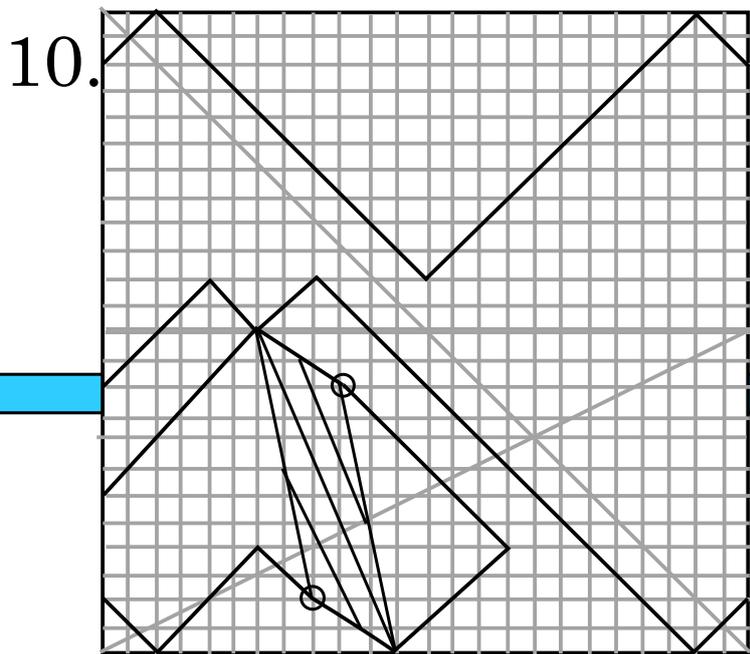

Fold and unfold.

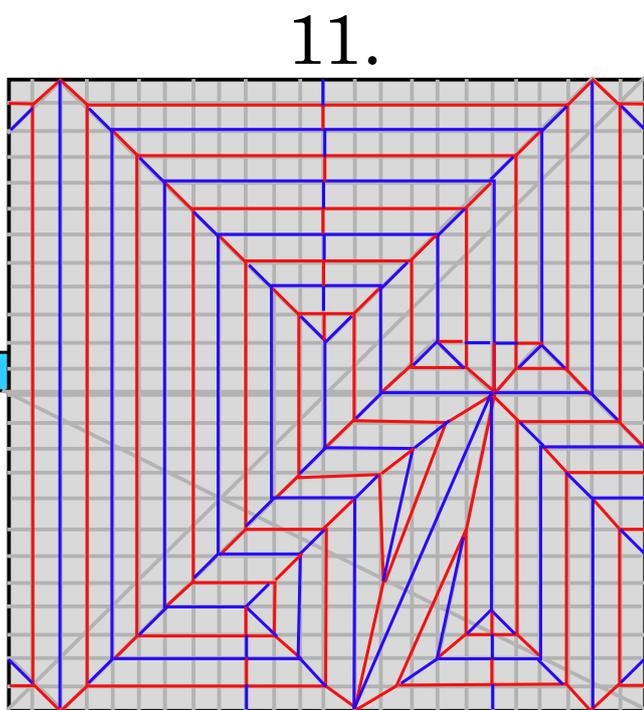

Fold to 24 by 24 grid.
Divide each square 3 times.

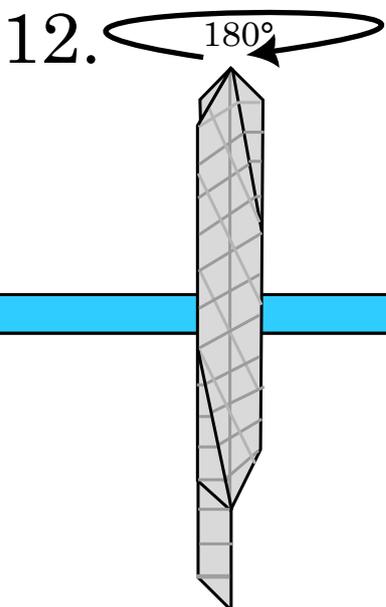

Like so.

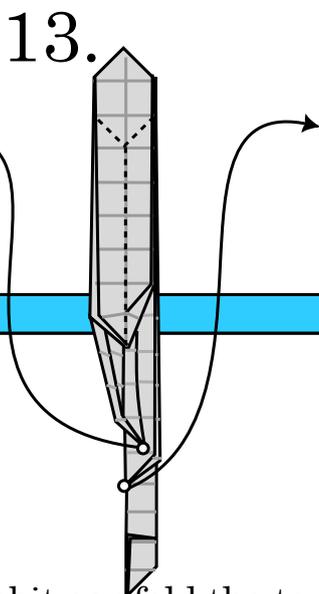

Crease. simples!
Then flip it over.

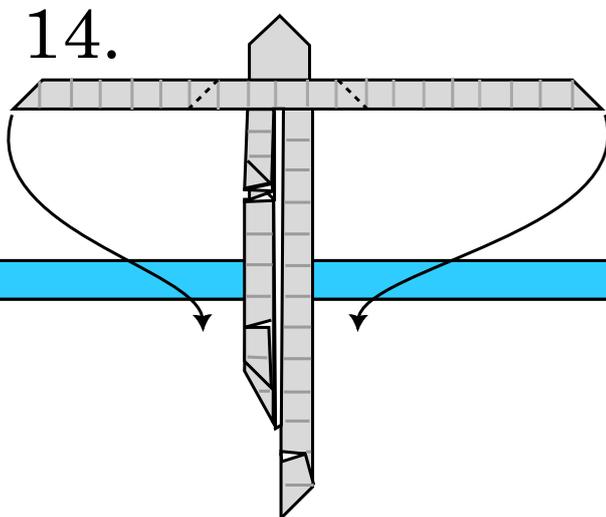

Collapse.

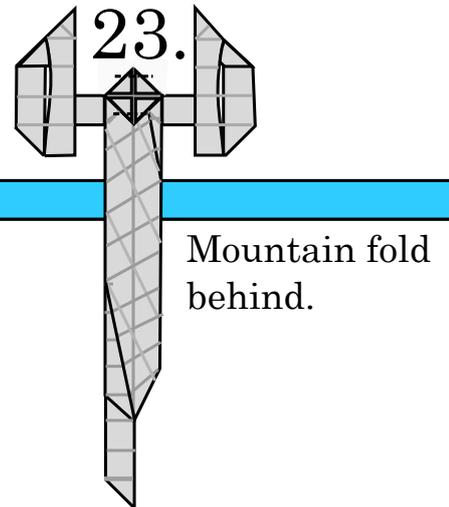

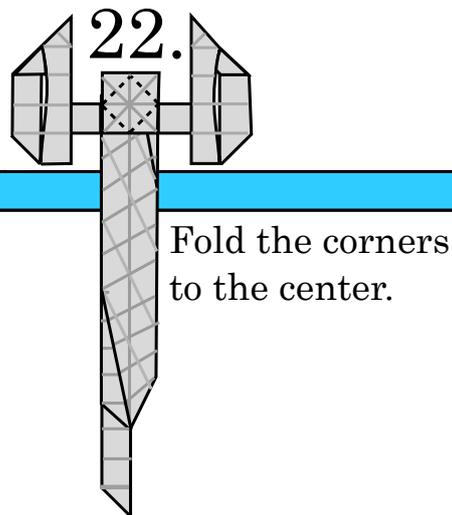

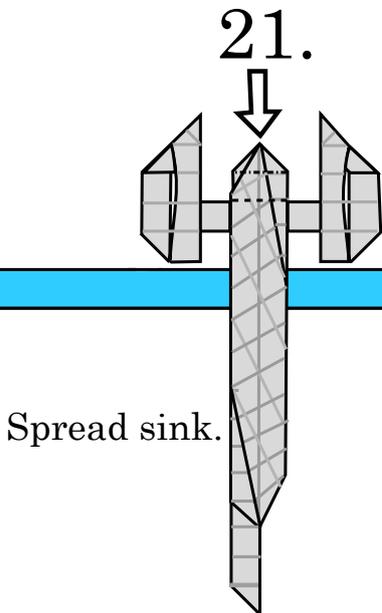

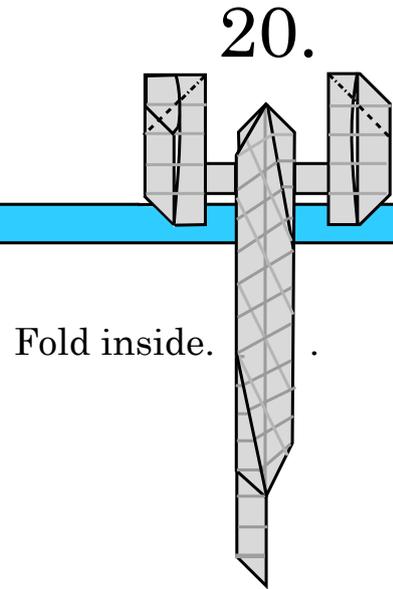

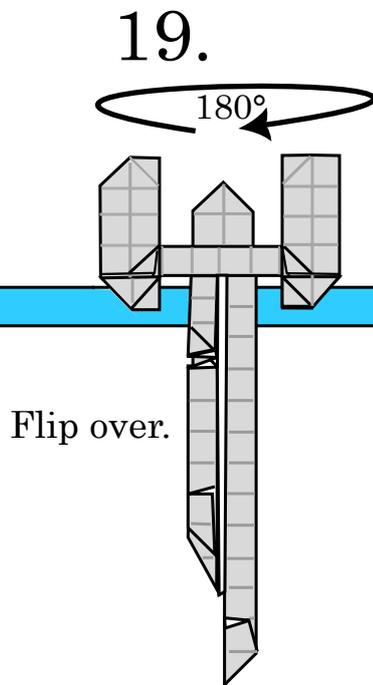

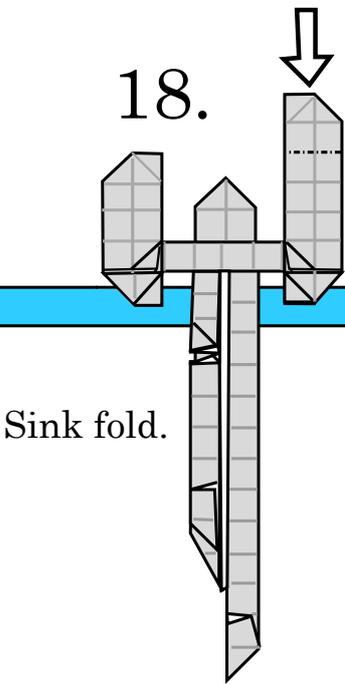

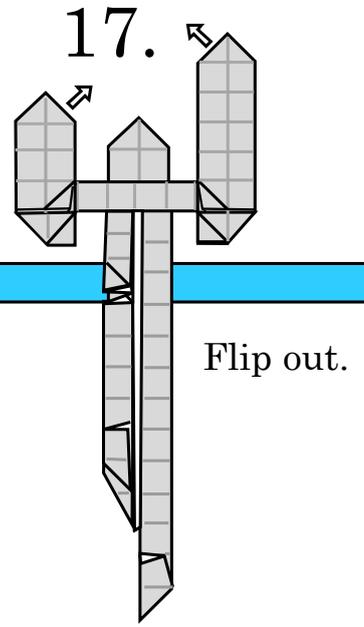

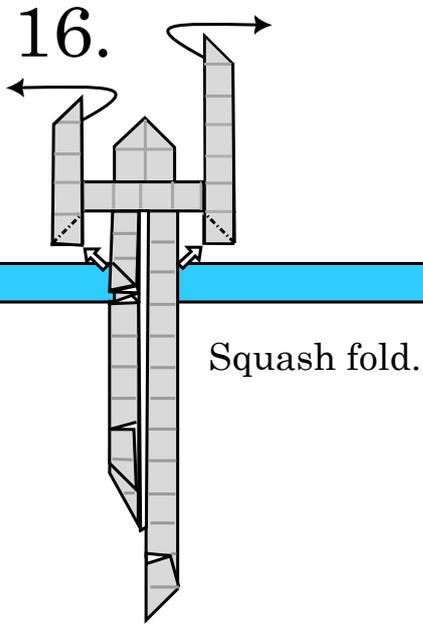

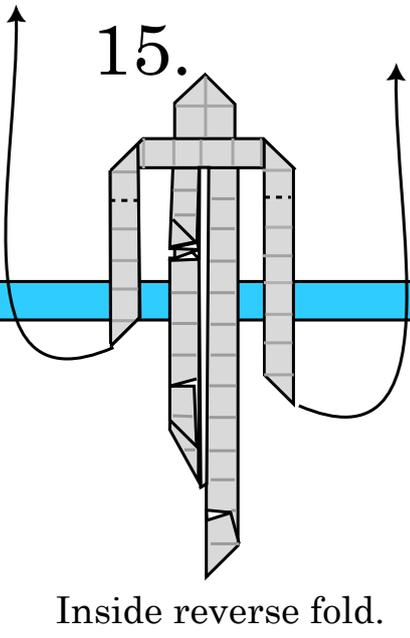

Flip behind.

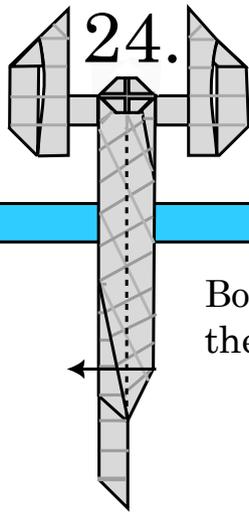

Rabbit ear fold the top layer
to the left, and fold the bottom
layer to the right.

Inside reverse fold.

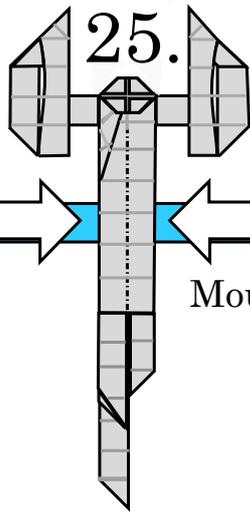

24.

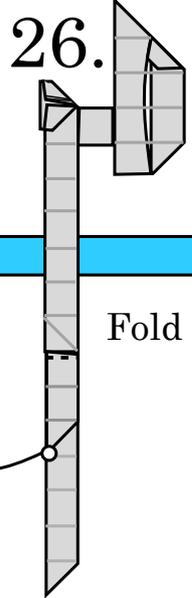

Book fold to the left.

90°

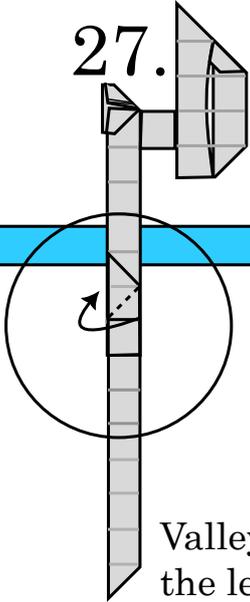

25.

Mountain fold.

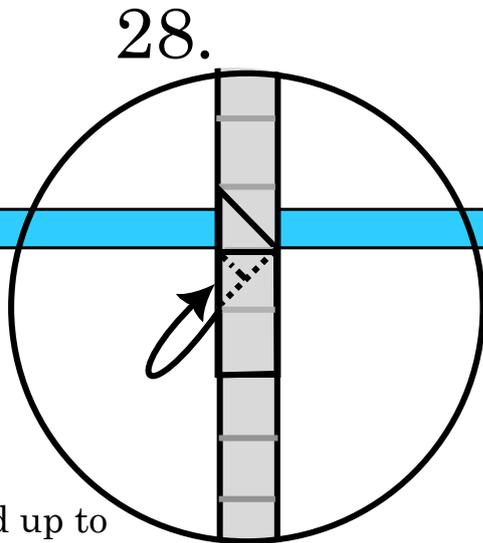

26.

Fold up.

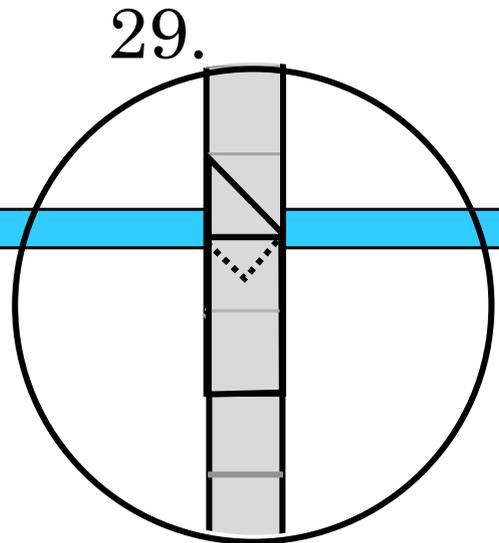

27.

Valley fold up to the left. Zoom in.

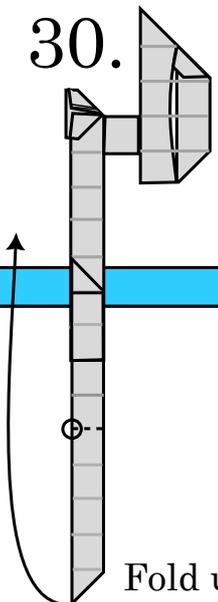

28.

Fold the inner flap in half (**mountain** or **valley**).

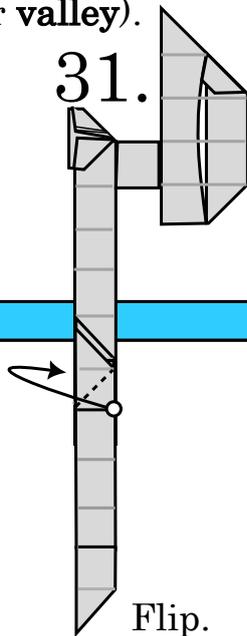

29.

Tadaa! The extra layer is locked.

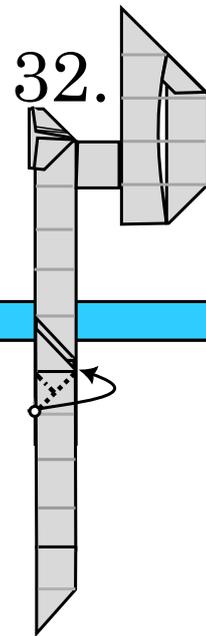

30.

Fold up.

31.

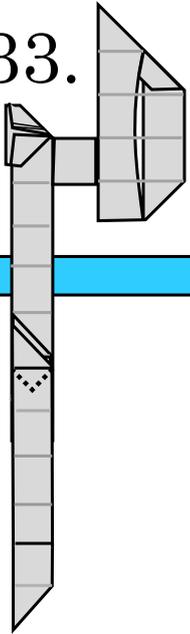

Flip.

32.

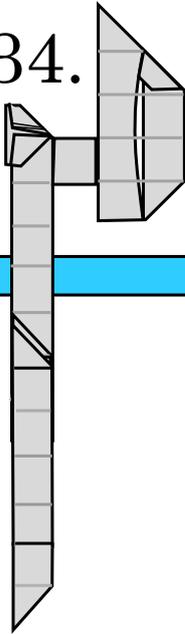

Fold the hidden triangle in half.

33.

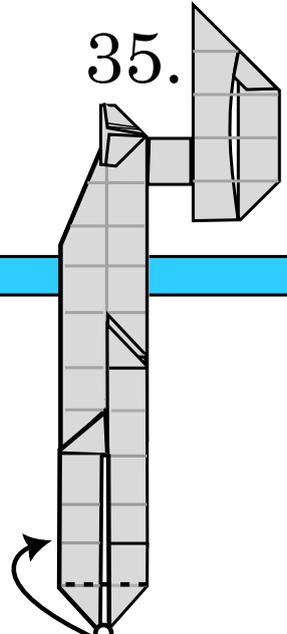

Locked! Like so.

34.

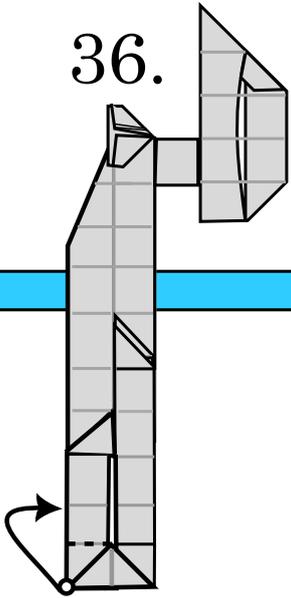

Pull out.

35.

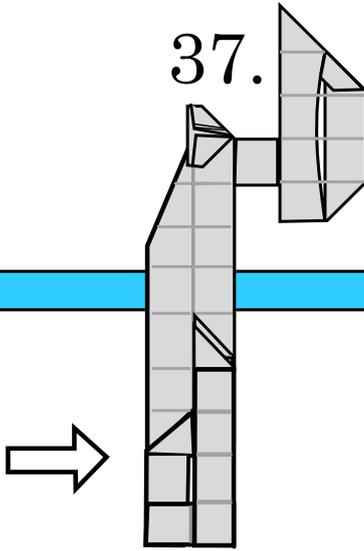

Valley fold.

36.

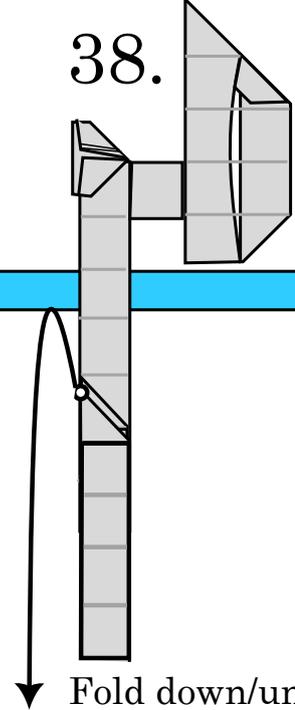

Valley fold.

37.

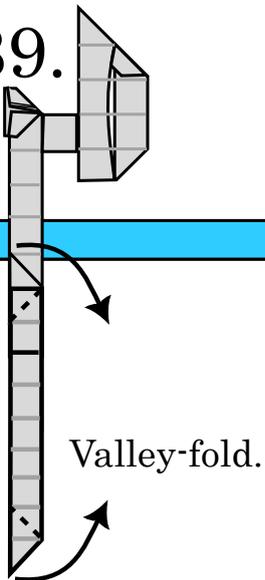

Fold behind.

38.

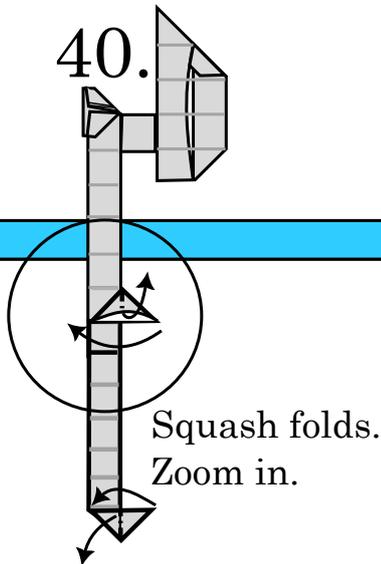

Fold down/unfold.

39.

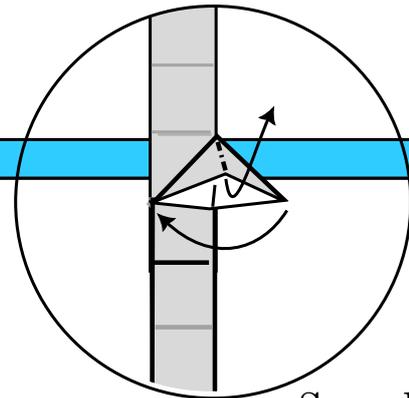

Valley-fold.

40.

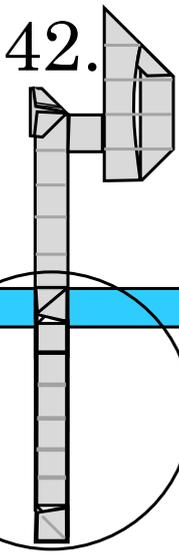

Squash folds.
Zoom in.

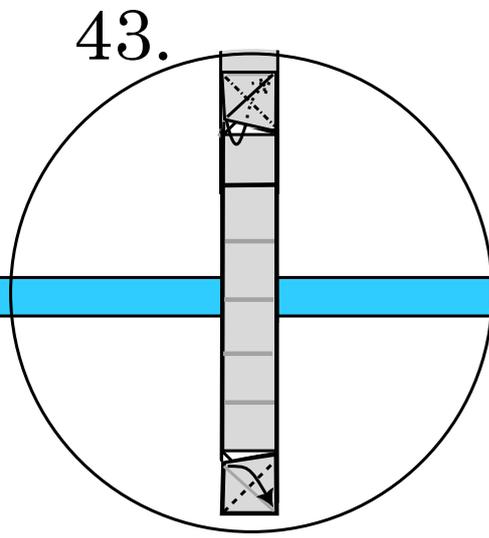

41.

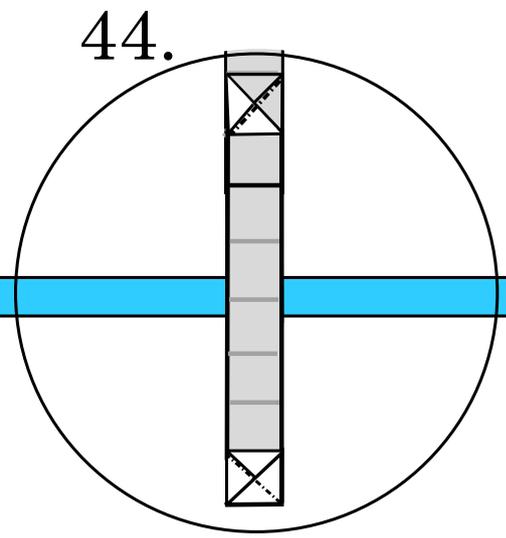

Squash fold.

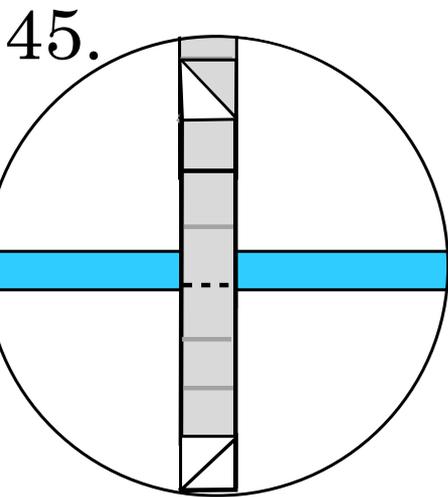

Zoom in.

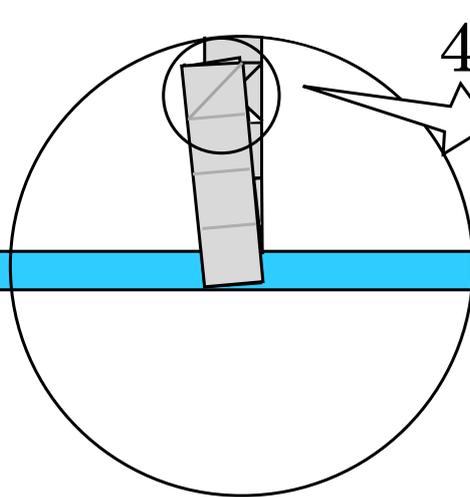

Mountain fold the top layer inside the pocket.
Valley fold the bottom outside.

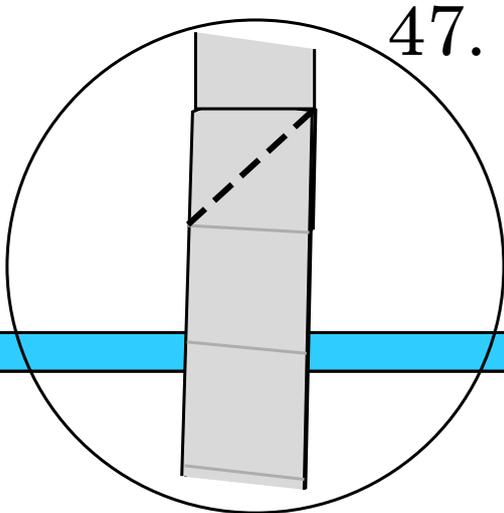

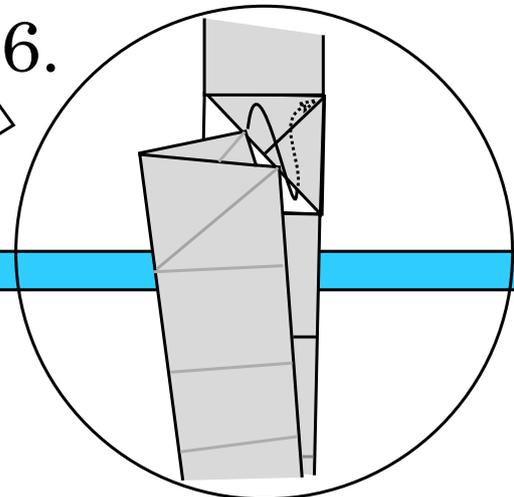

Mountain-fold and unfold the white square diagonally in half, making a **sharp** crease.

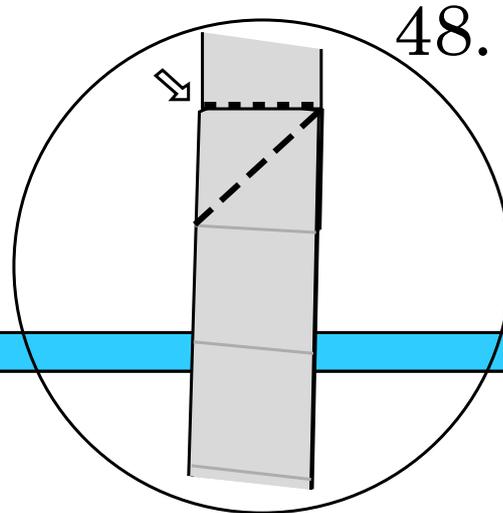

Valley-fold the bottom strip in half, bringing both ends together.

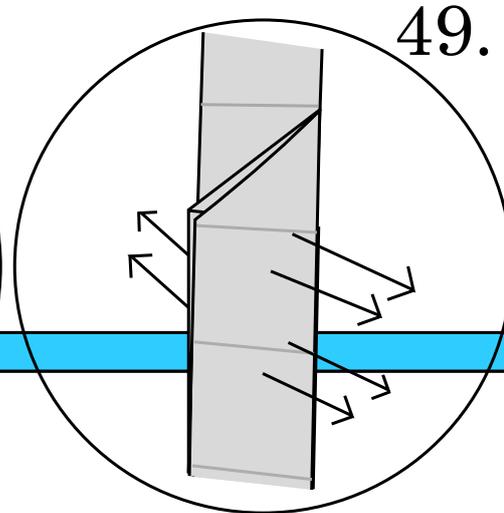

Insert only the **small flap** into the other **small flap's** pocket so that both **small flaps** can finally be united, happily bonded forever.

Valley-fold and unfold, with all your might, along the **sharp** crease made in step 46.

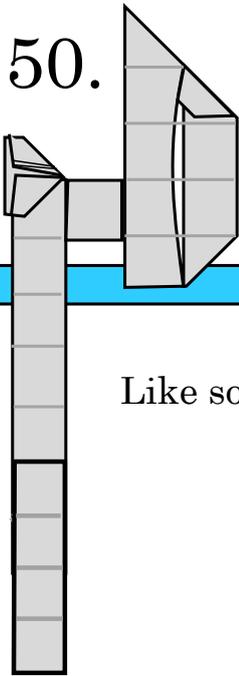

Reverse-fold into any one of the three most convenient slots. Basically, just push the thing in and it's bound to work.

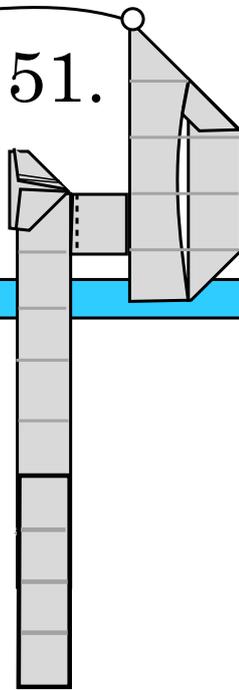

By golly, they're locked! It must be magic! Open up and round out the ring. Then press down flat.

50.

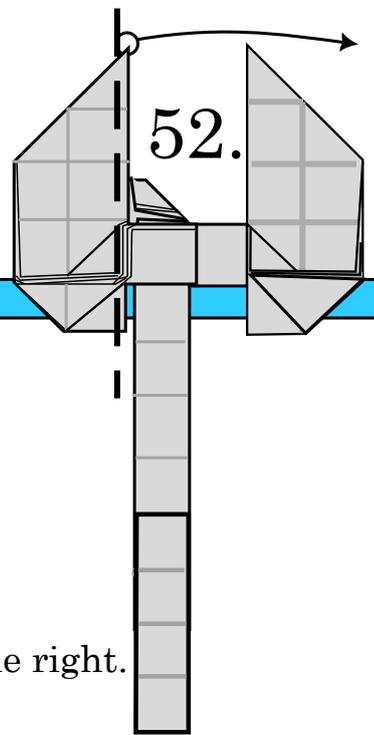

Like so.

51.

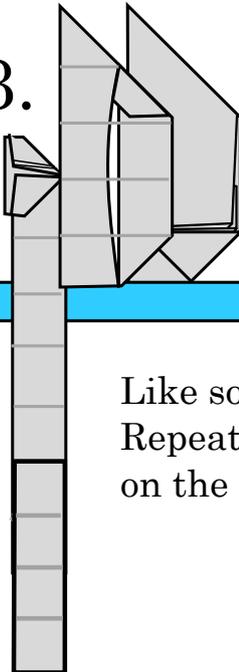

Fold to the left.

52.

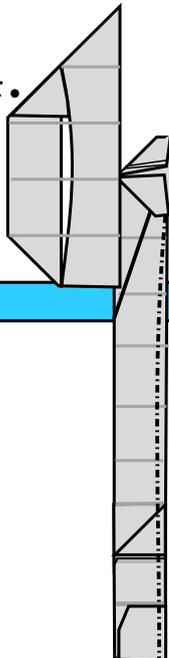

Fold to the right.

53.

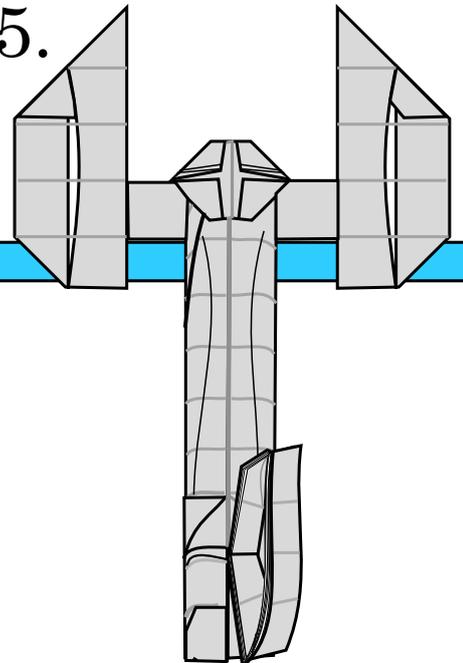

Like so.
Repeat steps 50-53
on the left/backside.

54.

Now shape to taste.

55.

Voila.
